Prepare This Yourself.

For those who have any form of blood disorders; who want new, rich blood and plenty of it, try this: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime. Any good pharmacy can supply the ingredients at small cost. This is the prescription which, when made up, is called "The Vegetable Treatment;" by others, the "Cyclone Blood Purifier." It acts gently and certainly does wonders for some people who are sickly, weak and out of sorts, and is known to relieve serious, long-standing cases of rheumatism and chronic backache quickly. Make come up and try it.

To Morrow County Fruit Growers.

Positively all trees must be sprayed with lime and sulphur. Scale's spreading in too many orchards in the county with deadly effect. It not only ruins the fruit but quickly kills the trees. We can and must kill it out now. To be sure you have good spray, I am making it myself at cost of material and labor. Drop me a card stating the number and size of your trees and I will put up the required amount in keg or barrel. It will cost you 10 cents a gallon and price of keg or barrel. This is only one fourth cost of prepared sprays which give very unsatisfactory results. Arsenate of lead is considered the best spray for worms. First applications are to be made after blooms fall. I shall make it in sufficient quantity for all. The quicker you spray for scale the better. HARRY CUMMINGS, Fruit Inspector for Morrow County.
