What Gasoline Will Do.
Gasoline will accomplish a host of wonders in restoring soiled treasures to their first glory. Many fabrics that resist a water bath and a hot iron will issue from a gasoline bath as good as new. One of the advantages of gasoline and naphtha is the fact that nothing is crossed by a cleansing with it. Clothes already in a fabric are not removed by a bath in it either. Some persons claim that the matted pile of velvet is raised by immersion in gasoline. The experiment is worth trying.

Novel Dough Cutter.
An inventor has devised a cake cutter by which cakes of a uniform size can be cut from the dough, leaving a minimum amount of material to be worked over for the second time, and one that is especially adapted to the cutting of doughnuts, lady fingers, fancy

cy pastry, etc. It consists of two disks of tin or other desirable material, the edges operating as a cutter. Between the disks are a number of horizontal cutting blades. These blades are made of narrow strips of tin and are arranged so that the outer edge is even with the edge of the disks, the cutters being rigidly secured.

All the performances of human art at which we look with praise or wonder are instances of the resistless force of perseverance.—Johnson.

CONTEST NOTICE.

Why Don't Homeseekers Come To Morrow County?

Morrow county produces more wealth per capita than any other county in the state of Oregon. Our territory within county lines is 75 miles in length by 3 miles in width, large enough for a state, but with not enough population for a good sized country village. Only 5000 people in the county.

Every year we grow about 1,000,000 bushels of wheat. This is worth about \$700,000.

We have about 225 '00 head of sheep worth about \$562,000, after shearing while the wool from these sheep will sell for \$360,000. Then there are horses and cattle worth at least a half a million more.

These are the main items in the wealth producers. It don't take much figuring when you look at these figures to come to the conclusion that Morrow county people make some money. We have the soil, the climate and the goods to make good.

Morrow county's climate is pleasant and healthful.

Morrow county people are prosperous. Morrow county people have money. Here in the town of Heppner we have two banks. The First National in published statements shows deposits running from half a million dollars up. Both banks have a big business. Heppner can show the largest bank deposits of any town of its size in the Northwest, and it should be remembered that Lexington, nine miles away, and Ione, 18 miles from Heppner both have banks doing a good business. This looks like Morrow county people have money.

But look here, almost half the population of Morrow county reside in the towns. This leaves only between 3,000 and 4,000 people in a territory 75 miles in length by 35 miles in width. Don't you think there is room for more people.

Ten or twelve years ago land in Morrow county went begging at from \$100 to \$250 for a quarter section.

Five years ago this land had looked up to \$6.00 and \$7.00 per acre. Today this land is worth \$15 per acre with a few of the choicest lots some times bringing \$20 per acre. Now the old timers are wondering why they did not take advantage of this cheap land. They could have made a barrel of money.

Over in the adjoining county of Umatilla wheat lands today are worth from \$50 to \$75 an acre. On the other side of us is Sherman county with wheat lands selling from \$25 up. Here we are between with just as good land at \$15 per acre. Our lands are sure to go up in price. In a few years the people here will be again wondering why they did not buy some of this \$15 land. The proposition is the same now as it was a few years ago, but it takes more money. Last year and year before a number of good farmers bought wheat lands and paid for it with the first crop.

Come to Morrow county and investigate this land business.

Following are a few samples of what we have for sale:

COLDS THAT HANG ON

So frequently settle on the lungs and result in Pneumonia or Consumption. Do not take chances on a cold wearing away or take something that only half cures it, leaving the seeds of serious throat and lung trouble.

FOLEY'S HONEY AND TAR

Stops the Cough and heals the lungs and prevents
Pneumonia and Consumption

Consumption Threatened
C. Unger, 211 Maple St., Champaign, Ill., writes: "I was troubled with a hacking cough for a year and I thought I had consumption. I tried a great many remedies and I was under the care of physicians for several months. I used one bottle of FOLEY'S HONEY AND TAR. It cured me, and I have not been troubled since."

Cured Hemorrhages of the Lungs
A. M. Ake, Wood, Ind., writes: "Several years since my lungs were so badly affected that I had many hemorrhages. I took treatment with several physicians without any benefit. I then started to take FOLEY'S HONEY AND TAR, and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble."

Three Sizes—25c, 50c, \$1.00. The 50-cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much. REFUSE SUBSTITUTES.
