TEN YEARS OF PAIN.

Unable to Do Even Housework Because of Kidney Troubles.

Mrs. Margaret Emmerich, of Clinton St., Napoleon, O., Says: "For fifteen years I was a great sufferer from kidney troubles. My back pained me terribly. Every turn or move caused sharp, shooting pains. My eyesight was poor, dark spots appeared before me, and I had dizzy spells. For ten years I could not do housework, and for two years I did not get out of the house. The kidney secretions were irregular, and doctors were not helping me. Doan's Kidney Pills brought me quick relief and finally cured me. They saved my life."

BAD BLOOD

THE SOURCE OF ALL DISEASE

Every part of the body is dependent on the blood for nourishment and strength. When this life stream is flowing through the system in a state of purity and richness we are assured of perfect and uninterrupted health; because pure blood is nature's safe-guard against disease. When, however, the body is fed on weak, impure or polluted blood, the system is deprived of its strength, disease germs collect, and the trouble is manifested in various ways. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that will continue to grow worse as long as the poison remains. These impurities and poisons find their way into the blood in various ways. Often a sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, leaves the refuse and waste matters to sour and form uric and other acids, which are taken up by the blood and distributed throughout the circulation. Coming in contact with contagious diseases is another cause for the poisoning of the blood; we also breathe the germs and microbes of Malaria into our lungs, and when these get into the blood in sufficient quantity it becomes a carrier of disease instead of health. Some are so unfortunate as to inherit bad blood, perhaps the dregs of some old constitutional disease of ancestors is handed down to them and they are constantly annoyed and troubled with it. Bad blood is the source of all disease, and until this vital fluid is cleansed and purified the body is sure to suffer in some way. For blood troubles of any character S. S. S. is the best remedy ever discovered. It goes down into the circulation and removes any and all poisons, supplies the healthful properties it needs, and completely and permanently cures blood diseases of every kind. The action of S. S. S. is so thorough that hereditary taints are removed and weak, diseased blood made strong and healthy so that disease cannot remain. It cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., and does not leave the slightest trace of the trouble for future outbreaks. The whole volume of blood is renewed and cleansed after a course of S. S. S. It is also nature's greatest tonic, made entirely of roots, herbs and barks, and is absolutely harmless to any part of the system. S. S. S. is for sale at all first class drug stores. Book on the blood and any medical advice free to all who write.

State Treasuries Overflowing.

Through ingenious methods of taxing railroads the treasuries of some States are so swollen that State officers are puzzled to know what to do with State funds. New Jersey's receipts from corporations have filled its treasury. Pennsylvania had a surplus of \$10,000,000 and no debt to speak of. Back taxes received from railroads and the collection of a war claim of \$1,000,000 have enabled Wisconsin to pay extraordinary expenses, put \$643,000 into the State treasury and cut the school tax levy in two.

A Nurse for Sick Dogs.

A young New York woman is a trained nurse for sick dogs. For some time she has been a member of the staff of the New York Dog Hospital, where the sick pets of the wealthy are nursed back to health. She often has as many as a hundred dogs to care for. It is her duty to give them their medicine, and in other ways carry out the doctor's orders exactly as a trained nurse would do for human patients.

American tunnel projects have attracted attention abroad. The French government will build a tunnel for railroad purposes under the Seine from Havre to Rouen and has retained the services of Charles M. Jacobs, designer of the Pennsylvania railroad tunnels under the North and East rivers at New York.

Pennsylvania still leads in the number of her coke-making plants. She has 112, and their product in 1905 was 70 per cent of the country's total output of coke. Fifteen years before the percentage was over 84. The capital represented in the establishments of this country is \$90,712,877, and the total number of wage earners is 19,000.

In human history a great river has sometimes formed a dividing line between peoples possessing quite different characteristics. Dr. W. M. Lyon, Jr., has discovered a similar phenomenon affecting squirrels in Borneo. He found eight different forms of squirrels inhabiting the northern and western parts of that great island, and observed that a large river proved an effectual barrier in separating two distinct races.

Engineers are harnessing many of the waters of the world to the use of man. A great project is under way to catch the floods which rush down the Western Ghats, near Bombay, and to use the water-power in cotton mills and other factories. The valleys are of rocky formation, and with dams at the lower ends can be made into tight reservoirs. Three valleys will be closed in by dams respectively half a mile, a mile, and a mile and a half long.

One of the reasons why pneumatic tires gradually become exhausted, even when unpunctured, is that the compressed air within slowly escapes through the rubber, and this process is hastened by the oxidation of the rubber, which causes it to crack. As at least a partial remedy for this, it has been proposed to inflate tires not with ordinary air, but with nitrogen, an inert gas which does not affect the rubber. Tests of nitrogen-inflated tires for automobiles have been made in France, and the results are said to be encouraging.

MAN'S OBSTINACY THE CAUSE.

As Meeker Wouldn't Wear Wig Wife Was Compelled to Divorce Him.

George L. Meeker, an actor, is waiting for Judge Patton to grant him a divorce from Minnie Meeker, and he blames all his troubles to his bald head. The story which he took to the judge caused some merriment in the court room, where several baldheaded men were waiting to be called as witnesses in other cases. Although the technical charge is desertion, Meeker attributed the trouble to his lack of hair. He told the court his wife left him in 1901.

"Why did she leave you?" asked Judge Patton. "Another man in the case?"

"Nope," responded Meeker, placing his hand on his bald head. "This was the cause of our trouble. Before my wife deserted me my hair began to fall out, and finally I was almost completely bald. Well, Minnie wanted me to buy a wig, but I objected to wearing one and said so."

"And you refused to buy the wig?" asked the court.

"Yes, that was it, and my wife then began nagging at me until we quarreled about it."

"Well, well," meditated Judge Patton. "Bald head-divorce." Slowly the judge placed his hand on his own head thoughtfully. "Yes, I am beginning to get bald, and I wonder-I wonder-if that will cause trouble with the folks at home!" he soliloquized.

The case was taken under advisement.-Chicago Tribune.

What Words Can Do.

"Any one who swears," declared the bishop of Carlisle, "manifests the beggarliness of his vocabulary." The Concord Patriot puts it in this fashion:

"People swear because they do not know the possibilities of plain English or have not the skill to manipulate it so that it will yield the amount of fire they want. You can do almost anything with common words. No matter how tame and lifeless they looking standing in stupid rows as if they didn't know enough to come in when it rained, they can be made to dance like imps, to frolic like fairies, to float angelwise on light wings, to glow like fire spirits. They can do things that make the ordinary bits of profanity look like feeble scoundrels stiffened up with a fence stake. The cure for profanity-reformers and educators please make a note-is merely wit enough to handle your words so that swearing will seem like baby talk in comparison."

A woman is apt to make some very striking remarks when she has occasion to hit her husband for a little pin money.

We Trust Doctors

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

You must look well after the condition of your liver and bowels. Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia, and thus preventing the Sarsaparilla from doing its best work. Ayer's Pills are liver pills. Act gently, all vegetable. The dose is only one pill at bedtime.

Getting His Measure.

Aunt Ellura was preparing soup for dinner, when one of the neighbors happened in on a borrowing errand.

"Why, Aunt Ellura, isn't that an unusually large soup-kettle?" asked the caller, with a calculating glance at the stove on her passage across the kitchen.

"If you're just looking at the kettle, it does seem plumb sizable," said Aunt Ellura, calmly; "but when you cast your looks on the extents and pliability of my Enoch's mouth, I reckon 'twon't look any too large, that kettle won't."

Properly Censored.

"When Maxim Gorky dined with me," said a literary New Yorker, "he talked about the Russian censorship. 'He said that in the course of the Russo-Japanese war he had occasion in an article to describe the headquarters of one of the grand dukes. He wrote of these headquarters, among other things: 'And over the desk of his highness's tent is a large photograph of Marie la Jambe, the beautiful ballet dancer.' 'Before this article could appear, the censor changed that sentence to: 'And over the desk of his highness's tent is a large map of the theater of war.'"

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtlessly it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.
