

The Heppner Gazette

Established March 30, 1888.
ISSUED THURSDAY MORNING.

Fred Warnock

Printed at the Postoffice at Heppner Oregon, a second-class matter.

THURSDAY..... June 20, 1907.

And now Joaquin Miller wants to be Oregon's next Senator, but this is not a serious problem.

The Adams Express company has just declared a dividend of 300 per cent. Who said that express charges were high.

Labor was never paid better and never was harder to get than at the present time. There does seem to be something wrong in the labor problem.

According to a report just issued by the Oregon State Board of Health, for the month of April this year there were 422 deaths, 579 births and 310 marriages.

Heppner business men have subscribed liberally toward paying the expense of a big Fourth of July celebration, and the money will be well spent to show everybody a good time.

The district fair to be held in Pendleton this fall will commence on September 23, for one week. At a recent meeting of the directors their report showed the association to be in good condition financially.

One day last week a Umatilla county farmer brought in a lot of wheat and sold it for 80 cents per bushel at one of the Pendleton mills. This sounds good to the farmers with their thousands of acres of fine wheat and especially near Morrow county.

The efforts of the Heppner business men to interest men of large capital in the coal mines near here are being successful. The desire to get men of means, sufficient to secure a railroad, interested in them then they can be worked.—Spray Courier.

The way the timber supply of the United States is going can be realized from one item which is hardly thought of, and that is the manufacture of paper. There are, all told, 1100 paper mills in the United States, producing \$200,000,000 worth of paper a year. They burn up 3,000,000 tons of wood yearly and shred 2,000,500 cords of wood into pulp. About 12,000,500 trees are cut down to feed these paper mills, every tree being nine inches in diameter.

The advice of a wool buyer as published in last week's Gazette, is worthy of investigation by the shepherds. If the growers can get a better price for their wools by being more careful in sacking and tying it at shearing time, the extra trouble would be a good investment. Nat Webb states that he paid his shearers 10c per head this season to use extra care in putting up his wool for market, and the fact that he received 20 1/8 cents per pound for his wool would seem that the extra price for shearing was well spent.

One thousand of Oregon's pioneers are now holding their 35th annual reunion in Portland. Some of them in point of residence in Oregon, date as far as away back to 1839. And what a grand meeting it is. A big family reunion. While sad recollections of hardships and privations will be recalled, still these pioneers can and will have much pleasure not only in social reunion but also in the realization of the fact that everywhere today there is evidence of a great and prosperous state which has grown from the foundation

that they built. The grand old pioneers, we love and honor them.

Ione, Lexington and Heppner will celebrate the Fourth of July. It is to be hoped that all will be successful in their efforts to entertain the people on our nation's birthday. Strife and envy should be entirely eliminated from the minds of all interested. Bad feeling is not only detrimental but uncalled for. The Ione Proclaimer is laboring under a wrong impression in the statement in last week's issue that Heppner is "butting in." The Gazette can assure the people of Ione that they have the best wishes of Heppner in their efforts. Morrow county is big enough and we hope broad enough to hold three good celebrations where patriotism will overshadow strife and envy. Heppner has held one celebration within the past seven years and it is not overdoing things to hold another this time.

Brock-Reid.

A quiet wedding occurred yesterday evening at the home of Prof. and Mrs. D. V. S. Reid, when their youngest daughter, Miss Lenna Leota, was united in marriage to Mr. Clyde Brock. Only about twenty of the closest friends of Mr. and Mrs. Brock were present to witness the simple though very impressive ceremony, which was performed by Rev. Edwin Wright of the Christian church. Mr. Harry A. Duncan and Miss Ethel Reid, best man and bridesmaid respectively, very cleverly escorted the contracting parties to the nuptial altar.

The high character of these two young people makes this one of the most prominent June weddings to occur this season.

Mr. Brock is employed as teller in the First National Bank, and has been connected with this institution for the past five years, and through his accommodations and genial nature he has made for himself friends without number as well as being a credit to his employers.

Miss Reid has been a resident of our city for the past seven years and has been employed at teaching in the public schools of Heppner and Morrow county. Miss Reid through her many accomplishments has won for herself a large circle of friends wherever she has gone.

After the ceremony, the newly married couple went immediately to their newly furnished home on West Baltimore avenue, where they will be at home to their friends. Tokens of esteem were manifested in many beautiful presents of cut glass and silverware. Those who witnessed the ceremony were: Prof. and Mrs. Reid, Rev. and Mrs. Wright, Mr. and Mrs. Conser, Misses Morgan, Rood, Morehouse, Behrens, Messrs. Huddelston, Pruyn, Huddelston, Dr. Leach, McCall, Gaynor.

For news and opinions—the Oregonian.

Mr. and Mrs. C. E. Redfield returned from Portland, Sunday.

"The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgment are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purifies the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, leprosy, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

Wanted and For Sale

Glasses properly fitted at P. O. Borg's.

Highest cash price paid for hides, pelts and furs. Phill Cohn.

Semi-Weekly Portland Journal and Heppner Gazette only \$1.75 per year.
