ODD SHOE FACTS.
 Greek shoes were peculiar in reaching to the middle of the legs.
 The present fashion of shoes was introduced into England in 1633.
 In the ninth and tenth centuries the greatest princes of Europe wore wooden shoes.
 Shoes among the Jews were made of leather, linen, rush or wood; soldiers' shoes were sometimes made of brass or iron.
 In the reign of Richard II. shoes were of such absurd length as to require to be supported by being tied to the knees with chains, sometimes of gold or silver.
 In the reign of William Rufus of England in the eleventh century a great "dude," Robert the Horned, used shoes with sharp points stuffed with tow and twisted like rams' horns.
 The Romans made use of two kinds of shoes—the solea, or sandal, which covered the sole of the foot and was worn at home, and the calceus, which covered the whole foot and was worn abroad.
Victory and After.
 Many a man in a moment of fine enthusiasm applauds Patrick Henry's "Give me liberty or give me death." It is a proper sentiment to entertain, but not easy to live up to.
 Most of us feel more like the Pennsylvania Dutchman who told his wife to write an appropriate inscription on his knapsack, which she was packing on the eve of his departure to join Washington's army in the Revolution. The enthusiastic woman, dreaming of her hero coming home a general, at least, wrote in good, round letters, "Victory or Death."
 In a few moments her husband caught sight of it.
 "No goot! No goot!" he exclaimed in great excitement. "Take dat off quick! Put on goot words, 'Victory, oder come back again.'"—Youth's Companion.
 I will open a fruit and vegetable store in the Scrivner restaurant building, July 1st. Will keep ice cream, candies, nuts, tropical fruits, cigars and tobacco, berries, fruits, jams and jellies, in Mason jars, put up by ourselves.

I got Doan's Kidney Pills at a drug store, and through using same found complete relief from a dull aching in the back that had been almost continual. They regulated the kidney secretions to a normal condition and added strength and tone. It is a pleasure to let other sufferers know of this remedy."
