THURSDAY..... Aug. 8, 1907.

"FOR ROOSEVELT."

T. C. Taylor of Pendleton, who is a close student of economic and political questions, says upon his return from an extended visit in the east that the preponderance of sentiment seems to be "for Roosevelt" for president.

And why not? He says that the substantial monied interests of the east, all of those not speculative and predatory, are for Roosevelt and that the working classes, which are now enjoying unprecedented prosperity, excepting, of course, a few leading agitators, are for Roosevelt.

In the east, as here, the great middle class of people are for Roosevelt, and from every indication the next republican national convention will be stamped by Roosevelt delegates until the president will be forced to accept another term.

There is more reason for his election now than ever before. His great work is not half done. Panama needs his vigorous direction. The public land question needs his aggressive policy for a few years longer, and Harriman and his gang of corruptionists and Debs and his "army" all require a Roosevelt policy for a few years yet.

No matter how well qualified a new president might be, he could not take up the Roosevelt policy in the midst of the work. Roosevelt has his forces organized, has his work in hand, has his policy outlined and no other man can complete his task as well as he. For these reasons, Roosevelt should be the logical choice of every progressive voter, regardless of political affiliation.—East Oregonian.

FOR CLOSER RELATION.

Japan and The United States Will Settle Differences.

CHICAGO, Aug. 5.—A special dispatch to the Tribune from Washington says:

Japan and the United States propose to demonstrate to each other and to the world their mutual desire to maintain close and friendly relations. The demonstration is to take the form of negotiations for the removal of all differences which have arisen between them. As a result of investigations in Asiatic immigration conditions which Secretary of Commerce and Labor Straus and the Japanese commissioners are making, the two governments will be in a position to approach the settlement of the grave exclusion question with a better appreciation of each other's necessities and embarrassments.

The Japanese Ambassador, Viscount Aoki, has given the Administration to understand that this government is opposed to pelagic sealing, which means it does not countenance in any way the poaching operations of Japanese sealers, nor will it tolerate a like operation in Japanese waters by American sealers. Beyond these two matters there are no differences of any material consequences to be adjusted.

The question which is most difficult of settlement is that of immigration. Although a delegation of business men from California came to Washington to urge the President to take action toward lowering the bars against Asiatic immigration, there is no doubt such an action is impossible at the present time. Eventually, in the judgment of the President, all the immigration restrictions will be removed. As he pointed out in conversation with the Japanese, 50 years ago the latter refused to admit Americans into their country. Today Americans do not admit Japanese. Fifty years hence the objection of the United States to the Japanese coming here will have disappeared and, moreover, the destiny of population will be such that the Asiatics will find sharper competition than they do now and will not care to come to this country.

A contract has been signed and the machinery is on the ground at Fayette, Idaho, to bore 3500 feet if necessary for oil, gas or whatever else of value may be found.

FOR ANOTHER TRIAL.

Peary Will Start in Attempt to Reach Pole.

PORTLAND, Me., Aug. 5.—Commander Robert E. Peary left here today for New York, whence he will sail in a few days on an expedition to the North Pole. Commander Peary said today:

"From New York I shall go direct to Sidney, C. B., where I shall coal, and there will be no stops on the way, as I have no time to lose.

"My crew this time will be practically the same as on my last trip. Captain Robert Bartlett is to command the Roosevelt. I am prepared to make every effort to reach the Pole. If I do succeed next Summer, I shall stay over a year. If I do not succeed, I shall stay one year later. I am taking along everything for a three year's trip."

Commander Peary, giving some details of his plans said:

"John Murphy, my old boatswain, is to be with me again. I am to have Wardwell, my old chief engineer. Ross G. Marvin, of Bucksport, is to be my assistant, and he will be the only Maine member of the party. I am to have a new surgeon. There are several applications for the position, but as yet no one has been chosen. I will settle that when I get to New York."

Asked if he expected to reach the Pole this time, Commander Peary said:

"A man who has had an experience in the North knows that to say he will do a certain thing up there is madness. I have learned many lessons from my other trips and I shall profit by all my experience. What I shall find at the Pole is a question that cannot be answered until I have reached it."

Asked if he had ample funds for carrying on the expedition, Commander Peary replied:

"I will say one thing, and that is that the delays in repairs on the boilers of the Roosevelt have been and are now worrying me a great deal more than the money with which to finance the expedition."

Commander Peary appeared today to be in rugged health and was full of enthusiasm for the trip.

PRODUCTS OF ONE MASTER MIND

Standard Oil Company Most Perfect Machine.

Chicago, Aug. 3.—(Special.)—Standard Oil—A synonym of financial hypnotism—is the product of one master mind. John D. Rockefeller and his associates have evolved from a beginning of nothing the most complete, most perfectly organized and extravagantly successful piece of business machinery the world has ever known, an organization which leaves the East India Company, a marvel in its day, a mere bagatelle.

The Standard Oil Company faced a master for the first time in its career of 41 years when it was haled before Judge Landis and mulcted to the full extent of the law.

From the time four young men joined resources of less than \$100,000 in the formation of the original Standard Oil Company to the last dividend-declaring period of 1907, which marked the distribution of nearly \$50,000,000 in profits for less than one year, Standard Oil has conquered all that stood in its way, mastering all obstacles, relegating the law of supply and demand to the dead letter statutes and sweeping all before it through the very force of its matchless system of business organization.

John D. Rockefeller, William Rockefeller, Henry H. Rogers, John D. Archbold, Henry M. Flagler, Oliver H. Payne and Charles M. Pratt comprise the inner circle of kings and princes of Standard Oil.

The LaGrande sugar factory has started its summer run, using for "stock" the residue syrup left over from last fall. The output from this residue will reach about 1250 sacks.

FIRST NATIONAL BANK

OF HEPPNER.

O. A. RHEA.....President | G. W. CONSER.....Cashier
T. A. RHEA.....Vic-President | E. L. FREELAND.....Assistant Cashier

Transact a General Banking Business. Four per cent. paid on Time Deposits.

EXCHANGE ON ALL PARTS OF THE WORLD BOUGHT AND SOLD

Collections made on all points on reasonable terms. Surplus and undivided profits \$70,000.

Of Interest To Women.

To such women as are not seriously out of health, but who have exacting duties to perform, either in the way of household cares or in social duties and functions which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nerve. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeon's knife, would, it is believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a MEDICINE OF KNOWN COMPOSITION, a full list of all its ingredients being printed, in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol, in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

WILL COLLECT FINE.

Standard Oil Will be Forced to Liquidate.

Riverside, Cal., Aug. 3.—In an address delivered tonight before the Chamber of Commerce, James R. Garfield, Secretary of the Interior, alluded to the fine imposed upon the Standard Oil Company at Chicago today. In the course of his speech he said:

"The decision and fine are the end of a long fight and will teach people of this country that no man, big or little, is above the law. The Standard Oil Company and others like that great corporation have gone ahead on the theory that they were so powerful that they could do things the ordinary citizen could not."

Asked if the prosecution could collect the fine, Mr. Garfield replied:

"You may be assured we can. There are 10,000 more counts hanging over them, in which similar fines can be administered."

WANTED—To buy 1200 to 1400 round teams for cash.—J. S. Saggart, Heppner, Oregon, or Gazette office, Aug. 8-22.

Pure Teas

are healthful-nerve soothing-delicious.

FOLGER'S GOLDEN GATE TEAS
