

DRIFTING TOWARDS BRIGHT'S DISEASE

Many people who are neglecting symptoms of kidney trouble, hoping "it will wear away," are drifting towards Bright's Disease, which is kidney trouble in one of its worst forms.

FOLEY'S KIDNEY CURE

stops irregularities, strengthens the urinary organs and builds up the worn-out tissues of the kidneys so they will perform their functions properly. Healthy kidneys strain out the impurities from the blood as it passes through them. Diseased kidneys do not, and the poisonous waste matter is carried by the circulation to every part of the body, causing dizziness, backache, stomach trouble, sluggish liver, irregular heart action, etc. If you have any signs of Kidney or Bladder Trouble commence taking FOLEY'S KIDNEY CURE at once, as it will cure a slight disorder in a few days and prevent a fatal malady. It is pleasant to take and benefits the whole system.

How to Find Out.

You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed upon arising. If upon examination it is cloudy or milky or has a brick-dust sediment or small particles float about in it, your kidneys are diseased, and FOLEY'S KIDNEY CURE should be taken at once.

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick-dust sediment and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed, and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble."

TO TEST SENTIMENT

Senator Bourne Offers Cash Prize.

Washington, Oct. 20.—Hon. Jonathan Bourne, Jr., of Oregon, United States Senator, has taken a unique step to test the sentiment of the country on the Presidential situation. Through the National Magazine, of Boston, Mass., he has offered a cash prize reward of \$1,000 open to the American people, for the strongest and best-written argument in support of his following assertions:

"First. That the sovereign people, and not Theodore Roosevelt, the individual and public servant, will decide who shall be his successor.

"Second. That Theodore Roosevelt cannot decline a second elective term or attempt to name his successor without making his own personal desires or egotistical opinions paramount to the combined wishes and intelligence of the Republican party and the electorate of the nation.

"Third. That Roosevelt's honesty, courage, initiative, imagination, versatility, and tremendous capacity for work, with heart and brain constantly attuned to the people's rights and commands, and his insistence upon the enforcement rather than the avoidance of laws, and the protection of the rights of men and property, have to an unparalleled degree gained the confidence of all people; that in the popular mind Roosevelt, during his executiveship, has demonstrated his ability and determination to make good as the people's chief public servant, and not their dictator; that this confidence, being a brain deduction and not a heart emotion, is impossible of destruction except by his betrayal; that by the selection of any other man, business contraction and restriction must exist during the period necessary for him to demonstrate to the people's satisfaction his ability and determination to make good, and, therefore, that, barring death or serious illness, President Roosevelt must and will be selected and elected for a second elective term."

The prize will be awarded March 15, 1908, the contest closing one month earlier, and three judges, gentlemen of high standing, will be named shortly to pass upon the arguments submitted. Senator Bourne, speaking of this offer, said tonight: "Frankly, my purpose is to secure discussion and agitation resulting in conviction and crystallization of opinion. Confident that the overwhelming sentiment of the country, regardless of party, favors the renomination and re-election of Roosevelt, I take this method of inviting an expression on the subject. The propositions set forth speak for themselves, and the responses thereto will, at least, tend to disclose the popular feeling existing today. If the views which I hold—and which are shared fully, I may add, by men from every section with whom I am brought in contact—are the views of the American people generally, then it is well to establish that fact and establish it at once. The earlier the demonstration, the better for the country.

"Nothing more conducive to business success and public tranquility could possibly occur at this time, in my opinion, than the substitution of certainty for uncertainty regarding the Presidency. It would be worth hundreds of millions of dollars to our material interests. The business world would profit incalculably by the assurance or reassurance such a certainty would bring. The administration's policies are accepted and approved. Only the knowledge that Roosevelt will continue at the helm is needed to inaugurate a new era of prosperity on a safer and sounder basis than ever before. Call it a third term or a second elective term, as you like; the exigencies of the times demand that he serve four years more. It is a patriotic duty which he owes to his country. He cannot shirk it, if he would, without making self greater than country and forfeiting the respect and public confidence he now holds. He will not shirk it once the people make their wishes known. Now is the time for them to be heard."

A Medford man raised three squashes that weigh 160, 150 and 150 pounds respectively.

PORTLAND NOTES.

Inquiry From Russian Colony as to Oregon Lands.

\$4,275,135 is the amount the fruit growers of Oregon will receive for their crop for the present year, as estimated by Hon. W. K. Newell, president of the State Board of Horticulture. In making his estimate Mr. Newell does not deal with fancy prices, nor does he include the fruit that will be consumed on the farm.

The Oregon State Dairy Association will hold its annual session in Portland Thursday and Friday, December 12th and 13th, instead of the 19th and 20th. This change assures some of the ablest speakers in the United States.

Oregon is attracting the attention of Russian and Baltic German immigrants. One inquiry received by the Oregon Development League from a thoroughly reliable source says: "Particulars desired of a tract of about 4000 acres of good land suitable for general farming and stock raising, not more than 10 miles from rail or steamboat transportation that can be purchased for cash for not to exceed \$30 an acre, for a Russian colony." The inquiry further says: "Our people are Circassians from the Caucasus, honest, sober, industrious and physically the equal of any in Europe. They will bring over their Arab horses and Angora sheep and goats. They will be a credit to any community in which they may settle and if satisfied will be followed by immigrants from the Baltic Germans and from Russia.

Judge J. M. Scott, president of the Oregon State Good Roads Association, has called a meeting for November 14th and 15th at the Portland Commercial Club. Mr. Samuel Hill, president of the Good Roads Association, will come with a special car from the Washington meeting November 12th and 13th and bring with him a number of Canadian experts. A lantern slide lecture will be given by Hon. Samuel Lancaster, of the Good Roads Department at Washington. Full details will be announced later.

Bishop Scadding is delivering a series of lectures in the East and as a result Oregon is being splendidly advertised. The bishop illustrates his lectures with lantern slides showing the agricultural products, fruit, scenery and general attractions of the state.

Record prices for Oregon fruit are reported from many portions of the state.

Small Quits in Tears.

Chicago, Oct. 20.—Followed by jeers and hisses S. J. Small, former president of the Commercial Telegraphers' Union, left Ulrich's Hall in tears this afternoon. He did not get the vindication which he sought at the hands of the rank and file of the local union.

As Small left the hall he appeared broken hearted and declared he had given up the fight for restoration to his former position. His successor, W. W. Beattie, of Washington, who was vice-president of the organization, was formally recognized as the new head of the union. He announced that his policy would be an aggressive one.

When the meeting opened, President Small, who had been waiting in an ante-room for a chance to be heard, was invited to the platform. Hardly had he ascended the steps to the platform, when a number of strikers got up and left the room. The others hooted and hissed so that the words of the former president were drowned. In a pathetic way he appealed to older members of the union saying he had children and that they should not be disgraced by the branding of their father as dishonest without one bit of evidence and without a hearing.

This appeal, however, had little effect, although a great many of the strikers after the meeting had adjourned agreed that Small had been treated shamefully and at least should have been received with common decency.

It was voted to assess broker and leased wire operators two days' pay each week in lieu of calling them out on strike.

Heat

Where you want it—
When you want it—
No smoke—no smell—no trouble.

Often you want heat in a hurry in some room in the house the furnace does not reach. It's so easy to pick up and carry a

PERFECTION Oil Heater

(Equipped with Smokeless Device)

to the room you want to heat—suitable for any room in the house. It has a real smokeless device absolutely preventing smoke or smell—turn the wick as high as you can or as low as you like—brass font holds 4 quarts of oil that gives out glowing heat for 9 hours. Finished in japan and nickel—an ornament anywhere. Every heater warranted.

The Rayo Lamp

is the lamp for the student or reader. It gives a brilliant, steady light that makes study a pleasure. Made of brass, nickel plated and equipped with the latest improved central draft burner. Every lamp warranted. If you cannot obtain the Perfection Oil Heater or Rayo Lamp from your dealer write to our nearest agency for descriptive circular.

STANDARD OIL COMPANY

500 MILES IN BALLOON.

Across Three States, Into a Fourth, Still Going.

St. Louis, Mo., Oct. 18.—Swinging through the atmosphere at a speed roughly estimated at 22 miles an hour the United States signal corps balloon No. 10, in which Aeronauts J. C. McCoy and Captain Charles F. Chandler of the United States signal corps ascended here last evening, passed over Illinois and Indiana, last night and across Ohio today and at nightfall was apparently about to land in the vicinity of Point Pleasant, W. Va., when last heard from. The distance covered on a straight line measurement is approximately 500 miles, and the voyage won for the aeronauts the Lahm cup.

The Lahm cup was instituted by the Aero Club of America, soon after the international races in Paris in 1906, at which Lieutenant Frank Lahm won the James Gordon Bennett cup for the Aero Club of America. So joyful were the members of the club at the victory that the cup was named for the pilot of

the balloon "United States" and it was put up by the club to be won by the aeronaut who traveled more than 420 miles, the distance traveled by "United States" in the Paris races, provided the start was made from American soil.

Lieutenant Lahm never held the cup and this is the first time it was ever won.

When the ascension was made here last evening it was the intention of the aeronauts to remain in the air all night as a test of the gas to be used by the balloons in the international aeronautic contests which begin here next week. However, considering the likelihood that they might be carried a long distance, they went amply prepared for a long flight.

CLOTHES FOR MANLY BOYS.

Mothers Appreciate the Better-Made Xtragood Suits Nowadays.

Time was when mothers let their little boy's hair grow long in curls and dressed them in girlish clothes. But that is all changed nowadays, and mothers take the greatest pride in dressing their boys in just as distinctive boys' clothes as they do the girls in dainty dresses appropriate to them.

The leading clothing makers for boys have had a great deal to do with changing the custom and styles in this regard. One of the largest clothing houses in the country, Ederheimer, Stein & Co. of Chicago, who makes Xtragood clothes for boys of all ages, were probably as responsible for lifting the standard of boys' clothes as any other influence that could be named.

The Ederheimer-Stein people have accomplished this by carefully planning every step taken in the making of their Xtragood clothes, not only in the selection of durable, high-class fabrics, but in the employment of special designs of boys' suits and expert workmen to cut and make them in the best style.

Whenever you see a boy's suit with a label in it marked "Xtragood" you can be sure that it was made in the most painstaking manner, under the most healthful, clean conditions and you have the satisfaction of the latest style and greatest service out of every suit.

Over \$100,000 in cash will come into Wallowa county this fall for cattle alone. And cattle is only one and not the principal of the many sources of wealth of the favored corner of Oregon, says the Enterprise News-Record.
