Catarrh

Invites Consumption

It weakens the delicate lung tissues, deranges the digestive organs, and breaks down the general health.

It often causes headache and dizziness, impairs the taste, smell and hearing, and affects the voice.

Being a constitutional disease it requires a constitutional remedy.

Hood's Sarsaparilla

Radically and permanently cures.

In usual liquid form or in chocolated tablets known as **Sarsatabs.** 100 doses $1.

Deduction.

Farmer Meddergrass (reading paper)—Thet Vaudeville must be a great show town.

Mrs. Meddergrass—Why so, pa?

"W'y, I see here where another one of our greatest actors has made arrangements t' stay right thar fer a hull season."—Puck.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

VALUE OF CHEESECLOTH.

For Cleaning It Is the Very Best of Fabrics.

Cheesecloth should be used more commonly for household purposes than it is. The material has the special merit of being firm, yet so loosely woven that grease comes out readily in washing; thus it is more easily kept clean than linen or crash, for which it may many times be substituted. An unbleached quality that costs not more than 5 cents a yard is quite as good for general use as more expensive fabrics.

The best kind of dishcloths are made of it. The material should be doubled, raw edges turned in and stitched on the machine. This will wear, and because it cleans so easily, is most sanitary for warm weather, in that it will not become saturated and smell of grease, says the New York Evening Telegram. Rinsing in soap and water will be all that is necessary for cleansing.

For nice furniture, it is the best kind of cloth for cleaning, and all cabinet makers keep three sets for work. The first is used for applying the oil, the second to rub it off, and the third is the polisher. Similar treatment for dining-room tables will keep them in the pink of condition.

Cheesecloth will save the daily use of an egg in boiled coffee, merely by having small bags of the cotton kept in the kitchen. Put the grounds into one, and twist the top around tight with thread, a spool of which should be handy for the purpose. The same bag may be used many times. There is nothing in the cleaning line for which it is not good.

Windows and mirrors will never have a speck of lint on their shining surface if cheesecloth is used, and for all kinds of work it will be found invaluable. A bag made of it should always be kept in the kitchen for straining soups.

Tissue paper is another valuable household asset that all housekeepers do not appreciate. All of it that comes into the house should be saved. Moistened with alcohol, it polishes mirrors to perfection, and even dry will make them shine. Silver, all hardwoods used for furniture, and steel, also brass, if not badly tarnished, will respond immediately to treatment with tissue paper, and for packing of all kinds it is most useful. Lace, silk and all ribbon should always be ironed between two layers of it, for the materials will not then be shiny.

Have You a Friend?

Then tell him about Ayer's Cherry Pectoral. Tell him how it cured your hard cough. Tell him why you always keep it in the house. Tell him to ask his doctor about it. Doctors use a great deal of it for throat and lung troubles.

"I had a terrible cold and cough and was threatened with pneumonia. I tried Ayer's Cherry Pectoral and it gave me quick and perfect relief. It is certainly a most wonderful cough medicine."—RENA E. WHITMAN, Sioux Falls, S. Dak.

Browne—Oh! are you acquainted with her?

Towne—No; but I saw her to-day.—Philadelphia Press.

RHEUMATISM RECIPE

PREPARE THIS SIMPLE HOME-MADE MIXTURE YOURSELF.

Buy the Ingredients from Any Druggist in Your Town and Shake Them in a Bottle to Mix This.

A well known authority on Rheumatism gives the readers of a large New York daily paper the following valuable, yet simple and harmless prescription, which any one can easily prepare at home:

Fluid Extract Dandelion, one-half ounce; compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Mix by shaking well in a bottle, and take a teaspoonful after each meal and at bedtime.

He states that the ingredients can be obtained from any good prescription pharmacy at small cost, and, being a vegetable extraction, are harmless to take.

This pleasant mixture, if taken regularly for a few days, is said to overcome almost any case of Rheumatism. The pain and swelling, if any, diminishes with each dose, until permanent results are obtained, and without injuring the stomach. While there are many so-called Rheumatism remedies, patent medicines, etc., some of which do give relief, few really give permanent results, and the above will, no doubt, be greatly appreciated by many sufferers here at this time.

Inquiry at the drug stores of even the small towns elicits the information that these drugs are harmless and can be bought separately, or the druggists will mix the prescription if asked to.

QUEER STORIES

A mouse seldom lives longer than three years.

The annual fish catch of England is valued at $53,960,000.

The factories of Japan close on the 1st and 15th of each month.

The absorbing capacity of a brick is about sixteen ounces of water.

There were 188 banks in Germany at the close of 1906, with capital of $850,000,000 and reserves of $233,475,000.

The Methodist Conference at Milwaukee adopted a resolution asking President Roosevelt to stop United States army men from playing baseball on Sunday.

Lord Brampton (Sir Henry Hawkins) celebrated his ninetieth birthday recently, when he gave this characteristic advice: "Never get mixed up in lawsuits or the law. I think I know something about it."

Coal mining has become one of India's great industries. The output last year was 9,784,250 tons, whereas the average annual production for the decade ending 1895 was only 2,758,640. The coal now being worked is near the surface, and with the cheap labor employed, India is able to deliver its coal at the pit's mouth cheaper than any other country in the world. The average price a ton delivered on board freight car was $1.40 in 1906 and 1907.

Probably in no other State in the Union does a big ranch constitute a district, a family the members of a school board, and the son of the family the only pupil in the school district. Such conditions exist on the Woods ranch, near Hardin, Colo. The president of the School Board is Charles Allyn, manager of the ranch; the secretary is his wife, the treasurer a young woman living in the home, and the pupil of the school the nine-year-old son of the Allyns.

The Ruling Passion.

The automobile enthusiast was nearing the end. The latest photographs of his beloved car adorned the walls about him and the odor of gasoline filled the sick room. On a low table at the bedside they had spread his kit of tools and within reaching distance was his gleaming horn.

He looked the outfit over with a dimming eye.

Then he faintly smiled.

"Take away that can of anti-freeze," he hoarsely whispered. "I won't need it where I'm going."

In the effort he made to laugh he stalled his heart.—Cleveland Plain Dealer.

After all, most of us have pretty contented dispositions, or else there would be more unhappiness, considering how often we see our own faces in the glass.

How ugly a flower looks when it is going to seed.

RAM'S HORN BLASTS.

Warning Notes Calling the Wicked to Repentance.

Christianity is not in negatives, but in positive graces.

Holiness is never so high a sort as to escape a sense of sin.

The two-edged sword is still the symbol of convicting power.

The secret of a happy life is solitary prayer.

The thunders of providence are tremulous with love.

The Son of man had in himself the blood of the human race.

Faith and love penetrate heights that are inaccessible to wisdom.

Faith cannot droop in the trial, for it is by trial it grows into strength.

The man who would see God must endorse godliness as his life purpose.

The man who would look up and see God must be ready to use his vision.

The sense of futility and failure is the condition of any enduring success.

Where the prophet prophesies it needs no long examination to find his effect.

He who pillows his head upon omnipotence can quiet his fear of every temporal ill.

He who would cross a great sea with oars has not yet learned the elements of faith.

Christianity does not put chicory in the coffee, or sand in the sugar; it is at least decent.

Always put your best foot forward, and be sure that the foot you hold back is just as good.

The reason opportunity does not knock at some doors is that she finds them already open.

WE MAKE MUSIC FOR MEXICO.

At Least We Send Them the Instruments They Play On.

According to the American consul at Monterey, Mexico, everybody in that sunny land has a love for music. The common laborer who works all day, paving the streets, may be found in the evening taking a leading part in an orchestra playing classic music. It is a poor house indeed that has not some sort of musical instrument.

But with all their love of music they almost never make a musical instrument. Cotton goods, nails, steel rails and various other articles of commerce are manufactured in Monterey, but as yet the consul is quoted by Musical America as saying that nobody has ever made a guitar there except, perhaps, some lone genius who manufactured one for his own use.

Guitars and mandolins are almost exclusively imported from the United States, though some come from France and Spain. Germany is supposed to be the home of the violin and nearly all of these instruments used in this part of Mexico come from that country, though an insignificant number come from the United States.

In pianos, of which quite a number are sold there, the United States has the best of the trade, the balance going to Germany. In organs the United States is practically unrivaled, very few of these instruments in any grade coming from Europe.

But there is one general class of instruments in which the United States might do a good business, but as yet does practically none, and that is the instruments which go to the furnishing of a brass band.

As yet not much has been done in Mexico in the way of printing sheet music. Most of the danzas, songs, etc., composed by Mexican authors are sent abroad to be printed, and the German music publishers get the most of this.

Music houses in Monterey have sent some manuscript to American publishers, hoping to get their work returned more speedily, but they complain that it takes about as long to get it from the United States as it does to get it from Germany.

Cheerful Advice.

A number of railway men were once discussing the question of accidents.

"The roads in Scotland," said one official, "used to have a bad name, indeed, in respect to accidents. No one thought of embarking on a railway journey unless he had provided himself with an accident policy of insurance.

"The famous Dr. Norman Macleod was once about to set off on a long journey through the Scotch country. Just as the train was pulling out the clergyman's servant put his head in through the window and said:

"'Ha'e ye ta'en an insurance ticket, sir?'

"'I have,' replied the doctor.

"'Then,' continued the servant, 'write ye'er name on it and gi'e it to me. They ha'e an awfu' habit o' robbin' the corpses on this line.'"—New York Times.

Easy.

"What your husband needs is some sort of excitement to rouse him up; even something that would make him violently angry would help."

"I'll ask him for $5 for a new bonnet."—Houston Post.

About the time a dressmaker's bill has set a man back $100 or more it is easy to convince him that beauty unadorned is adorned the most.

Wise men cultivate the art of taking things easy.

OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

Whenever a sore refuses to heal it is because the blood is not pure and healthy, as it should be, but is infected with poisonous germs or some old blood taint which has corrupted and polluted the circulation. Those most usually afflicted with old sores are persons who have reached or passed middle life. The vitality of the blood and strength of the system have naturally begun to decline, and the poisonous germs which have accumulated because of a sluggish and inactive condition of the system, or some hereditary taint which has hitherto been held in check, now force an outlet on the face, arms, legs or other part of the body. The place grows red and angry, festers and eats into the surrounding tissue until it becomes a chronic and stubborn ulcer, fed and kept open by the impurities with which the blood is saturated. Nothing is more trying and disagreeable than a stubborn, non-healing sore. The very fact that it resists ordinary remedies and treatments is good reason for suspicion; the same germ-producing cancerous ulcers is back of every old sore, and especially is this true if the trouble is an inherited one. Washes, salves, nor indeed anything else, applied directly to the sore, can do any permanent good; neither will removing the sore with caustic plasters or the surgeon's knife make a lasting cure. If every particle of the diseased flesh were taken away another sore would come, because the trouble is in the blood, and the ***BLOOD CANNOT BE CUT AWAY.*** The cure must come by a thorough cleansing of the blood. In S. S. S. will be found a remedy for sores and ulcers of every kind. It is an unequalled blood purifier—one that goes directly into the circulation and promptly cleanses it of all poisons and taints. It gets down to the very bottom of the trouble and forces out every trace of impurity and makes a complete and lasting cure. S. S. S. changes the quality of the blood so that instead of feeding the diseased parts with impurities, it nourishes the irritated, inflamed flesh with healthy blood. Then the sore begins to heal, new flesh is formed, all pain and inflammation leaves, the place scabs over, and when S. S. S. has purified the blood the sore is permanently cured. S. S. S. is for sale at all first class drug stores. Write for our special book on sores and ulcers and any other medical advice you desire. We make no charge for the book or advice.

I was afflicted with a sore on my face of four years' standing. It was a small pimple at first but it gradually grew larger and worse in every way until I became alarmed about it and consulted several physicians. They all treated me but the sore continued to grow worse. I saw S. S. S. advertised and commenced its use and after taking it a while I was completely cured. My blood is now pure and healthy from the effect of S. S. S., and there has not been any sign of the sore since S. S. S. cured it.
