Established March 30, 1883.  
ISSUED THURSDAY MORNING.

Fred Warnock

Printed at the Postoffice at Heppner, Oregon, as second-class matter.

THURSDAY.....Nov. 28, 1907

Prevailing weather for the week  
—Light rains and cloudy.

Thos. Morgan of Gooseberry was a Heppner visitor Saturday.

Jess Kirk lost a purse containing \$85 in bills on the streets of Heppner one day last week. The money is still missing.

A Heppner man carried his money in his pocket and he lost it. Moral: Put your money in the bank where it will be safe.

The figures presented by old King corn are something enormous. Of the world's total production of corn, the United States furnishes about 70 per cent. Seven states in the Mississippi valley this year have an estimated yield of 1,472,445,000, Illinois heading the list with a yield of 342,756,000 bushels. The corn crop of the United States will reach the enormous figures of 2,558,732,000 bushels.

### Spray Now.

There are many diseases in the orchards of vegetable growth that are quite as injurious as insect pests. Black dead spots on the trunk spreading still they kill the trees, black and bitter rot, little, nobby, worthless apples and peaches, rough brown spots on the skin of apples and pears. These diseases and many others are purely vegetable and are classed under the general term fungous diseases.

The Bordeaux mixture is the most popular treatment for all fungus diseases.

It is made by slacking 8 pounds for summer and 12 pounds for winter of the best fresh lime. Pour in enough water to slack thoroughly then add enough water to make 50 gallons, thoroughly dissolve. Dissolve 8 pounds blue vitriol for summer and 12 pounds for winter in just enough water to dissolve, then add water till you have 50 gallons, unite lime water and vitriol water as quickly as possible, violently agitate all while mixing.

It requires experience to unite the lime water and blue vitriol so they will give the best results. Now if you will dissolve 12 pounds of blue vitriol, add enough water to make 100 gallons of spray and spray your apple and pear trees now or any time during good weather it is much more effective than to wait till spring. Therefore I ask every person in Morrow county owning apple or pear trees to spray them with a mixture composed of 12 pounds of blue vitriol thoroughly dissolved and unite with 100 gallons of water.

HARRY CUMMINGS,  
Fruit Inspector for Morrow County.

Gern M. Merrill, of Hardman, county of Morrow, State of Oregon, has this day filed in this office her sworn statement No. 4213, for the purchase of Lots 2, 3 and 4 and SW 1/4 NW 1/4 of Section No. 4, in Township No. 8 S., Range No. 28 E., W. M., and will offer proof to show that the land sought is more valuable for its timber or some than for agricultural purposes, and to establish her claim to said land before the Register and Receiver at The Dalles, Oregon, on the 23rd day of January, 1908.  
She names as witnesses: George W. Chapin, Annie E. Chapin, Orla E. Shaper and John A. Adams, all of Hardman, Oregon.  
Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 23rd day of January, 1908.  
Nov 7-Jan 23 C. W. MOORE, Register.

Several Athens farmers are riding about in new automobiles.

Immense potato crops are being dug around Echo, and also in the mountain region back of Weston.

The cut in wages at the Booth-Kelly mill has been the cause for the Springfield merchants reducing the prices on groceries during the past week.

R. D. Hume, of Curry county, has a dredge at work in the American river which he thinks will lift out and separate the gold in the black sand of Rogue river and along the coast, something which many have unsuccessfully tried.

### Million a Year on Navy.

Berlin, Nov. 24.—The Ministry of Marine has prepared estimates of the probable cost of the Navy for the ten years, 1908-1927 for submission to the Reichstag. The total is \$1,043,000,000, or an average of \$104,250,000 yearly. The expenditures beginning with \$84,750,000 in 1908 rise to \$101,250,000 in 1909; \$110,000,000 in 1910, and \$115,250,000 in 1911, hence declining to \$104,250,000 in 1911. The ministry's estimate officially submitted to the Reichstag in 1906 for the same period totals \$245,500,000 less, so that the modified programme brought in by the Government for the approval of Parliament costs on an average of \$24,500,000 more yearly.

Astoria Budget: Macager Whyte is now taking steps to interest Thomas A. Edison in the gold bearing sands of this vicinity, as in New Jersey he has an immense plant that is extracting the iron particles from a mountain of sand that does not grade one half as high as the sands here in iron particles. This plant is carried on to a profit, and if it can be done there it could be done here to a greater advantage.

The railroad business at Eugene is much larger than ever before.

### Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator \* \* \* makes for normal activity of the entire reproductive system." He continues "In Helonias we have a medication which more fully answers the above purposes than any other drug with which I am acquainted. The treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhoea; atonic (weak) condition of the reproductive organs of women, mental depression and irritability associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagic (flooding), due to a weakened condition of the reproductive system; amenorrhea (suppressed or absent monthly period), due from or accompanying an atonic condition of the digestive organs and aemic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen or less of the above symptoms are present, no invalid woman can get better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

"It is an important remedy in disorders of the female system, and another prominent ingredient of 'Favorite Prescription,' Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the female system, and another prominent ingredient of 'Favorite Prescription,' Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states."

Prof. E. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhea (painful menstruation)."  
Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.
