JURY DISAGREES.

Report to Court and is Discharged
in Adams Case.

Spokane, Nov. 24.—A special from
Hattidrum, Idaho, to the Spokane man
says:

The jury in the Steve Adams murder
case was discharged at 5:45 o'clock this
afternoon, being unable to agree on a
verdict, after being out since 8:30 o'clock
Saturday night.

The jury stood eight for acquittal and
four for conviction. Jurymen J. F.
Horne, Charles Dittmore, D. W. Gar-
wood and S. A. Varnum were the four
men who believed Steve Adams guilty of
the murder of Fred Tyler in the Marble
Creek District of Shoshone County,
Idaho, in August, 1904.

Five ballots were taken, all with the
same result. The jury was ready to re-
port at 3 o'clock, but the court conferred
with attorneys for both sides and it was
agreed to keep the jury out a little
longer.

Clarence Darrow, chief counsel for
Adams, tried to obtain concessions of
bail for Adams and of immunity from
arrest by Colorado authorities until the
Tyler case is disposed of. No promise
was given him. Sheriff Bailey, of Sho-
shone county, is here with a warrant for
the arrest of Adams on the charge of
murdering Ed Houle, near the same
place and about the same time the Tyler
murder occurred.

It is understood that Adams is not to
be taken to Colorado at present, and
that the state will not oppose efforts to
get bail for Adams in the Tyler case.
Darrow will later make an application
for bail for his client, but will now hurry

to Boise for the Pettibone case.

Hawley, chief counsel for the state, de-
clared the disagreement of the jury will
have no effect on the prosecution of the
Tyler case again, or will it lessen the
efforts of the state to prosecute in other
cases wherein the Western Federation of
Miners officials and prominent mem-
bers are defendants. Mr. Hawley is dis-
appointed at the verdict. Darrow says
the defense expects an acquittal.

Rev. T. J. Anthony of Portland
will begin a series of meetings at
the Baptist church, tonight, Dec. 5.
Public cordially invited. Salva-
tion the Paramount issue. Jesus
Christ is seeking to save the lost.
Come and hear about him.

H. S. Ewing, of Cecil, was a
business visitor in the city the
first of the week.

The Ladies of the Southern
Methodist church will hold a ba-
zaar in the near future.

County Commissioner Griffin
spent Tuesday night in this city.

NOTICE—The annual meeting of the
Heppner Commercial Club will be held
at the club rooms Monday Dec. 9, 1907,
at 8 p. m. In addition to the regular
business, a board of seven trustees will
be elected. All members are requested
to be present.

Frank Gilliam, Pres.
Maurice E. Smead, Secy.

W. T. McRoberts returned Sun-
day evening from Gull Lake,
Wash. where he had been to iden-
tify a man held there as McCas-
lin. It proved to be the wrong
man.

Spray Now.

There are many diseases in the or-
chards of vegetable growth that are
quite as injurious as insect pests.
Black dead spots on the trunk spreading
till they kill the trees, black and bitter
rot, little, nobby, worthless apples and
pears, rough brown spots on the skin
of apples and pears. These diseases
and many others are purely vegetable
and are caused under the general term
fungus diseases.

The Bordeaux mixture is the most
popular treatment for all fungus
diseases.

It is made by slacking 8 pounds for
summer and 12 pounds for winter of the
best fresh lime. Pour in enough water
to slack thoroughly then add enough
water to make 50 gallons, thoroughly
dissolve. Dissolve 8 pounds blue vit-
rol for summer and 12 pounds for winter
in just enough water to dissolve, then
add water till you have 50 gallons, unite
lime water and vitrol water as quickly
as possible, violently agitate all while
uniting.

It requires experience to unite the
lime water and blue vitrol so they will
give the best result. Now if you will
dissolve 12 pounds of blue vitrol, add
enough water to make 100 gallons of
spray and spray your apple and pear
trees now or any time during good
weather it is much more effective than
to wait till spring. Therefore I ask
every person in Morrow county owning
pear or apple trees to spray them with a
mixture compounded of 12 pounds of
blue vitrol thoroughly dissolved and
united with 100 gallons of water.
