### The Prosperous Northwest.

The substantial condition of the Pacific Northwest is illustrated in a most convincing way by the wheat and flour shipments of Columbia River and ports. For the ten months beginning January 1st and ending October 31st, there were export from Portland and Puget Sound ports (including Seattle, Tacoma and other points), a total of \$493,580 bushels of wheat, and a total of 3,561,726 barrels of flour. The exact figures are: Portland, 5,380,959 bu. wheat; 1,168,886 bbls. flour. Seattle, Tacoma and other Sound ports. 3,513,430 bu. wheat; 2,392,840 bbls. flour. The heavy movement of grain for the tremendous crop of the present has been temporarily delayed by the financial situation, but is now on, and the months of November and December will make the record shipments of all history. There are twenty-three vessels in Portland Harbor at this time, including steamers and sailing craft, and their principal cargo will be grain and flour. The equipment in Puget Sound ports is similar to that here. A few months must of necessity make the financial situation in this part of the United States better than it ever has been before, and in the face of figures such as these it is impossible for anyone to present a substantial reason for a continuance of the present inconvenience as to actual cash.

The output of lumber from the saw-mills and shingle mills, as well as the products of box and furniture factories, and all industries using native woods has been greater during the present year than ever before, and the cash for this is constantly coming in.

The livestock industry has had a good year, the wool clip has been enormous, while fruit in 1907 has added to the wealth of Oregon and Washington at least 30 per cent more than during prosperous 1906. No figures are available on the dairy products of Washington, but Oregon has jumped from nothing ten years ago to \$5,000,000 five years ago, and \$17,000,000 during 1907. The progress in irrigation has never been so marked as during the ten months just passed, both in government and private projects.

More homebuilders have come into the Pacific Northwest than ever before. One system of railroads reporting for Oregon points alone 230 colonists for every day between Sept. 1st and Oct. 31st. Many of these new settlers have come to state with from \$1,000 to \$30,000, and have invested it. The result will be a great increase in the productivity of both states.

Building operations throughout Oregon and Washington have been without precedent, and while there are numerous skyscrapers, office buildings and apartment houses, the building of homes has led. More money has been placed in industrial plants and transportation facilities than through any other avenue. Wholesale and retail trade has been unparalleled, surpassing even the large sales of 1906, and this

during the weeks when our banks like those all over the United States, are paying in clearing house certificates.

The product of the farm and orchard are bringing the highest possible price and that conditions will be normal and that substantial prosperity will reign here within the 90 days is absolutely assured, if people can only get into the habit of looking through optimistic glasses and there is not a single sound reason why anyone should be pessimistic. How they can be other than confident it is impossible to conceive.

Mr. and Mrs. S. P. Garrigues left for Portland this morning where they will be for some time on account of Mr. Garrigues' health.

Knights of Pythias, who are members of Doric Lodge No. 20 are requested to make an unusual effort to be present at the Annual Roll Call, Dec. 17. Don't forget the date.

Miss Maud Cline who has been a member of the Gazette for the past four months returned to her home in Silverton Friday.

Miss Nell Brown of Ellensburg Washington is the guest of her sister Mrs. R. F. Hynd.
