Says the Telegram: General Traffic Manager H. B. Adams, of the North Bank Road, together with a staff of officials identified with different departments of the system, has just returned from a careful inspection of the road from Vancouver to Pasco. He gives glowing accounts of the fine progress that has been made in the work of construction. Practically every branch of service was represented in the personnel of the inspection party, and the trip just ended was the most careful view yet taken of the problems confronting the management before it will be in a position to throw open the road to through traffic. "The road was opened from Pasco to Cliffs last Thursday," said Mr. Adams this morning, "and if we have good luck we will be able to handle freight traffic by rail as far west as Lyle by the fifteenth. I found everything in a most satisfactory condition, and we are doing our utmost to get the large stores of grain at Roosevelt, Patterson, Sandal, Fountain and other points moving toward tidewater with the least possible delay."

Up to the present time the winter has been the mildest for many years. No snow to speak of, no storms and the coldest weather recorded has only been a few degrees below the freezing point. Old residents say that the weather so far this winter has been very much like the winter of '87-'88. Up to the last day of January, 1888, the weather was mild, but on the last day of the month snow commenced to fall and the ground was covered to a depth of eight inches. The mercury dropped to 25 degrees below zero, and the cold weather lasted for a month. Stock losses were very heavy. At the present time stockmen are much better prepared than in early times. There is plenty of feed and even if a bad spell of weather should come there will be no stock losses of a serious nature.

### Notice to Sheepmen.

At a meeting of the executive committee of the Morrow County Woolgrowers Association held in Heppner on January 21, it was voted that the date for the annual meeting of the wool growers of Morrow county should be changed so that it would take place on Saturday, Feb. 15. This was done in order to give each member a chance to attend before the busy season commences, and as there will be election of officers and many other important matters to come up at this meeting of vital importance to the sheep men, every member is urged to attend, believing as we do that the time has come for the sheep man to pool his interest, and that can only be done through cooperation with County, State, and National associations. There will be a general discussion and each and every member will be given a chance to give his views on all subjects that come up for discussion. Also a chance to set for the best material or officers for the ensuing year. Don't be a knocker, but come and stand shoulder to shoulder with each other. By so doing we shall be able to accomplish much good that could not be done by an individual.
