

Heppner Wins Game From Eight Mile.

The Heppner High school kids added another victory to their credit last Sunday when they met and defeated the Eight Mile team on the local diamond. It was not as fast a game as the one played the week before, and the score was not as good, but it was not a game for the fans to be ashamed of. There were good plays and there were bad plays, but taking all into consideration, it was an average game.

Rhea was "right there" in the box, and had a good many strikeouts to his credit when the game was over. Gay, for the visitors, also did good work but had poor support.

There was no jarring in the game, the Eight Mile boys showing themselves to be good sportsmen, and they were graceful losers.

"Mose" Giles as umpire showed that he knows the game from A to Izzard, and his work was highly appreciated.

Baseball at Lexington.

Next Sunday at Lexington promises to be the best base ball game of the season, when Lexington and Heppner cross bats. Both teams will be strengthened for this occasion. Negotiations are now under way for a special train to run from Heppner to accommodate all who wish to attend.

There will be no game in Heppner next Sunday and a large crowd will go from this place.

CIRCUIT COURT.

(Continued from page one.)

have been presented to us by interested persons and have, so far as we know, passed upon and disposed of all criminal matters which might properly come before us, and all matters heretofore presented to the District Attorney wherein he found that action was not warranted or unnecessary.

We therefore are able to report to the Court at this time we believe all matters of a criminal nature, so far as Morrow county is concerned, are disposed of, except however, a few cases under investigation by the District Attorney.

We have not made any close examination of the books or records of the county for the reason we have not deemed it necessary to employ an expert at this time, and without the aid of such a person we cannot report as to the correctness of the books of the different offices, but so far as we are able to ascertain the records are correctly and neatly kept.

We think there are no special recommendations called for at this time from this body, and we only desire to suggest to the county court that we think the court house yard back of the court house should be kept somewhat cleaner than it is and that stock should not be permitted to graze in such yard on account of the injury done to the growing trees. We further recommend that the toilet rooms in the court house and fixtures in such rooms be cleaned up and kept clean.

We have paid a visit to the hospital for the county poor and find the institution well kept and the inmates comfortably and well provided for. We however, would recommend that there should be some better ventilation in one or two of the rooms.

We desire to thank the court and the officers thereof for their courteous treatment during the time of our deliberations, and ask that we be discharged.
