The street sprinkler operated by Roy Gray is just about out of commission. The spring above town which furnishes the water for sprinkling has gone prohibition. Heppner is a dry town.

Claud Herren who came down from the mountains Monday states that fire has been running in the vicinity of the old Hamilton mill site for some time. About 20 cords of wood belonging to Park Goff was destroyed. Outside of this no other damage was reported.

Alex Cornett was in from his Buttercreek ranch, Saturday. He states that most of the second crop of alfalfa has been cut in the big Buttercreek alfalfa belt. The yield in most cases was very good. Mr. Cornett says that the apple crop in his vicinity will be short while there will be plenty of other fruits.

Dwelling houses are very scarce in Heppner. This is unusual at this time of year and is evidence that cannot be disputed that Heppner's population is increasing. When school starts this fall the demand for dwellings will be much greater than during the present dull season. We need more houses and the demand will force more people to build.

Rev. Porter is in Portland.

Rev. Orr and family are camping in the mountains.

Fred Felman left yesterday morning for Kentucky.

F. F. Klitz, of Ione, was a Heppner visitor, Tuesday.

R. W. Hickok visited Ione the first part of the week.

Mrs. Leota Salisbury, of The Dalles, who has been visiting relatives here, returned to her home yesterday morning.

Mrs. Wm. Matlock and Mrs. Fronie Neel and little daughter were outgoing passengers this morning for a visit to North Yakima and Seattle, Wash.

Mrs. N. S. Phelps, of Lexington, left yesterday for Walla Walla, Wash. Her sister, Miss Pearl Kealey, and Royal Phelps accompanied her to Heppner Junction.

H. W. Fell who was in town yesterday states that he has been offered \$10 per ton for his grain hay in the stack. He has a large number of stock and refused the offer.

This is the dull season in Heppner without any mistake. Even summer husbands are as scarce as hen's teeth. Harvest has taken some of the people away, the stockmen's interests are now when the sheep and cattle are getting fat on the mountain ranges which takes away others, and still others are at the different pleasure resorts, but then the few of us who are here are having a good time any how.

Claud Herren was down from the Herren saw mill Monday. In company with Mr. Wilder they came down to take out a new planer to the mill. The Herren mill is now running right along and turning out about 20,000 feet of lumber a day. The lumber will be hauled to Heppner where a lumber yard will be established for the accommodation of the public.

County superintendent Notson visited the school in district No. 42, Monday. He found the work of the school progressing nicely. Mrs. C. W. Barnham is the teacher.

H. W. Fell came in from his ranch yesterday. He states that haying in his vicinity is well along. Mr. Fell who is an old and expert farmer, having farmed for a number of years in the great Pease wheat belt, has just finished cutting a heavy crop of wheat and barley which will all be put up for hay. Mr. Fell is an advocate of thorough cultivation and his big crop this dry season, makes him stronger in his belief. Every year he grows a field of peas and this year has in 10 acres which are looking fine. He considers peas one of his most profitable crops, outside of the fact that the pea crop restores to the soil the much needed humus which is taken away by continuous grain growing. Mr. Fell says that in his neighborhood the country is unusually dry. Springs are drying up that have not failed for many years to furnish plenty of water.
