The Morrow Warehouse Milling company is shipping in a quantity of Turkey Red wheat which will be given a trial by some of the farmers of this vicinity. Turkey Red wheat is almost a new variety for this county. What little that has been tried has given very satisfactory results. The grain yields well, has short straw and is excellent for milling purposes.

La Grande Star: The Grand Ronde valley with the large irrigation project completed will become a densely populated community. Even a family on every 40 acre tract will many times double our present population, and there will be many 10 and 20 acre farms whereon prosperous and happy families will reside.

It is common for a man or boy to kill another while hunting, but for a woman hunter to shoot a person is something new. A Wallows county woman and her little girl were out hunting grouse, the former armed with a shotgun and the latter with a 22-caliber rifle. They found a grouse and the girl fired at it, but missed. As the bird took to wing the mother fired and hit the child instead.

Some years ago a Eugene man was struck on the neck by a limb while felling a tree and a large splinter went into the muscles of his neck. It has just been removed.

Sunday evening some young hoodlums who have absolutely no sense at all, sat outside of one of Eugene's churches with some squirt guns filled with red ink or some similar liquid and after ladies and gentlemen went by would shoot it upon their clothing, utterly ruining some fine dresses and new suits. Three months on a rock pile would not be too severe a punishment for such a dastardly trick.

That Pilot Rock is to become a feeding ground and stock buying center for the Armour Packing company is now almost an assured fact, says the East Oregonian. Options on two or three tracts of land adjacent to the town of Pilot Rock have been secured by the big packing company and this week the deal will be finally closed for a feeding ground, it is believed.

This would be unusual news if men and women would keep themselves free from rheumatism and all aches and pains as well as keeping their muscles and joints limber with Ballard's Snow Liniment. Patterson & Son.

English walnut planting in Yamhill county will be done on a grand scale during the coming season. This year over 1,000 acres were planted, says the McMinnville Telephone-Register.

The Laziest Man in the World would not be contented to be kept in the house and doing nothing by rheumatism. Neither are you, who are always busy and active. Then don't neglect the first twinge of an ache or pain that you might think is just a "crick." Rub well with Ballard's Snow Liniment and no matter what the trouble is, it will disappear at once. Patterson & Son.

There is a wonderful crop of blackberries in the Applegate country growing wild along the roads and creeks, and hundreds of gallons are being gathered. The berries are of the evergreen, continuous bearing variety which have run wild in that section and are a fine fruit.
