Would gladly be paid for a cure by many people who are crippled with rheumatism, yet if they only knew it, they can be cured by a few bottles of Ballard's Snow Liniment, and the price is only, 25c, 50c, and \$1.00 per bottle. Sold by Patterson & Son.

A Roseburg man estimates that the elk in the region between the Coos and Umpqua rivers number not less than 200. Owing to their well-nigh inaccessible haunts, Mr. Sawyers thinks there is little danger of a complete slaughter of this big band. There is a growing fear however, that the days of the Oregon elk are numbered unless the legislature passes a protective law.

## School Notes.

On Nov. 4, the writer visited the school in District No. 53. Miss Annie Campbell is the teacher. The school house in this district is a good building, but just at present it is decidedly out of the center of the school population. Hence the school is now holding its sessions at the residence of L. E. Fridlev. There are only five pupils enrolled. The pupils are all little folks, but they are interested in their work and are doing good work.

Below is a summary of the compulsory education law. Every parent, guardian, and teacher should note its provisions.

S. E. NOTSON,  
Co. Supt.

As soon as the school opens, the district clerk must give to the teacher a revised copy of his last census report, showing the name and age of every child, and the name and address of each child's father or guardian. It is necessary for the teacher to have this information in order to comply with the compulsory education law. Every child in the district, who has reached the age of nine years, must attend school regularly during the whole time the school is in session. After the child reaches the age of fourteen years, he is not required to attend, provided he is regularly and lawfully engaged in some useful employment. If not so employed, he must attend until he becomes sixteen years of age.

In Rule XLIV, page 167, of the School Laws of 1907, teachers are authorized to require excuses from parents, either in person or by written note, in all cases of absence or tardiness, or dismissal before the close of school. Section 194 of the same law provides that the teacher must count all unexcused absences, and that no excuse shall be accepted except sickness of the pupil, or of

## What the Kidneys Do.

Their unceasing work keeps us strong and healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, etc.

Mrs. Geo. Shipley (living in the western part of Heppner, Ore.), says: "My kidneys gave me a great deal of annoyance for years. My back ached, and when I stooped or lifted anything, or brought any strain on the muscles of the back, the pains would become more pronounced. At times I could not get well on account of the pains through my kidneys, and there were so many other symptoms which denoted a diseased condition of these organs that I decided to try Doan's Kidney Pills. Having a box at the S. H. M. Drug Co. I used the contents when I noticed a great improvement in my condition, continued taking them and they relieved all the troubles. Doan's Kidney Pills have proven of great value to me and I cheerfully recommend them."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's and take no other.
