CASTORIA

THE CENTAUR COMPANY, NEW YORK CITY.

School Notes.

The writer visited four schools this week. The first was in District No. 36. Miss May Severance is the teacher. There is an enrollment of 20. The pupils are making good progress in their work. The school house is a good one; the furniture is in good condition; there is a fair blackboard and the blackboard space is ample. The school is provided with a globe, one map, and a set of physiological charts. There is a dictionary, but it is old and dilapidated. There should be a new one. There are shades for most of the windows, but some of them are out of repair. There are some appropriate decorations on the walls. The floor was neat and clean, notwithstanding the fact that the snow and dust had been mixed so as to form a mud in the yard. The register shows very few visitors. The patrons would find a visit greatly appreciated by the teacher and pupils.

In District No. 21, we found Miss Rena Horner very busy at work with 21 pupils. Seven grades are represented. The pupils seem to be energetic and studious. This is a district of magnificent distances, and nearly all the pupils must either ride or drive to school. The school house is new. The desks are of the latest pattern. The blackboard is of the very best, one that must be a delight to teacher and pupils. There are a few small maps provided. There should be a dictionary for the school. The walls are decorated with a few excellent pictures and some appropriate mottoes. The school has a large, well made flag. If a porch were built in front of the school house, the janitor would have an easier task.

Miss Marvel Miller teaches the school in District No. 29. This school is small, only eight pupils being enrolled. The building is old, but is quite comfortable. The desks are homemade, and most of them are too high for the little folks. The school is provided with a fair blackboard, physiological charts, and a dictionary. There are no window shades. This school is the owner of a beautiful flag. The pupils are industrious and seem to understand the purpose for which

they come to school.

In District No. 11, we found Miss Julia Forbes teaching in the place of the regular teacher, Mrs. Carrie Becket, who is sick. The school house is old and does not present a very inviting appearance on the outside, but within everything is cheerful. The walls and ceiling are painted in mild tints which are not only pleasing to the taste but also reflect the light in a manner which is restful to the eyes. The walls are tastily decorated with appropriate pictures and small flags. The windows are provided with shades and neat sash curtains. The desks are up-to-date, some of them being adjustable. The pupils may have a desk the right height for writing and a seat which will permit the feet to rest upon the floor. There is a good blackboard, but there should be more of it. A dictionary, a set of physiological charts, and some excellent maps are provided. There are towels and a wash-basin. The pupils are quiet, orderly, attentive to their work. The people of this district take much pride in their school.

Co. Supt.

Bennett Pleases Audience.

In a lecture, the style of which was unique and original, the famous Bennett of Irigon pleased a fair sized audience in the Methodist church last night. While the lecture was humorous throughout, the speaker frequently fell into a serious mood and recited with admirable interpretation and touching emotion some of the finest gems of poetry. The fact stood out prominently that Mr. Bennett was an all-round impartial man for he had a good "hit" in store for the representative of each profession represented in the audience.—Pendleton Tribune. Mr. Bennett will appear at the Commercial Club building in this city tomorrow evening, in his celebrated humorous potpourri, "Live to Smile and Smile to Live."

Raymond Bell Company.

Raymond Bell and company appeared at Roberts opera house in this city, Tuesday and Wednesday evenings.

The company was billed to appear Monday evening, but owing to the fact that the electric light plant was out of commission, it was impossible to show.

Tuesday evening, "The Girl From the Golden West," was rendered in a manner that was pleasing to a large audience, proving the claims of a good company.

Wednesday evening, "Mr. Yankee Doodle," was presented, showing high class comedy.

Hexamethylenetetramine

The above is the name of a German chemical, which is one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by medical text books and authorities as a uric acid solvent and antiseptic for the urine. Take Foley's Kidney Remedy as soon as you notice any irregularities, and avoid a serious malady. Slocum Drug Co.

A Broken Back.

That pain in your back caused by lumbago, stiff muscles or a strain is an easy thing to get rid of. Ballard's Snow Liniment cures rheumatism, lumbago, sore and stiff muscles, strains, sprains, cuts, burns, bruises, scalds and all aches and pains. You need a bottle in your house. Sold by Patterson & Son.

What the Kidneys Do.

Their unceasing work keeps us strong and healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, etc.

Mrs. Geo. Shipley living in the northern part of Heppner, Ore., says: "My kidneys gave me a great deal of annoyance for years. My back ached acutely and when I stooped or lifted anything, or brought any strain on the muscles of the back, the pains would become more pronounced. At times I could not rest well on account of the pains through my kidneys and there were so many other symptoms which denoted a disordered condition of these organs that I decided to try Doan's Kidney Pills, procuring a box at the Slocum Drug Co. I used the contents when I noticed a great improvement in my condition, continued taking them and they relieved all the troubles. Doan's Kidney Pills have proven of great value to me and I cheerfully recommend them."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's and take no other.

A Peculiar Wrench

of the foot or ankle may produce a very serious sprain. A sprain is more painful than a break. In all sprains, cuts, burns and scalds Ballard's Snow Liniment is the best thing to use. Relieves the pain instantly, reduces swelling, is a perfect antiseptic and heals rapidly. Price 25c, 50c and \$1.00. Patterson & Son.

High Prices For Bluestem.

Bluestem wheat is selling as high as \$1 a bushel at tidewater. This is the price received during the past few days for a lot in the north and while nothing higher than 96c a bushel has been paid at Portland thus far it is not likely that any more wheat of this grade can be secured here under the dollar mark.

This is the highest price reached for wheat in this market for a number of years although during several seasons the price has advanced to within a cent or two of the mark for a small lot of selected stock.

A sale of a lot of bluestem is reported made to a Spokane mill on a basis of about 95c a bushel tidewater and even at that price it is stated that not a sufficient amount could be secured to suit the buyer.

Bluestem wheat is getting very scarce in the Pacific northwest and before the season is over it is quite likely that Pacific coast millers will be forced to substitute some other grade for their best flour because there will not be a sufficient amount of bluestem to go around. For that reason the millers are now scrambling for the remaining supplies and the price may break a few records before the end appears in sight.

The high price of bluestem wheat which is used in the making of the best patent flour in the Pacific

northwest, will very likely cause an upward movement in patents before many days have elapsed. The extent of the advance has not yet been figured upon but millers all agree that they will be forced to put the market up because they cannot grind the wheat for less. The failure of the orient to get back into the Pacific coast flour market for reasonable supplies, has added further strength to the price of local grades. While millfeeds are high and help somewhat in holding the price of local flour down, there is not enough flour grinding just now to make much difference on this account. It is generally the rule for local flour to be low when there is plenty of export business and prices are good but at this time there is neither good prices nor demand for export goods so the burden must fall upon the local market.—Oregon Journal.

Elks' Memorial.

On next Sunday afternoon, Dec. 6, at 2 p. m., in the lodge room, the Elks' lodge of this city will hold its annual memorial services.

Hon. G. C. Moser, of Portland, will deliver the address.

Music will be furnished by local talent.

Everybody is invited to attend these services.
