MINOR & COMPANY

What the Kidneys Do.

Their unceasing work keeps us strong and healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, etc.

Mrs. Geo. Shipley living in the northern part of Heppner, Ore., says: "My kidneys gave me a great deal of annoyance for years. My back ached acutely and when I stooped or lifted anything, or brought any strain on the muscles of the back, the pains would become more pronounced. At times I could not rest well on account of the pains through my kidneys and there were so many other symptoms which denoted a disordered condition of these organs that I decided to try Doan's Kidney Pills, procuring a box at the Slocum Drug Co. I used the contents when I noticed a great improvement in my condition, continued taking them and they relieved all the troubles. Doan's Kidney Pills have proven of great value to me and I cheerfully recommend them."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name— Doan's and take no other.
