

RESUME OF THE WEEK'S DOINGS

General Review of Important Happenings Presented in a Brief and Comprehensive Manner for Busy Readers—National, Political, Historical and Commercial.

Bryan is lecturing in Pennsylvania. A red-hot senatorial fight is expected in Indiana.

The house committee is almost unanimous for free lumber.

The new Democratic governor of Nebraska opposes radical measures.

The president has vetoed the measure changing the Colorado boundary.

Hill has secured an outlet to the gulf by the purchase of the Colorado & Southern.

Taft denies that any cabinet appointment beside that of Knox has been decided.

The gunboat Hist, which grounded in the Delaware river, has been floated undamaged.

The Standard Oil company denies the government's right of appeal in the big fine case.

Robbers raided the State Bank of Ceres, 18 miles from Lincoln, Neb., and secured \$3,000.

All immigrants to the United States from Japan are to be inspected jointly by officials of the two countries.

The British house of lords has passed a measure reducing the work day from 10 hours to nine hours for miners. The time is counted from the time they leave the surface till they return which makes practically an eight-hour day.

Taft says he will visit the Panama canal annually.

A death resulted in Philadelphia from a prizefight.

Holland is angry with Germany for the welcome accorded Castro.

The American consul stopped a mutiny at Puerto Cortez, Honduras.

A slight earthquake shock was felt in France, but not much damage was done.

British papers censure Roosevelt's outburst of vituperation and alienists say he is mad.

Attorney-General Bonaparte thinks the government should have the right to appeal in anti-trust cases.

A Montana man has been found guilty of blackmailing. The evidence was secured through his bad spelling.

The Canadian government seized a fishing vessel from Tacoma for violating the laws. A fine of \$1,000 was imposed.

A schoolhouse at Altona, Pa., burned, causing a damage of \$100,000. At the time there were 800 children in the building, but all escaped.

Count Boni's family is reduced to poverty.

Castro refuses to believe that his people have rebelled.

Officers of the battleship fleet were banqueting by the governor of Ceylon.

Los Angeles business men have organized to eradicate race-track gambling in California.

Turkey has passed into the family of free nations, the sultan opening parliament amid popular enthusiasm.

Blizzards are raging along the Atlantic coast. Heavy snowfalls are reported and the temperature has dropped.

The principal of a Washington girls' seminary accuses Roosevelt of being ungentle, but the president denies the charge.

Representatives of leading copper interests of this country and Europe will meet in New York to organize a world copper trust.

A North Carolina negro about to be hanged refused the attention of a minister, saying he wanted to go to hell for a special purpose.

In the Pullman investigation at Chicago a number of women testified to the inconvenience of upper berths and inability to receive attention from the porter unless he was tipped.

Holland has seized another Venezuelan vessel.

The Western Maryland railroad is to be reorganized.

Government experts declare that paper can be made from cornstalks.

Steel magnates declare the cost of their product has greatly increased.

Baron Rosen, Russian ambassador to the United States, has started for his post, after an absence of several months.

A retired soldier at San Francisco has saved \$13,900 from his pay and will hereafter draw \$67.50 per month for retired pay.

Relations between Brazil and Argentina are strained. The trouble started over the merits of the respective navies of the two countries.

Reports show that the French nation last year consumed \$100,000,000 worth of tobacco, upon which the government made a profit of \$75,000,000.

By the explosion of powder at Newbury, Pa., eight persons were injured, three houses burned and four others dynamited to prevent further spread of the flames.

Japan is to stop all immigration to the United States.

Seizure of Venezuelan ships by Holland has caused a riot at Caracas.

SIMON TAKES OATH. Assumes Office of President of the Haytian Republic.

Port Au Prince, Dec. 22.—General Antoine Simon, the newly elected president of Hayti, took the oath of office at 10 o'clock this morning at the palace in the presence of foreign diplomats, the officers of the American and Italian warships and the Haytian officials of state. Senator Paulin, who presided at the session of congress which elected General Simon, president, officiated and demanded that the president respect the constitution and other laws of the republic.

General Hippolite, minister of the interior, who responded in behalf of General Simon, promised that every effort should be made to forward the agricultural and commercial interests of the country and to take measures to insure economy in carrying on the government.

Later, at the reception which was held, M. Carteron, the French minister, addressed the president on behalf of the diplomatic corps and officially presented the respects of the foreign ministers. M. Claud, minister of foreign affairs, gave assurances of the government's intention to maintain most cordial relations with all governments.

President Simon then attended a session at the cathedral, where the "Te Deum" was sung, afterward proceeding on horseback, followed by a brilliant escort through the principal streets of the city, where he was acclaimed by all.

NAME DECEIVES MOTHERS. Straus Declares Commercial Pasteurized Milk is Big Fraud.

New York, Dec. 22.—Nathan Straus, the New York philanthropist, best known, perhaps, for his free milk booths and Pasteurization crusade, is urging the passage by the next legislature of more stringent legislation in this state prohibiting the importation of cattle affected with tuberculosis. Also he hopes to prevent the use of the word "Pasteurization" unless it speaks for the scientific and not commercial method.

"Commercial Pasteurization," says Mr. Straus, "is a humbug and fraud. The germs are not killed, but the milk has been treated by a process which merely preserves it, and prevents it from souring. It actually does more harm than good, for it enables dishonest dealers to keep milk and market it when it is old and stale. It deceives mothers, who know that Pasteurized milk is good for their babies, and do not understand that commercially Pasteurized milk is only preserved milk."

Unfortunately, most of the so-called Pasteurized milk sold in the city has been only commercially treated, and the use of the term "Pasteurization" in connection with it should be forbidden by law.

TOYED WITH A FORTUNE. Laborer's Child Amuses Himself With \$40,000 Diamond.

Omaha, Neb., Dec. 21.—William Ahearn, a laborer, walked into the jewelry store of Louis A. Borscheim having in his hand a rough diamond, half as large as a hen's egg, which he had picked up in a gravel pit near Denver.

For three months Ahearn carried the diamond around in his pocket without suspecting the true nature of the stone. Borscheim says the diamond is worth at least \$40,000, and probably more.

Ahearn worked in a gravel pit, and one day saw a stone so different from the others that he picked it up and carried it around as a pocket piece. Later he gave the stone to his little daughter in an effort to make it round so it would roll, struck it with a hammer and broke off a splinter. Ahearn, noting the clearness of the crystal, took the pieces to the jeweler, where the stone was pronounced a real diamond.

Orders Whiskey Destroyed. Baltimore, Md., Dec. 22.—The first case of seizure of whiskey under the pure food act which was put on trial here last fall, was today finally disposed of in the United States district court, when it was decreed that the whiskey seized, 50 barrels, be destroyed and that the makers, the Louisiana Distillery Company, of New Orleans, be required to give bond that they will not continue the sale of the liquor under "carbon" whiskey brands. During the trial the government declared that the whiskey was the product of molasses, and not bourbon whiskey.

Profit Sharing Started. Kansas City, Mo., Dec. 22.—On January 1, Edward Morris, president of Morris & Co., packers, will give \$25,000 as the first installment toward a fund of \$500,000 which will put into operation a plan of profit-sharing and old-age pensions among 10,000 employees of the company. The plan worked out by Mr. Morris will call for an initial disbursement the first year of not less than \$100,000, it is expected, and this will be rapidly increased.

Transport Shortage a Danger. Washington, Dec. 18.—Lack of necessary vessels for the purpose of transporting troops and supplies in case of war is one of the most serious problems facing the country, according to the report of General Ayleshire, quartermaster general of the army, made public today. The report proposes some form of subsidy to encourage the building of ships, as a solution.

Herrick for the Treasury. Augusta, Ga., Dec. 21.—That former Governor Myron T. Herrick, of Ohio is slated to become secretary of the treasury in the new administration is the latest report from the Taft camp today.

NEWS NOTES GATHERED FROM VARIOUS PARTS OF OREGON

OPEN UP HOMESTEADS. Entrymen May File on Lauds Under Umatilla Project.

Pendleton.—Within the coming week there will probably be several homesteads under the Umatilla reclamation project opened to entry. The homesteads will not exceed twenty in number and will lie about six miles from the town of Hermiston, embracing some of the best land in the project. The homesteads will be of from ten to forty acres in size, most of them twenty, and the entrymen must apply for water for the irrigation thereof when filing is made. There is no commutation on this land. The land is considered to be worth from \$75 to \$100 per acre in the raw state, as it is the finest fruit land in Oregon. A big rush for homesteads is expected.

Old Engine Now Relic. Astoria.—At Stella there is housed up the first lumber locomotive that ever assisted in dumping logs into the Columbia river. It is the oldest of its kind that has been used in the logging industry in Oregon. It was many years ago that Mr. Brock, then a prominent logger, brought the engine out from the east and started operations against the "bull team" methods then in vogue. Other loggers laughed at him, but soon he was making so much money that his idea was followed by all the loggers on the river. It is the intention to send the old engine as an exhibit to the Seattle fair next year.

Japanese in Wasco County. Boyd.—A company of Japanese is farming 1,700 acres of choice Wasco county land, five miles from Boyd, on upper Fifteen Mile creek. The company purchased the land, after looking over various parts of the county carefully during the past summer and has just been turning the sod and planting grain, orchards and vegetables. The Japanese have not superintended the farming, but have assisted in the labor, preferring to have white men do the overseeing and actual work.

Subdivide Polk Land. Monmouth.—One of the largest farm deals ever made in this part of Polk county was made here this week by J. H. Moran. It consisted of two large and finely improved farms, one of 337 and the other of 230 acres, all in one body, facing the county road for two miles. This tract will be divided into small farms, affording better opportunity to settlers with limited means. The purchasers are E. V. Carter, a banker of Ashland, and William Addison, also of Ashland.

Laue Offers Resignation. Salem.—John M. A. Laue, chairman of the state board of pharmacy, has resigned his position as a member of the board. Governor Chamberlain has not yet returned from Washington, so it is not definitely known who will succeed Mr. Laue, but it is almost certain that Senator Frank H. Caldwell, of Yamhill county, will be appointed. Mr. Laue resigned because he has retired from the retail drug business and is conducting a school of pharmacy.

Bears Are Plentiful. Bend.—A large number of black and brown bears have been killed in this part of the state recently. Bend hunters have an even dozen to their credit, and at Silver Lake, south of this place, in Lake county, seven were killed in one week. Deer are also plentiful. Despite the fact that the season for killing them has long since closed, many are known to be enjoying the hunting season. Last week a Bend man killed a deer with a six-shooter.

Logging Road Tunnels Mountain. Astoria.—The Olson Logging company is constructing a tunnel through a mountain on its logging road at Deep river that will not only shorten the line considerably, but will also avoid heavy grades and make the operation of the road much more safe. This is believed to be the first tunnel ever built on a logging road in the Columbia river district.

Bridgeport Ditch Work Stops. Bridgeport.—The Bridgeport Land company has had a large force of men and teams busy since July building the main canal and laterals for the irrigation of Bridgeport orchards. It has closed down that part of the work, as the ground was frozen and the weather too chilly. Carpenters are still busy at flume work. The canal and laterals required for this 3,000-acre irrigation project will be completed in the spring.

One Tree Makes Five Logs. Astoria.—What is probably the largest yellow fir tree ever placed in the waters of the Columbia river was hauled out of the woods a few days ago on the Sorenson Logging company's road at Svensen. The tree was 128 feet in length to the first limb, 109 inches in diameter at the butt, 69 inches in diameter at the top, and contained 47,793 feet board measure. The tree was cut into five logs, which were brought out on one train.

Condensery for Albany. Albany.—Albany is in a fair way to secure a milk condensery plant. At a special meeting it was decided to start building at once. About \$24,000 has been subscribed. The following directors were elected: Hunch G. Fisher, A. M. Hammer, Henry Lyons, D. S. Smith and W. W. Poland.

Orders Stock Corral. Salem.—Manager J. P. O'Brien, of the Harriman lines in Oregon, notifies the railroad commission that, though he believes the demand for a stock corral at Shedd's arises purely out of spite work on the part of a resident of Shedd's, he has ordered the stock corral to be installed at once.

EASTERNERS TO SETTLE. Influx Continues to Ideal Colony at Wolf Creek.

Grants Pass.—A number of families have arrived here from the east to make their homes with the Ideal colony, being established at Wolf Creek, in Wolf creek valley, in the northern end of Josephine county. The colony is being founded under the direction of Rev. W. G. Smith. A large farm, or rather several big farms, were purchased and subdivided into smaller tracts, and the members of the Ideal colony will turn their attention largely toward the growing of fruit, for which the climate and lands of Wolf creek valley are well adapted. Only Christian people are sold tracts in this colony, and no saloons or places of vice will be allowed. The site of the colony is one of the most picturesque sections of southern Oregon, and is on the main line of the Southern Pacific.

Rainier Local Train. Rainier.—Authoritative information has been received that the Rainier local train will be put on before January 1. It is thought that two daily round trips will be made. It is said that the first train will leave Rainier for Portland at 6 o'clock A. M., the last train leaving Portland for Rainier about 11 or 11:30 P. M. These hours will give Rainier people the advantages of the Portland suburbanites. They will be enabled to attend to business, take in the theater and return the same night. The business in particular will be particularly accommodated. For months past the train for Astoria out of Portland has been crowded to its capacity.

Tenth of Acre Productive. McMinnville.—The hamper cabbage patch of old Yamhill lies within a mile of this city. On July 21, of this year Henry Fletcher set out cabbage plants on one-tenth of an acre of ground that had been thoroughly cultivated. No further attention was given them, not even a hoeing. Recently he sold in the local market from the patch cabbage to the value of \$14. The family used liberally of the product during the season, and there are yet 400 or 500 pounds of cabbage not yet harvested.

Property Values in Yamhill. McMinnville.—Nearly one-fourth of the taxable property of this county is contained within the corporate limits of the ten cities and towns in the county. They contain property of the assessed value of \$3,046,087, which is listed as follows: McMinnville, \$1,332,979; Newberg, \$598,104; Carlton, \$286,856; Sheridan, \$280,415; Dayton, \$135,897; Yamhill, \$135,076; Amity, \$92,442; Lafayette, \$78,814; Willamina, \$56,930; Dundee, \$54,476. The total valuation for the entire county for this year is \$12,235,570.

Newberg's New Club. Newberg.—The Newberg Commercial club rooms were thrown open to its members last week for the first time. The rooms, five in number, are as fine as any in the state outside of one or two in the large cities. Though Newberg has a population of over 3,000, the first game of billiards or pool that was ever played in the city was at the Commercial club opening night. The club members among its members nearly all the prominent business men.

Insurance Plan for Loggers. Astoria.—An organization known as the "Lumbermen's Hospital association" is being formed here, and the articles of incorporation will be filed within the next few days. The association is organized by local men interested in the lumbering business, and its object is to insure the employees of the local mills and logging companies against accidents.

PORTLAND MARKETS. Wheat—Bluestem, 96@97c; club, 90@91c; 90c@91c; red Russian, 88c; 40-fold, 91c; valley, 91c. Barley—Feed, \$27 per ton; brewing, \$29. Oats—No. 1 white, \$31.50@32 per ton. Hay—Timothy, Willamette valley, \$14 per ton; eastern Oregon timothy, \$16.50@17; clover, \$12; alfalfa, \$12; grain hay, \$12@13. Fruits—Apples, 60c@82.50 per box; pears, \$16.75 per box; grapes, 65c@81.50 per crate; quinces, \$14@12.50 per box; cranberries, \$13.50@14.50 per barrel; huckleberries, 10@15c per lb.; persimmons, \$16@25. Potatoes—\$80@90c per hundred; sweet potatoes, 25@21c per lb. Onions—\$12@25 per 100 lbs. Vegetables—Turnips, \$1@1.25 per sack; carrots, \$1; parsnips, \$1.25; beets, \$1.25; horseradish, 8@10c per lb.; artichokes, 90c@81 per doz.; beans, 15@17c per lb.; cabbage, 12c per lb.; cauliflower, 75c@81 per doz.; celery, \$4.50@4.75 per crate; cucumbers, \$2@2.50 per box; eggplant, 11c per lb.; lettuce, 75c@81 per box; parsley, 30c per doz.; peas, 12c per lb.; peppers, 15@20c per lb.; pumpkins, 1@1.11c per lb.; radishes, 20c per doz.; spinach, 2c per lb.; sprouts, 9@10 per lb.; squash, 16@18c per lb.; tomatoes, 50c@81.75. Butter—City creamery, extras, 36@37c; fancy outside creamery, 32@35c per lb.; store, 18@20c. Eggs—Oregon ranch, 40@42c; eastern, 30@35c per doz. Poultry—Hens, 12c per lb.; spring, large, 11@12c; small, 14@15c; mixed, 11@11.11c; ducks, 14@15c; geese, 9@10c; turkeys, 17@18c; dressed turkeys, 20@22c. Veal—Extra, 9@10c per lb.; ordinary, 7@8c; heavy, 5c. Pork—Fancy, 7c per lb.; large, 6@7c. Hops—1908, 5@6c; 1907, 2@4c; 1906, 1@1.11c. Wool—Eastern Oregon, average best, 10@14c per lb., according to shrinkage; valley, 15@16c. Mohair—Choice, 18c per lb.

PROTEST AGAINST RATES. Californians Will Refuse to Pay Railroads More.

San Francisco, Dec. 21.—Shippers and importers of California are arranging to unite in a state-wide protest against the increase in transcontinental tariffs announced by the Southern Pacific and Santa Fe railroads as effective on January 1. Opposition will take the form of a score of mass meetings, held in the leading cities on December 30, when representatives of leading industries will set forth the grievances of the business men against the carriers. An executive committee appointed some weeks ago to deal with the question yesterday announced this method of procedure as more desirable than an appeal to the courts, which was regarded as productive of delay, or to the interstate commerce commission, which is powerless to take action until such rate changes have taken effect. The attitude of the protesters was set forth yesterday in a statement by C. H. Bentley, president of the San Francisco chamber of commerce and a member of the executive committee, who said: "We deem it unjust that the traffic managers should have arranged these rates, without consulting the shippers, and at a period most inopportune. We have canvassed the railroad situation thoroughly, and from the cost of fuel to the statement of earnings there is apparent no valid reason for such an increase of rates at this time."

SEEKING WAR INSTRUCTORS. Berlin Paper Says Castro Will Add Army and Navy.

Berlin, Dec. 21.—The Berlin Neueste Nachrichten yesterday printed an article "from a well-informed source" warning the German press against adopting an unfriendly attitude toward President Castro, of Venezuela. The writer says that Germany's business interests should cause the newspapers to refrain from offensive allusions, such as "ex-cowboy" and "president of a robber state." Castro, the article continues, is considering a large addition to the equipment of both army and navy, and is thinking of placing the orders in Germany. The Venezuelan president is also seeking instructors for his military academy, recently established in Caracas, and is likely to give preference to officers from the German army. All this leads the Neueste Nachrichten writer to hope that Germany will strive to obtain a permanent influence politically and economically in Venezuela. Many of the newspapers in their weekly political reviews deal with Senator Castro's visit in connection with the Venezuelan situation. The Tageblatt says: "The German government cannot much longer show favor toward the president unless he gives assurances that Venezuela will fulfill the obligations."

Willing to Arbitrate With France—Return to Venezuela Unlikely. Berlin, Dec. 19.—There is an evident desire on the part of President Castro to effect an arrangement of the outstanding difficulties between Venezuela and France. He authorized a diplomat today to make the following statement: "I believe it would be very easy to bring about a renewal of relations between Venezuela and France by submitting the question to arbitration." Senator Castro had a lengthy conference with a prominent representative of the German foreign office. The subject-matter of the interview is not known. Both the German foreign office and Senator Castro discredit the report that Venezuela has declared war against the Netherlands. The foreign office takes the ground that, even if hostilities have been declared, the declaration cannot become effective because Venezuela is in no position to carry a campaign beyond its own borders and Holland will not exceed the limits of its retaliatory course, as already fixed and known to the United States.

Resembles Stage Shylock in Shabby Overcoat at Mosque. Constantinople, Turkey, Dec. 19.—The scene before the mosque of St. Sofia at the opening of the Turkish parliament as the sultan reached the parliament house after his four-day journey by land, exceeded anything that had been imagined beforehand. Thousands of persons were clustered on the roofs, pillars and buttresses of the ancient church, two mullahs even standing on the summit of the dome. Trees, windows and the flat roofs of houses were crowded with spectators. No other such multitude has gathered in Constantinople in 500 years, yet throughout the entire day no disorder whatever was observed.

SULTAN LIKE CRIMINAL. Sultan's Visit to Mosque. Constantinople, Turkey, Dec. 19.—There was a deadly hush when the sultan entered his box and everybody stood up. Bent and clad in a shabby overcoat, without a single decoration, the sultan bore a remarkable resemblance to a stage Shylock, and looked rather like a criminal in the dock than a ruler blessing his people.

Robbers' Rendezvous Found. Riverside, Cal., Dec. 21.—Evidence in the hands of government secret service agents leads to the belief that an organized gang of postoffice robbers is making its headquarters at either San Bernardino or Colton. Officers are running down clues and believe they will soon apprehend the criminals. Scores of small postoffices in southern California have been robbed recently, and in almost every case the robbers' trails have led toward San Bernardino or Colton. Suspicious characters are being kept under surveillance.

Cosgrove Makes Strides. Paso Robles Hot Springs, Cal., Dec. 21.—Governor-elect Cosgrove, of Washington, is making wonderful strides toward recovery. Yesterday morning he was well enough to be dressed, and chatted pleasantly with the physician. The governor is now so much advanced that his son, Howard Cosgrove, returned yesterday morning to Pomeroy, Wash., feeling confident that his father would be well enough to leave for Olympia before many weeks.

Wright Breaks Record. Lemans, France, Dec. 19.—Willbur Wright, the American aviator, today broke previous distance and duration records for aeroplane flight, going 61 1/2 miles in one hour, 53 minutes, 59 seconds. Wright's feat was performed during a trial competition for the Michelin prize.

KNOX IS HEAD OF CABINET

Choice Is Announced by President-Elect Taft.

Wickersham, of New York, for Attorney General—Straus and Taft Now Looking for Good Timber for New Secretary of War.

Augusta, Ga., Dec. 19.—President-elect Taft tonight announced the appointment of Senator Philander C. Knox as secretary of state in his cabinet. The announcement followed the receipt by Mr. Taft of a telegram conveying the information from Mr. Knox that he would accept the office. Mr. Taft without delay announced that the matter was settled. He said the offer was made to Mr. Knox last Sunday in New York and that since the offer he had not heard from Mr. Knox until today's telegram. "I feel that I am to be congratulated on securing the services of Senator Knox in my cabinet," said Mr. Taft. "In selecting a secretary of state I wanted, first, a great lawyer, and second, a man who would fill the public eye, not only here, but abroad, as a man who stands out prominently as a great American."

It was stated at the capitol that Mr. Taft is looking for a man to take the war portfolio who has had sufficient experience to work out the reorganization scheme put into force by Mr. Root while he was at the head of that department. The position of secretary of commerce and labor has been mentioned to a very slight extent, and in some quarters it is thought possible that Secretary Straus, who also is from New York, will be continued in that post, for a time at least.

For secretary of agriculture it is practically conceded that James Wilson, of Iowa, will be continued for a year or more. The appointment of Frank H. Hitchcock to be postmaster general already has been announced authoritatively. Reports that Secretary Root would soon resign from the cabinet on account of his injured knee are authoritatively denied.

Other than to announce that Knox had been selected as secretary of state, Mr. Taft declined to speak of cabinet rumors. Regarding the report that George W. Wickersham, of New York, would be attorney-general, Mr. Taft said he had not yet determined on anyone definitely for this place. It is his desire to fill this place with an administrative genius who will reorganize the department as well as the legal phases of the department of commerce and labor and the interstate commerce commission.

CASTRO SEEKS RECONCILIATION

Willing to Arbitrate With France—Return to Venezuela Unlikely.

Berlin, Dec. 19.—There is an evident desire on the part of President Castro to effect an arrangement of the outstanding difficulties between Venezuela and France. He authorized a diplomat today to make the following statement: "I believe it would be very easy to bring about a renewal of relations between Venezuela and France by submitting the question to arbitration." Senator Castro had a lengthy conference with a prominent representative of the German foreign office. The subject-matter of the interview is not known. Both the German foreign office and Senator Castro discredit the report that Venezuela has declared war against the Netherlands. The foreign office takes the ground that, even if hostilities have been declared, the declaration cannot become effective because Venezuela is in no position to carry a campaign beyond its own borders and Holland will not exceed the limits of its retaliatory course, as already fixed and known to the United States.

Drink Acid and Die

Manila, Dec. 19.—Eleven deaths have occurred and 13 men are seriously ill at Kaitley camp, Mindanao island, as a result of the men of the eighteenth infantry drinking columbic acid, a vegetable compound extract from the calumba root. An official investigation is now being made by the military authorities, but no details have been given out and the names of the dead and seriously ill will be withheld until an official report has been called to Washington. The beverage, it is learned, was served as "vinegar," a native drink, at a resort near the camp on December 15.

Steel Trust's Margin

Washington, Dec. 19.—Ellert H. Gary, chairman of the board of directors and chairman of the finance committee of the United States Steel corporation, appeared before the house ways and means committee in the tariff hearing today. Gary stated that the steel trust had the advantage over its competitors of \$2 a ton in the production of pig iron. The meaning of this is that the profits of the trust are \$22,000,000 over the profits of the ordinary manufacturer of a like output.

San Francisco Honors Biggy.

San Francisco, Dec. 18.—The remains of former Chief of Police William J. Biggy were buried today in Holy Cross cemetery. The services were held from 10 o'clock to 11 o'clock, at which time the body lay in state yesterday. The cortege moved to St. Mary's cathedral, where a solemn requiem high mass was said. Every policeman who was not actually on duty at his post was present at the funeral, there being a battalion of seven companies in the procession. The city's departments were all closed during the funeral ceremonies and representatives from all the offices were in the procession to the cemetery.
