All who attended the Elks banquet at the Palace hotel last Monday evening speak very highly of the service rendered. If they don't make a hit, you are hard to suit.

### IF YOU'VE GOT

a little more money than you need for every-day uses, that's liable to find its way to Wall Street sometime—"for goodness' sake" invest 15 cents of it in the March EVERYBODY'S and find out how much chance you've got in "the big fellows' game."

Your 15 cents will pay you back in \$55.

### The Starboard Light.

"Twice a day for a week I have been harassed by doubt as to how far a man should go in correcting the glaring mistakes of strangers," said the man who enjoys looking in shop windows. "There is an art store downtown where the present window collection includes the picture of a ship. It is elaborately framed and has a lighthouse carved on the wooden strip at one side, but the artist should never have tried marine work, for he has got the red side light of that vessel on the starboard side. Two or three times I've been on the point of going into the store and asking the proprietor either to remove that picture or put a patch of green paint over that red, and each time my nerve has failed me."

"I am half hoping that the false side light will cause a collision in that window which will smash the picture, and then my anxiety will be relieved."—New York Post.

### Protective Coloring of Insects.

A well known little moth with pale green mottled wings is the only case in which I have myself watched the protection afforded by color at work. It was on a summer's evening when I saw this little moth zigzagging up and down with the most extraordinarily irregular flight and a bird pursuing it. Twice the bird swooped and just missed his prey owing to a sudden turn and drop on the part of the moth. And then to my great delight the moth flopped against the stem of a tree on which was growing a greenish gray lichen. The bird swooped again close to the tree, but failed to see the insect and quitted the chase. It took me an appreciable time to detect the little moth resting against the lichen and closely matching it in color.—Sir E. Ray Lankester in London Telegraph.

### Hard to Believe.

A station master requested an increase of salary and threatened to leave if he didn't get it.

The superintendent replied to his request by relating a story.

"When I was a young man," said he, "I once did as you are doing—I told the superintendent of the line I was then working on what you have told me. He refused my demand, and I left, and—would you believe it?—that railway line is running yet."—London Tit-Bits.

### Not Encouraging.

A pastor in a rural church not far from Milwaukee announced the wedding in his church during the following week of two of his parishioners.

He followed the announcement with the title of the hymn which was then to be sung. It was "Mistaken Souls That Dream of Heaven"—Milwaukee Free Press.
