Joseph Jackson passed away about 10:30 p. m., Sunday evening after an illness of several weeks. Mr. Jackson has been in poor health for the past year, but until a short time ago was able to get about and attend to his business. He was a prominent stockman of Northern Grant county.—Mont-Enterpriser.

The Heppner Gazette said last week Heppner would celebrate the Fourth of July in glorious style. That's the way to do it and as Heppner all came to us last year then we should go to Heppner, this year. Last Fourth the Heppner boys beat our ball boys on our home ground so we should try and carry home the trophy from there this year.—Ione Proclaimer.

Every month sees some new community publication added to Oregon's series, and each book seems more artistic than the last. Many are handsomer than the "souvenir" booklets ordinarily sold to tourists. Hood River and Medford are both receiving compliments galore on new and elaborately illustrated literature, just from the printer.

After the cold spell last winter as usual some pessimist said that the peach trees were all killed. Unfortunately Wm. Wattenburger of Butter creek believed the report and cut down two fine peach orchards. Now the peach trees are blooming on the adjacent farms Mr. Wattenburger's loss is serious and it will take at least four years before he will have a home grown peach on his place.

Scheduled meetings of the Oregon Development League last week proved even greater successes than the most enthusiastic "boosters" anticipated. At Roseburg the committee got busy and raised \$5,000 for their campaign, doubling the number of their subscribers. Central Point had big delegations from all the principal towns of the Rogue River section, and \$1,000 in less than a half hour showed the interest of the audience. Oakland, Cottage Grove, Eugene and Oregon City all did themselves proud.

THE WELD THAT HELD

"PITTSBURGH PERFECT" FENCES ARE WELDED BY ELECTRICITY.

This is the modern method of construction. Years of life are added through the elimination of serious fence defects.

A WRAP holds moisture, cracks the galvanizing and allows the water to attack the bare wire. A small amount of displaced galvanizing on "PITTSBURGH PERFECT" REINFORCES THE PROTECTION AGAINST RUST AT THE ELECTRICALLY WELDED JOINT; examine the joint.

STAYS CANNOT SLIP. They are always just where they were put. Stay and strand wires become one piece when the union is made. The fence is like a solid sheet of perforated steel.

Every Rod is Guaranteed Perfect.

Don't allow your prejudice in favor of the rapidly-declining and now antiquated methods you have heretofore known, to warp your good judgment.

"PITTSBURGH PERFECT" FENCES REPRESENT PROGRESS, because hundreds of thousands of dollars worth of standard material is daily welded by electricity.

The hoop on the average sugar barrel in the isolated country grocery store is an electrically welded product.

If your wagon was made in a large factory, its tires were welded by electricity. If your wagon was made in a large factory, its tires were welded by electricity. Examine them.

You will find electrically welded hoops on ice cream freezers and washing machines, on many tubs and buckets. Examine them.

"PITTSBURGH PERFECT" fences are made by this modern, simple and marvelous process, producing "THE WELD THAT HELD."

MR. FARMER: LISTEN, NOW. Every agent handling "PITTSBURGH PERFECT" fences is authorized to guarantee this:

That the wires are not injured at the joints.
That the fence is perfectly adjustable to uneven ground.
That the stays will not separate from the strands.
That the fence is all right in every particular.

Could you ask any more definite protection? Your complete satisfaction is absolutely assured.
