A Few Facts About Clothing

Of course we're partial to our own clothes. When we bought our stocks, we saw most all the styles and all the cloths that all of the important makers showed. We couldn't give you a better proof of our own belief in the garments that are here than our possession of them. Not that there aren't lots of first class manufacturers, but even in a group of excellent factories one product is bound to stand a little ahead, and as far as we can calculate

Weather conditions have been very bad the past three weeks for sheepmen. There has been a great deal of cold wind and but little rain which has stopped the growth of grass, however good reports are in from all the camps and practically no loss of lambs so far. Many of the camps have lambed 100 per cent and in a few instances better.
