**Canadian Pacific Railroad Land.**

Can there be a better investment than first class farm land?

Investors often do well buying city property, mining stock, timber land or by going in the mercantile business, but they must admit there is a certain amount of risk, but who can say there is any chance in buying good farm land under \$20.00 per acre—land that will raise from 25 to 60 bushels of grain per acre as well as being adapted for growing all kinds of vegetables, fruit, berries and hay.

We are agents for Canadian Pacific Railroad lands in Southern Alberta. Non irrigable land from \$12.00 to \$18.00 per acre; irrigable land up to \$30.00 per acre. One-tenth of the purchase price in cash, balance on nine equal installments, or this land can be sold on the crop payment plan.

Write to us for circulars and further information.

We also have wheat and stock farms for sale in Eastern Oregon and Washington, fruit and walnut land in the Willamette Valley, 5 to 10 acre tracts near Portland and all kinds of city property in Portland including lots, residences, water front and business property in the best part of the city.

Matlock of this city and were picked up from different parties in the John Day country. The animals were shipped to Portland yesterday morning.

T. J. Matlock was severely poisoned last Friday evening at his home by taking a drink from a bottle which was supposed to contain whiskey. Mr. Matlock had mixed some whiskey and glycerine which he was taking for a cold and before retiring took a swallow of the mixture. He was soon in great agony and being alone in the house was unable to summon aid. Pap Simons happened to go to Mr. Matlock's home Saturday morning and finding him summoned Dr. Kistner. Upon investigation the bottle was found to contain strychnine, but fortunately Mr. Matlock did not get enough of the poison to cause fatal results. Whether the poison got into the bottle by accident or was put there by somebody is a mystery.
