County Court.

The county court closed the regular term Thursday evening last. Claims to the amount of \$4,316.06 were allowed.

The first payment of \$950 was ordered paid on the new steel bridge at Cecil.

School Notes.

The library books have been received and the districts may secure them by having some member of the board or some other person call for them. No provision is made for transportation, and the districts must either find a way of obtaining the books or wait until the superintendent visits the school and brings the books with him.

The valuations for the school districts have been tabulated and the county clerk will furnish a statement to any district desiring it. Districts intending to vote a special tax should obtain the statement of valuation before the meeting in order to make definite calculations in regard to the amount of tax.

Superintendent W. T. Gardner, of the Boys' and Girls' Aid Society, makes an appeal to the schools of this county to collect and forward to him at Portland, canned fruit, vegetables and provisions of any kind, for the Thanksgiving at the home. The railroad will forward the supplies free. Several schools last year sent a nice donation of cash. This is a worthy cause and we hope the schools will not overlook it.

S. E. NOTSON,
County Superintendent.

"1892" Pure Aluminum Ware

Will Not Rust, Crack, Break, Scorch or Burn

Cheapest Because Best Will Last a Lifetime

TEA STEEPER

FRUIT FUNNEL

JELLY CAKE PAN

HERE, at last, is the ideal kitchen and cooking utensil—"THE WARE THAT WEARS"—made from Pure Spun Aluminum, and guaranteed by the makers to last 25 years with average usage. "Spun" Aluminum, mind you, not cast Aluminum, which will sometimes crack and scale. Spun Aluminum Ware will never crack, peel, scale or br. ak.

Costs a trifle more than ordinary enamel ware, but is many times cheaper in the long run, because of its wonderful durability and fuel saving. Enamel ware is iron coated with colored glass. Iron expands with heat. Colored glass does not, but chips off into the food with dangerous results to those who eat it.

That the use of enamel kitchen ware causes cancer is a view held by some eminent medical authorities. Dr. William H. Diefenbach of New York, in a paper entitled "Observations on the Etiology of Cancer," read before the Bureau of Sanitary Science and Public Health during the session of the International Homeopathic Congress at Atlantic City, discussed this subject.

According to a special dispatch to the Philadelphia North American, Dr. Diefenbach advanced the argument that chipping

of the hard-coated dishes used in preparation of meals allowed minute but dangerous particles of foreign matter to become mixed with the food, these being taken into the stomach, where the cancerous growth is caused by abrasions which they make in the walls of the organ.

"1892" Pure Aluminum Ware saves doctors' bills. It enables you to bake bread, pies, pan cakes, etc., without grease, which is the great cause of dyspepsia and indigestion. Aluminum griddles require no grease; hence are smokeless and odorless.

"1892" Pure Aluminum Ware will not scorch or burn, is easily cleaned, will not rust, or corrode. Handsome in appearance. Looks like silver, but weighs only about one-fourth as much, and is light and convenient to handle.

The original and only genuine Spun Aluminum Ware is made by the Illinois Pure Aluminum Co. at Lemont, Ill. Every piece bearing their trade-mark, the Maltese Cross, and marked "1892" Pure Aluminum Ware is absolutely pure, wholesome and hygienic, and guaranteed for 25 years.

See that you get the right goods and accept no substitute.
