To School Officers.

Under the new law, the special school tax must be voted in time to have the notice in the hands of the county clerk and the school superintendent by December 10. If you have not already voted a special tax and expect to do so, it would be well to call your special meeting soon. Before the day of the meeting the clerk should obtain the amount of the valuation of property in your district. This will enable you to determine the amount of tax you need to vote. The county clerk will furnish you a statement of your valuation.

WHY
"1892" Pure Spun Aluminum Kitchen Ware
Is Better Than Agate or Enamel
Because it is sanitary and saves your money, time and health. The genuine spun aluminum ware, stamped with the Maltese Cross, will outlast any other cooking utensils and is guaranteed by the makers for twenty-five years.
It is pure, wholesome and hygienic—no danger of metal poisoning—cannot chip into the food, because pure SPUN Aluminum expands with the heat and will not crack, scale or peel like the old style ware.
Enamel ware is iron coated with colored glass. Heat causes the glass to chip off into the food in minute particles, which, taken into the stomach, is apt to cause serious troubles, including cancer, according to some medical authorities.
"1892" Pure Spun Aluminum Ware is made from solid Aluminum throughout—no coating of glass—and expands uniformly under heat. It cannot crack, scale, peel like the out of date enameled utensils; it does away with all possible danger from this source.
You owe it to yourself, and to every member of the household, to give this new and better kitchen ware a practical test. If it fails to do what is claimed for it, you get your money back without a quibble or a cross word.
At your dealers.
