The very essence of Childish joy seems identified with those four letters! Christmas morn without toys! Imagine such a thing. This great TOY STORE is Santa Claus' headquarters. How the children love to come and see the marvelous things Santa makes, and here the parents and friends look back to the days when they were children. There never was a gathering of TOYS and DOLLS such as we have to show you this year and remember NO FANCY PRICES because of season or sentiment, just fair prices, good treatment and good dependable merchandise.

The store and windows will be decorated for the benefit of the little ones. Let them come and look these beautiful Christmas things over from now until Christmas. We will endeavor to please the little tots and help you to make your desired selection for them. Interesting price bulletins of Toys furnished you. Toys yet to buy. Our toy department has good news for you. Other flowing quantities of fascinating toys arranged to make buying quick and easy, so that you'll find it the best place to shop for toys. Come in, bring the children and allow them the pleasures due them.

New Use for Sawdust.

Washington, Dec. 10.—Flour from sawdust is another step in the movement for the conservation of forest resources. The United States Consul at Christiania, Norway, has sent to this Government a suggestion along this line which may be of value to American lumbermen who are wrestling with the problem of sawdust waste.

The flour in question is not the kind which goes into the making of light, fluffy biscuits, and the other kind which are not light, or any pastry, but it is an ingredient of dynamite, linoleum, xylolite, which, for the information of the man on the street is a kind of artificial flooring, and other things. It is not put forward as a new discovery, for it has been in use for several years in Europe, and to a small extent in this country.

The wood flour is ground in cheap mills, very similar to those which grind corn and rye. Pine and spruce sawdust is used in Europe, and after passing through the stones and the bolting chest, it is sacked or baled for shipment. It is then worth \$12 to \$13 a ton.

The flour has a number of uses, one of which is in the making of dynamite. It is the absorbent for the nitroglycerine, the explosive ingredient. Wood flour dynamite is inferior to that made with infusorial earth as the absorbent; but it serves many purposes, and is cheaper. But dynamite is one of the smallest prospective uses for the product. Linoleum makers mix it with linseed oil and give body to their floor coverings. It is not considered quite equal to ground cork for this purpose, as it is less elastic; but it is cheaper and meets requirements for medium grades.

The flour fills an important place in the manufacture of xylolite, a kind of artificial flooring, resembling wood in weight, and stone in other respects. It is used for kitchen floors, and in halls, corridors, safes, restaurants and public rooms. It is impervious to water, and is practically fire proof. It is floor material in some of the German war vessels. It is so used because it is not liable to take fire or splinter if struck by shells.

Walter Robinson, employed in Victor Groshens pastime, was seriously burned Monday evening. In attempting to start a fire he picked up a can of gasoline and thinking it was coal oil, saturated the fuel in a big heating stove. Touching a match to the fuel there was an explosion and Mr. Robinson's hand was seriously burned and his face was badly blistered.

From present indications there will be something doing at the South Methodist church at Christmas time. Extensive preparations are being made. The Christmas miracle deserves special mention. The door will be open at 8 o'clock p. m., on Friday, December 24. Reserved seats for business people. There will be a rare treat for every one, and a cordial welcome for all.
