**1-3**

Discount for  
One Week  
Only  
Remember  
the Dates

Mr. Marquardsen is at Spokane purchasing his entire spring line from Eastern representatives and upon his departure he insisted us to put every effort to reduce the stock and make more room for the new line to arrive in March. Of course we realize the hardships of the community and the scarcity of ready money, and by bearing this in mind have made prices on articles as quoted below not to be excelled in Heppner. We are and have been since the panic of 1907, hard pressed for MONEY, but it is our motto to continually try to induce the public to spend a portion with us by offering good dependable merchandise at prices worthy consideration.

### One-third Discount

These reductions are made and in charge of the clerks for one week in Heppner's Big Department Store and we ask you to call to inspect the worthy offerings. Its up to us to sell the goods regardless of cost, hence we offer one-third discount on all articles in the two big departments of our store.

### Comet Brushes Earth on May 18.

Haley's comet will give the Pacific Coast a close brush this year on May 18, between the hours of 4 and 11 o'clock, p. m. and the "brush" will be something spectacular, says Professor Charles Burkhalter of the Chabot observatory.

The earth will then pass through the last of the 20,000,000-mile tail of the celestial visitor, and the result may be as dazzling a piece of fireworks as this generation has ever witnessed.

The news that Haley's comet will be seen only on the Pacific coast has not hitherto been published, although the fact has been known for some time to the astronomers of the world, many of whom may come west to see the great spectacle.

"Astronomers Cromelin and Cowell of the Royal Observatory at Greenwich have probably made the most exhaustive researches into the history of the comet," stated Professor Burkhalter.

According to the computations, Haley's comet will reach the descending node on May 18, 1910, when it will be in a direct line between the orbits of the earth and the sun, and it so happens that the earth will reach that particular point of its orbit about the same time. Should the calculations of the astronomers prove to be rigidly exact, the comet will pass directly between the earth and the sun between the hours of 4 and 10 o'clock stand Pacific time.

"Assuming that it will happen during the middle of this time or 7 p. m., it will be visible over the Pacific ocean, eastern Asia and western North America. The sun will have set in the eastern part of the United States, and the comet will be therefore invisible to all parts of the country on that side of the Rocky mountains. Thus we have on the

western edge of the continent a opportunity of observing this transit that is absolutely unique and without precedent in the history of the comet. "The comet is near the calculated position at the present time, and there is no reason for believing the work of Cowell and Cromelin will need much or any revision. So we can believe that the predictions of the coming phenomenon will be fulfilled."

### Government Helps Irrigation.

Washington, Jan. 22.—The Senate irrigation committee today drafted a substitute for the Borah-Ballinger bill authorizing the issuance of \$30,000,000 worth of bonds to assist in the completion of Government irrigation projects.

Aside from changing the name of the securities from bonds to certificates, the committee made no material change in the Borah bill, except to provide that moneys shall be applied exclusively to the completion of existing projects or extensions thereof. No new projects can be built with this fund.

The committee is of the opinion that the bill can be passed through the Senate without difficulty, and Senator Jones was again delegated to confer with Speaker Cannon to see what can be done about getting the measure through the House.

Carter told the committee Cannon would not consent to the passage of a bond bill, but would support a bill issuing certificates. Jones is to see if the Speaker will positively commit himself to this extent.

A long and interesting session was held by the committee, in which was fought the question of issuing bonds or certificates of indebtedness. The principle on which the proposed legislation is based is contained in Senator Borah's bill providing for the authorization of a \$30,000,000 bond issue. This measure was prepared by him after a conference with President Taft and Secretary Ballinger while the President was in the West last Summer.

Whether certificates or bonds are authorized, the securities may be issued as needed up to a limit of \$30,000,000 and will draw 3 per cent interest, payable quarterly.

The payment will be guaranteed by the government out of the reclamation fund. Mr. Borah and supporters

of a bond issue believe that form of security would be the most readily marketed.

According to the figures before the committee, \$1,400,000 out of the \$30,000,000, is intended for the Klamath project; \$50,000 for Umatilla, \$1,400,000 for Yakima, \$2,337,000 for Payette-Boise and \$650,000 for the Minidoka project.

### Cold Weather in Harney.

Harney county has been experiencing colder weather this month than for the past four years. The thermometer has been registering 24 degrees below zero in this city, and at the Narrows, on Malheur Lake, 32 below zero. The coldest period in the history of Harney County was from December 15 to January 19, during all of which time the thermometer registered 3 to 24 degrees below zero. The stockmen are losing their animals by the thousands. The sheepmen in the Stein Mountain country have not been feeding for the past three winters, and the cold weather has caught them without supplies. They cannot purchase hay, as the cattlemen are holding it for their own use. Several big stockmen of Harney county have suffered heavy loss, and if the snow and cold hold on until the 1st of March, as in former hard winters, the loss of sheep and cattle will be very heavy, as hay is getting short with some of the stockgrowers and the price has risen from \$5 to \$8 per ton in the last few days, with some holding for \$15 per ton.

Joe Sheridan who is feeding sheep on the J. D. Brown place on Lower Willow creek, was in the city Friday.

Fred Ashbaugh, of Hardman, was a Heppner visitor yesterday.

If you take this paper and the Weekly Oregonian you won't have to beg your Weekly Oregonian—Heppner Gazette.

#### SUMMONS.

In the Circuit Court of the State of Oregon for Morrow County.

Carl Marquardt, Plaintiff, vs. August Triebel, Defendant.

To August Triebel, the above named defendant: In the name of the State of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled court and cause on or before the 10th day of February, 1910, said date being six weeks from the 30th day of December, 1909, the date of the first publication of this summons, and you will take notice that if you fail to appear and answer said complaint, for want thereof, the

plaintiff will take judgment against you for the sum of Eleven hundred Fifteen and 45/100 Dollars (\$1115.45), and for his costs and disbursements for this action.

You will also take notice that this summons is served upon you by publication thereof in pursuance of an order of the Hon. C. C. Patterson, Judge of the County Court of the State of Oregon for Morrow County, which order is dated the 28th day of December, 1909, and prescribed that service of this summons shall be made on you by publication thereof not less than once a week for six consecutive weeks.

S. E. NOTSON,  
Attorney for Plaintiff.
