SWEDISH SANITARIUM

Our method of treating diseases is not a new one but an old and well tested one, worthy of a trial to any discouraged and hopless sufferer. Being graduates of Sweden and employing all the European methods the results in curing are so raccuous to which hundreds of patients in all stations of life will testify. Our methods are not entirely drugless but we adhere to the use of physical methods as much as possible such as Electricity, Chiropractic, Hinsen rays, Bake-oven, Manipulations, Baths of all kinds, Physical Culture, also the famous Nauheim treatment prescribed so much in Europe for heart trouble and asthma.

Our Sanitarium is especially equipped with a modern surgery and a staff of Surgeons and Physicians of wide experience and high repute. We cure Rheumatism, Diseases peculiar to Women, Chronic Constipation, Kidney, Bladder, Liver and Stomach Trouble, Blood and Skin Diseases, Paralysis, Habits of various sorts of both old and young, and all Nervous and Chronic Diseases. Testimonials on file from patients cured whom you can write to. Write or call for particulars. Consultation free. All questions confidential. Charges moderate. Address Drs. Nisbeth, Swedish Sanitarium, 433 Market St., Cor. 11th, Portland, Ore.

You Can Have a Model Kitchen

as cool and white as a dairy. No smell, no smoke, no heat, no dust. No old-fashioned contrivances. The

New Perfection
WICK BLUE FLAME
Oil Cook-stove

is the latest practical, scientific cook-stove. It will cook the most elaborate dinner without heating the kitchen.

Boils, bakes, or roasts better than any range. Ready in a second. Extinguished in a second. Fitted with Cabinet Top, with collapsible rests, towel rack, and every up-to-date feature imaginable. You want it, because it will cook any dinner and not heat the room. No heat, no smell, no smoke, no coal to bring in, no ashes to carry out. It does away with the drudgery of cooking, and makes it a pleasure. Women with the light touch for pastry especially appreciate it, because they can immediately have a quick fire, simply by turning a handle. No half-hour preparation. It not only is less trouble than coal, but it costs less. Absolutely no smell, no smoke; and it doesn't heat the kitchen.

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

The nickel finish, with the turquoise blue of the enameled chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Meyerbeer and Thunder.

Meyerbeer, like Handel, composed best in a thunderstorm. He had a room made at the top of his house with glass roof and sides, so that he might enjoy these conditions to the full whenever they presented themselves. It is said that no beast of the field, no raven or nightjar, could scent the approach of a storm more unerringly than Meyerbeer, and nothing was allowed to interfere with his solitary enjoyment of it when it arrived. Wherever he was he would leave at the first premonitory rumble.

Drives away Flies, Mosquitoes and Gnats. It protects horses and cattle from attacks of insects, enabling them to feed and sleep in peace. It prevents loss of weight and strength from worry caused by attacks of insects, and from the irritation of their bites and stings. There is a satisfaction in the relief it affords domestic animals from the scourge of maddening parasites and flies, besides the profit in returns. Horses do more work on less feed and cows yield more and better milk when relieved from the frenzy incited by constantly fighting a swarm of voracious, insatiable insects.

A GHOST AT SEA.

The Phantom That Boarded the Bark Sea Flower.

The following incident is recorded as a true short story by an English publication:

The Sea Flower, a bark of some 450 tons, was in the early hours of the 23d of June, 1864, bound for Bristol, England, under the command of the first mate, her captain, John Ellis, having been left behind at Kingston, Jamaica, suffering from "yellow jack." It was about four bells in the middle watch (or 2 a. m.) when the mate, who was standing near the binnacle giving the helmsman his course, suddenly became aware of a mysterious presence in the waist of the ship. At the same moment his companion clutched him by the arm, and, pointing, shrieked, "D'ye see him, sir?"

Before he could reply the mate became aware that the dark shadow he had just before observed had so far materialized that it bore the appearance of Captain Ellis. The figure of the captain advanced along the deck and disappeared slowly down the companion.

Recovering himself, the mate left the helmsman and hurried down into the cabin, meeting, just coming out of it, the second mate, who told him he had been awakened with a start after dreaming that the captain had come aboard and was calling him. Both men then made a complete search of the saloon and the other cabins, but, it is needless to say, without result.

Later it was found that Captain Ellis had died between 1 and 2 a. m. in the morning of June 23.

The story got about, and the ship obtained a reputation for being haunted; consequently a difficulty was found in obtaining crews, and in the end it was renamed and sold to a foreign firm.

Corns.

In the present article a departure is made from the usual custom, and treatment, and little else than treatment, is considered. Doctors as a rule ignore corns, seeming to regard their treatment as belonging exclusively to the chiropodist. The result of this is, as usually happens when the uninstructed or partly instructed try to practice medicine, or when one treats himself, that the disease is often maltreated, and the corn, instead of being cured or improved, is made worse.

A corn is not a callosity, although often so called, for the two things are produced in different ways. A callosity is due to pressure intermittently applied; a corn is due to more or less constant pressure, combined with friction. A callosity is superficial; a corn is well described in its Latin name, clavus, a nail. It is like a nail driven into the tender tissues of the lower layers of the skin and the parts beneath.

Paring a corn, the usual treatment, may give a little relief for a time by relieving the pressure, but soon the horny growth is pushed above the surface again, and the condition is as bad as ever, or worse.

The only lasting benefit is from the removal of the entire growth, and this is best effected by the application of moisture. Every night the sufferer should go to bed with a thin poultice, or a wad of absorbent cotton saturated with glycerin and water, on the corn, the surface before the application being thickly dusted with bicarbonate of soda. In the daytime an ordinary corn plaster should be worn, and in the hole should be placed a very thin layer of absorbent cotton soaked in glycerin.

This simple treatment is better than the use of salicylic acid, glacial acetic acid, and other chemicals which are often recommended. Simple rest in bed will do just as well, but it takes longer. In fact, a good long illness, such as typhoid fever, may be depended upon to cure any corn. It is the only good thing to be said of typhoid fever.

Of course after the corn has disappeared, better-fitting shoes must be worn, so that none of the prominent parts of the foot are pressed upon and rubbed by the leather at the same time. If the badly-fitting shoe is put on again the corns will quite certainly come back.—Youth's Companion.

A Remarkable Strike.

A man in Ohio recently sought an expert in oil because he believed that he had struck oil on his land. He brought a sample in a bottle.

Evidently he had been in a great hurry and had hastily grabbed the first bottle at hand, for when the chemist had duly analyzed the sample submitted he sent the following telegraphic report:

"Find no trace of oil. You have struck paregoric."—Youth's Companion.

Not Needed.

"I see you only have one chair in the kitchen, Mary; I must get another one for you."

"You needn't mind, ma'am, I have none but gentlemen callers."—Buffalo Express.

A woman never cries for the purpose of making herself feel better. She turns on the briny flow for the purpose of making some man feel worse
