

A Score of New Styles of Lingerie Waists

They have fluttered in dainty as butter flies, full of the spring newness that women find so fascinating just now. Quite elaborate many of them with rich combinations of lace and insertions. These waists as they are the first of the season, are naturally built of the pick of the makers' materials and trimmings. Later on if we try to duplicate these styles the manufacturers will probably be out. He will have no more of a particular lace or nothing to quite match a certain material. These waists placed on sale are of the finest quality for medium priced waists and are easily worth the money we ask. Come in, look these values over and you will agree with us.

Big Reductions

Some features make this event decidedly different from usual waist sales. For example, every waist is perfect as far as we know, the style being this spring's fashion, made up of clean and dainty lawns and linens. These waists are not seconds, or in other words having no flaw in the weave of the goods or in workmanship. This special sale on waists will be an orderly one; there will be no hunting through fumbled and tumbled stocks for your size, but expect to find unusual prices, that are not even attempted by any other store. Sizes 34 to 42.

THE END OF PRIZE FIGHTING.

A lasting monument to brutality the Reno fight has passed into history with a fitting sequel.

A score of negroes and several white men killed in the race riots that followed the fight can be mentioned among only a few of the evils that result from the brutal instincts that were stimulated by Nevada's disgrace.

For months the event has excited the public mind in this and foreign countries. Men have won and lost, thereby encouraging and placing a premium upon habits that ultimately end in ruin.

And after all what a big farce it was. From a financial standpoint costing more than brains and talent could earn in years.

Nevada is the last resort and Nevada will stop it.

BUSINESS CONDITIONS.

The only unfavorable element in the situation is the unfavorable attitude of federal law makers and state officials towards the railways and the spirit which would prevent the companies from moderately advancing their charges to offset the increased cost of operation. When the manufacturer is obliged to pay higher prices for raw material and increased wages he does the only possible thing in the circumstances and correspondingly raises the charge for his product. The railways are obliged to pay increased prices for supplies and higher wages, and it is only reasonable that they should get more for what they sell, namely, transportation.

That they are impelled to raise their charges is plain from current traffic returns showing increased gross takings, while costs of operation have increased in still greater ratio, with resulting decrease in net earnings. Unless the greatest of all industries is permitted to prosper the country cannot be prosperous.—Extract from editorial New York Herald, May 30, 1910.

Just Think of it.

A \$300 Upton Piano absolutely given away.

That advertising is now a science is again demonstrated practically to the buying public of this section by the wonderful advertising system now employed by the most

enterprising business house of Minor & Company who are going to give away absolutely free to some one of their customers the beautiful Upton Parlor Grand Piano which is on exhibition at their store.

The Upton sells for \$300 and is a high class instrument in every respect, guaranteed by the makers for ten years.

Just think of it! A three hundred dollar piano to be given away.

A few years ago if a merchant was to do such a thing he would be considered a fit subject for an asylum but conditions have changed. Yet in the face of the enormous sum spent in advertising the fact of Minor & Company giving away a \$300 piano is a stupendous undertaking and it clearly demonstrates their desire to be "always up to and a little ahead" of the spirit of the times.

Every purchaser of \$1.00 worth of goods from any department of their store will receive a coupon good for 100 votes on the piano and every purchaser of \$1.00 worth from their recently enlarged Jewelry Department will receive a coupon for 1000 votes. The person presenting the largest number of votes will receive the beautiful instrument absolutely free. No favors will be shown and every person will receive an equal chance.

The reputation enjoyed by Minor & Company for square dealing insures this fact. We think the buying public will appreciate this extremely liberal offer on the part of Minor & Company and we predict a lively scramble for votes.

The Hog Survived. There is a case on record in which a great fall of earth at Dover, in England, buried a whole family. A hog shared the fate of the family, so far as to be buried by the same landslide. Five months and nine days passed and then the hog was discovered—alive. Presumably it had had neither food nor drink in the interval.
