The Week's News

Local and Personal Happenings
in and About the City.

Glasses properly fitted at P. O. Borg's.

Bain wagons of all kinds at Gilham & Bisbee's.

Highest cash price paid for hide pelts and furs. Phil Cohn.

J S Buseick was over from Hamilton Sunday.

Wm Goodman spent the Fourth in Hood River.

Beach Haynes came up from Ione, Tuesday evening.

W B Ewing, of Cecil was in the city the first of the week.

W B McAlister, of Lexington was in the city the latter part of the week.

Mr and Mrs F C Marquardson and Miss Cora Platt left by auto for Spokane, Sunday.

Harvest is now in progress in the Lexington wheat district. Heading will soon commence in the Eight Mile country.

A car load of Deering mowers just received at Gilham & Bisbee's.

Theo Anderson who was in from Eight Mile, the first of the week says that wheat in his district will yield well and is now ready for harvest.

The glorious Fourth was a quiet day in Heppner. The return from the big fight at Reno furnished about the only excitement. Down at Lexington there was a basket picnic where a pleasant day was spent with many Heppner people attending. Out at Balm canyon on Rhea creek a celebration was held with an interesting program which also drew a number of Heppner people. The people of Eight Mile also held a celebration which drew a good sized crowd.

W J Blake was up from Ione, Friday.

Gilbert Coats was a business visitor yesterday.

R F Wigelsworth was in from Butter creek, Friday.

J L Howard was shaking hands with old friends in Heppner yesterday.

M S Maxwell, Geo Bleakman and J A Gibbons were in from Hardman, Friday.

Heppner Boys Won.

The Heppner baseball team returned from Fossil yesterday evening covered with glory and dust, and incidentally carrying with them that \$150 purse which was wrested from the Fossil team.

The way Heppner put it over the Fossil team was not slow, taking two games out of the three.

The first game resulted in a victory for Fossil, the score standing 5 to 6. Heppner took the next two games, the score being the same in both games—5 to 7.

The World Moves.

When Napoleon came rushing down through Russia something like a century ago his speed seemed then to be terrific. Later on the locomotive engine, driven by steam, appeared to be of ghastly celerity; women fainted at sight of it.

Then came the bicycle, then the automobile; then the aeroplane. Nothing surprises us now. We have grown so accustomed to rapid flight that a mile a minute is as nothing. We annihilate space.

When the world's fair was held at Chicago in 1903, no motor car exhibit was there. At the same distance from now what shall we say of the aeroplane? The leading engineer of the United States navy put himself on record 15 years ago as saying, dogmatically that a heavier-than-air flying machine as an impossibility. It could not be. It as a mechanical non est. Yet the aeroplane exists today; it has flown from Albany to New York; it has crossed the English channel; it has in mind to traverse the distance from New York to Philadelphia and return, and from St. Louis or Chicago to the Atlantic coast.

It seems that, so far as locomotion is concerned, it isn't safe to predict the possibilities of human ingenuity. Ours is a marvelous, a divine nature, capable of surprising discoveries. We have given birth to Christopher Columbus and to Marconi, and it need not amaze us if we produce greater than either one of these.

Long Creek in Ashes.

The business section of the town of Long Creek, Grant county, was burned last Sunday night during the time the town was crowded with visitors who had gone there to celebrate the Fourth.

It appears from meagre reports that the fire originated in one of the hotels in the early part of the night and before it was under control two hotels, the largest general merchandise store, the drug store, butcher shop, town hall and a blacksmith shop were devoured by the flames, entailing a loss of several thousand dollars in buildings and merchandise. The fire was a heavy loss to the little town as nearly every business house was destroyed.

Comparisons.

In New York 222 persons were found sleeping in one house. Milwaukee tenements are not so bad, after all.—Milwaukee Sentinel.

New York's world's fair of 1913 will be a nice little orchestral opening for the exposition at San Francisco.—San Francisco Chronicle.

Over 200,000 persons can be accommodated at one time in the hotels of New York city. This must almost equal the ability of Los Angeles along the same lines.—Los Angeles Times.

Read About the Mt. Vernon Hot Springs

They are located in the beautiful John Day Valley, 2 1/2 miles north of Mt. Vernon, and 12 1/2 miles west of Canyon City in Grant County, Oregon. The elevation is 2700 feet and the climate is mild throughout the year. The springs which furnish water for the bath and swimming pool flow 25,000 gallons per day of highly mineralized hot water of a temperature in the different springs of 100 to 122 degrees F. These springs are without rival or competition for the reason that you can get the water just the proper temperature for bathing without artificial heating or diluting with cold water and thereby destroying the medicinal properties. These springs have but recently come to public notice. They have just been fitted up for the comfort and benefit of the invalid and those seeking recreation.

Nature was the chemist who compounded the water which cures, and in her laboratory deep in the mysteries of the earth she prepared these curative waters; and those suffering from rheumatism, gout, skin disease, kidney or bladder trouble or any catarrhal condition of the stomach find almost instant relief and in most cases permanent cures in from four to eight weeks.

Our charges are reasonable. Come when you will, winter or summer; we are always open and ready to welcome you.
