### Lower Railroad Rates.

Salem, Or., Aug. 12.—In an answer filed with the State Railroad Commission today, the O. R. & N., in making separate answer aside from the general complaint concerning a 5-cent railroad fare on its lines, declares that it has an entirely new schedule of rates for passenger traffic, which is now in the hands of the printer and will be published and filed with the Commission as soon as possible. It is set out that many improvements and changes have been made no the line in the way of reducing curves and shortening distances and consequently the new rates will be much lower than those now in effect. In giving the proposed new rates, the separate answer contains a complete statement as to what these will be from all points in Oregon. The following, however, showing rates between principal points, will give a general idea of what the rates will be along the line:

Portland to The Dalles depot, \$2.55; Portland to Pendleton, \$5.80; Portland to La Grande, \$9.05; Portland to Union, \$9.40; Portland to Baker City, \$10.60; Portland to Huntington, \$12. The fare from The Dalles depot to Hood River is set down as 65 cents and from Bligs to Shaniko as \$2.80. From Arlington to Condon the fare is to be \$1.80.

In the general answer it is said that some mistakes have been made by the Commission in its complaint in setting out the present fares on the lines of the O. R. & N.

### New Road Coming.

Boise, Idaho, Aug. 19.—Railroad circles were stirred today by the announcement of J. F. Wallace, one of the biggest engineers in the country, that the Denver, Laramie & Northwestern is headed for a Pacific Coast outlet on Puget Sound, through Boise.

Mr. Wallace was the first American chief engineer on the Panama Canal, a member of the Isthmian Commission, vice-president and general manager of the Panama Canal Steamship line, has built several railroads and now makes New York his headquarters. He arrived in Boise this noon, accompanied by W. E. Green, vice-president and general manager of the Denver, Laramie & Northwestern; his son, H. U. Wallace, chief engineer of that road, and W. D. Hodge, engineer in charge of construction department.

The party started from Denver and made the entire trip overland by automobile. They made the run from Idaho Falls in fast time, having left there Wednesday morning. In discussing their trip, Green said:

"We are making a reconnaissance. The road's present terminus is Greeley, Colo., but survey is completed to Elk Mountain, Wyo., 260 miles from Denver, and the road beyond Greeley for that distance is being rapidly graded and will soon be ready for traffic."

"The Denver, Laramie & Northwestern is going to build to Puget Sound as fast as possible. We had practically decided on this step, but to make assurance doubly sure, brought J. F. Wallace out from New York to pass on the matter. Mr. Wallace says that he has found no obstacle so far, and we are certain that our plans will go through now without a hitch."

The party left Boise this evening, declining to name their destination, but it is believed they are bound for Oregon on a scouting trip. It is understood that Rock Island interests are behind this road.

The Gazette and Semi-Weekly Journal \$1.75.

## Would You Like a Peek at the New Fall Arrivals

WE are just opening up our Fall Goods--the first shipments. There is one big case of SINCERITY CLOTHES which we have just finished unpacking, assorting and pricing. They are all up in the cabinets ready for inspection and such clothes as was never our good fortune to see before. They are marvels in the ready-to-wear tailoring line. If you don't agree with us, either your taste or ours is at fault. Then there is another shipment of the new Fall colors and weaves in neckwear. We will let it talk for itself. The fact that it comes from one of the greatest neckwear houses may have something to do with its attractiveness. Then there are the new hats, all ready for inspection--a trifle early for most of you, perhaps, but it will take you a little while to get used to yourself in a new style after wearing light weights and light colors all summer; in short, everything in the store has an air of newness and novelty, and the man who wants to be first on the ground will be as enthusiastic over our new styles as we are ourselves. Although you will find some things in the windows, most of them we are holding for a little later; but if you come in and ask for them we will gladly show them to you.
