*There was seventy-nine hundredths of an inch of rainfall registered at Heppner during the big rain last week. The faces of our people have been shortened up almost 99 per cent in consequence and everybody feels bulky.

Mrs. John T. McMillan, of Lexington who recently came near dying from blood poisoning, is reported to be doing well at this time. It was found necessary, in order to save her life, to amputate her arm about two inches above the elbow.

Chas. Reid was in from the Stauffer ranch Saturday, and like all our other farmers he is feeling quite well, thank you, over the big rain. It has added many bushels to his already very good prospects for a crop of wheat off the five hundred acres he has in.

Report from Lexington is to the effect that Uncle John McMillan, who is now in the Willamette Valley under treatment for cancer, is not improving. He will likely be taken to a doctor in California, where it is hoped he may find relief and a possible cure effected. His case is very serious.

Where are you going to celebrate? Why not turn out and attend the celebration at Lone on the 4th and show our neighbor that our heart is in the right place. They will give you a good time, and you can take the train and run down there with no inconvenience. Let's give them a big crowd from Heppner and help the Lone people to enjoy the big picnic they are preparing for all who come. What you say?

Miss Nellie Franklin arrived from Corvallis on Saturday evening and is visiting this week at the home of her sister, Mrs. Thos. E. Chidsey. She will leave for her home at Monument on Saturday morning, and will be accompanied by Mrs. Chidsey and her family, who will visit with her, people in Grant county for a few weeks. Miss Franklin has been attending school at Corvallis, where she was taking a special course in the Agricultural college.

Fine rain last Friday. Five inches of moisture which insures large yield of potatoes; also a great aid to spring grain.

Miss Lizzie Wilhelm, who has been visiting her brother Harry and sister Grace of this place, returned home last Sunday.

It is reported that Vern Duncan has arrived with Newt Whetstone's race horse. This makes near a dozen in training now and more to come.

Oscar Schafer, of Monument, was here Friday, helping us enjoy that all day's rain. Oscar is an ex-resident of this place and we are glad that he has made good.

Mrs. E. Jay Merrill was a passenger for Heppner on Friday. She goes to be at the bedside of her father, Justus L. Simpson, who is dangerously ill with erysipelas.

An expert from The Dalles garage was summoned to repair the Bleakman auto. He found it had been put together wrong and hastily rearranged the machine which is now giving good satisfaction. Be patient and G. A. will show you that it is a success.

It is certainly contrary to our city laws for cows to run at large. If those who have their trees and shrubs injured would bring damage suits it would color ordinances more deeply. However, the marshal stands ready to act, but is restrained by the council. We think he should punish all offenses until certain ordinances are repealed.

At our last school meeting more zeal than usual was shown and several good talks were made. Among them Mr. McDuffie touched on the need of a trust officer and punctual attendance. The good feeling was contagious and Sept. 2 was agreed upon as the date they would meet to tidy up things for the fall term. This is a good move.

The following clipping was handed me by a prominent taxpayer, with the request that it be published in the Gazette:

A Good Roads Movement.

We've had a good roads movement down

Pohick, on the creek.

We raised some ready cash for what we

couldn't get on tick.

An', bein' a particular job, we thought it

would be wise

To get some men of probity to come 'an

supervise.

An' as a further guarantee 'gainst chances

of neglect

We took another set of men an' told 'em

to inspect.

An' these arrangements didn't seem jes'

what they ought to be

Till we'd secured some talent competent

to oversee.

There arose misunderstandin' 'bout

emoluments and rank,

But the pay roll checks kep' comin' very

regular to the bank.

Somehow the highways didn't seem to

lose their ruts an' lumps,

An' every time we went to town we had

to bump the bumps.

We found it hard to comprehend what

such delay could mean

In work so well inspected, supervised

an' overseen.

The only manual labor on this job that

seemed so slow

Was done with great reluctance by a

small boy with a hoe.

The situation naturally shocked our

civic pride.

We called some meetin's 'an the proper

people testified.

We got the overseers to tell exactly what

they knew

An' heard from the inspectors an' the

supervisors, too.

Then we drew up resolutions an' deliv-

ered an address

To vindicate our efforts to uplift an' to

progress.

We have solved the difficulty, an' our

hearts are full of joy

At seein' disciplinamaintained. We fired

that no 'count boy.

MIXON.

Velox, Azo, Solio and Bromide papers

and post cards, all sizes. Patterson & Son.

C. D. Robinson, of Lone Rock, was in

Heppner Monday on his way home

from a visit to Portland. He took the

stage for home on Tuesday.

W. G. Scott was up from Lexington

on Saturday night and reports an

abundant rain there on last Friday as

well as on Monday. The ground seems

to be thoroughly wet down, and much

good done to crops and gardens. These

raints mean that Lexington will ship

some 40,000 sacks of grain this fall,

whereas, the prospects were that the

farmers of that section, as well as other

parts of the county, would do well to

raise seed and feed. What a difference

a good rain makes.
