**TRADING AT HOME.**

Have you any town, city or state wide? Why do you buy out of town? Boost your town; don't knock or try to kill it.

Why do you buy out of town? You may think you save money, but do you?

Every dollar you put out of circulation here at home makes it just so much harder for you to find another dollar to take its place. Is that saving money?

Your home merchant extends you credit when you need it—and you know how often that occurs and for how long you "hang him up"—but when you do your cash buying you send your money to some distant city because some things in which the regular price are widely advertised are sold a few cents lower than the price at home.

And the mail order house makes up on something you don't know about—or on the quality of the goods.

When you buy of a home merchant and find that your purchase is not up to the standard you can go to him and have it out. Can you do that when you make your purchase in Chicago?

You may argue that you do not sell your products in this town. Perhaps you don't—but couldn't you do so if the town were larger and more prosperous? Do you think this town will grow if you persist in sending to an out-of-town firm for goods? And wouldn't your products have a greater sale if we all did our share in calling for "Made in Oregon" goods, all things being equal?

If people sending their orders to the big mail order houses would spend the same amount of money in their own towns these towns would be growing just as the larger cities are growing. There would be a larger demand for "Made in Oregon" merchandise, a demand for a larger force of clerks to handle the increased trade and a demand for houses for the new clerks to live in. There would be a larger demand for farm products for them to live upon, a larger demand for the produce that the average farmer raises and is willing to raise more of, if the demand makes it necessary. Think it over and see if your trade would not be of some help toward bringing about these conditions!

Elk from Wyoming will be shipped to the mountain districts of Union and Willowa counties during the coming winter. The animals are hard put to it for food during the severe Wyoming winters and many of them starve each year. The Government is determined to save the Wyoming herds from extinction and the Oregon mountains offer ideal range for them.

Recognition of good work done, as unusual as it was gracious, was evidenced during the past week at Solbitimity, where women of the Wash Club gave a dinner to the convicts who have been building roads in that precinct. Such appreciation is almost unheard of, yet it is instances such as this that probably do more to help the unfortunate regain their self respect than anything else.

The suggestion of Representative Foss of Illinois, former chairman of the House naval affairs committee, that the old battleship Oregon lead the fleet of battleships from New York to San Francisco when the Panama canal is finished in 1915, will meet with the hearty approval of every Oregonian. This famous fighting ship, that made such a splendid record during the Spanish war, deserves such recognition.

President Taft's unequivocal message dealing with the Controller Bay Flurry clears up a situation of which Alaska's enemies have tried to make much. Theodore Roosevelt "buted in" with an editorial in the Outlook, which plainly shows that he knows nothing about conditions at Controller Bay. The Geodetic and Coast Survey maps make it plain that it is far from an ideal harbor. Alaskans have long realized that Mr. Roosevelt is not their friend, as he is to much under the Pinchot influence. They are grateful to the President for his interest, however.

### The Guest's Kick.

A good story reached the Palace Hotel last week concerning a guest with a grouch. He carried it to the proprietor.

"Look here," he said, "things around here are just about as rotten as they make them. When I went to lunch today I found hair in the ice cream, hair in the honey, and hair in the apple sauce. Now, what do y' think o' that? Is that a good hotel?"

"Well," explained the genial proprietor, "I can explain the hair in the ice cream; that likely came from shaving the ice, and I suppose the hair in the honey came off the comb, but I don't understand about the hair in the apple sauce. I bought those apples myself and they were everyone Baldwins."
