### SUPPORTING OREGON FACTORIES.

This community and every other community in the State of Oregon should do all in its power to support Oregon manufacturers. The home consumption of "Made in Oregon" goods not only means the upbuilding of the manufacturing industries which already are operating in this State, but also that if the people of the State show an inclination to buy "Made in Oregon" goods that manufacturers from other States will come to Oregon with factories. The increasing of more factories and the increasing employment of men and women by the factories already established in Oregon will help build up the farming communities and small towns. Money kept within the State by the purchase of "Made in Oregon" goods means money saved to every individual, and "money saved is money earned."

Millions of dollars are sent from Oregon every year to Eastern mail order houses for goods which could be purchased at home, not only to the benefit of the purchaser of the goods but to the benefit of his neighbor and every man, woman and child in the State. Is it reasonable that mail order houses in Chicago, Philadelphia or St. Louis, or any other place, can sell to you any cheaper than your home merchant? You must pay the freight and you buy goods that you have not seen. You must pay cash for the goods, and yet you never have the opportunity of sending back the goods if they are not satisfactory.

There is not a merchant in this town who will not sell to you as cheaply as the mail order houses. You have an opportunity to examine the goods and of exchanging them if they do not suit you.

The local merchants are buying more and more of "Made in Oregon" goods, and they will buy more as time goes on if the consumer will ask to be shown home manufactured products. If the home manufactured product is as good as the Eastern product, then the consumer should buy the home goods. It is not asked by the manufacturers of Oregon that the Oregon people buy "Made in Oregon" goods unless the price and quality of the home goods are equal to Eastern-made goods. Nothing fairer could be asked.

It is right to give honor where honor is due, and to this end we are glad to say that our present county court is entitled to much praise for the general conditions of the roads in Morrow county. While the editor of the Gazette has not had opportunity to travel over all the roads of the county, yet he has been over some of them, and finds them in much better condition than in former years. J. L. Wilkins has just returned from a trip through Grant and Wheeler counties, and by comparison our roads are not to be considered along with what he had to travel in those counties. True we have some pieces of road that might be greatly improved, but in the main, Mr. Wilkins says we are far ahead of the counties mentioned. Give our court credit for what it has done along this line. A few pieces of good road will cover a multitude of sins.

W. M. in Morrow County, Oregon, is a valid mortgage lien thereon prior in time and superior in right to the estate, lien, claim or interest of the defendants and all of them.

For a decree foreclosing the lien of plaintiff's said mortgage and forever barring all of the right, claim, title, interest, estate and demand of the defendants and each and all of them, and all persons claiming or to claim by, through or under them in or to the said real estate and each and every part and parcel thereof and directing that said real estate be sold in the manner provided by law and in accordance with the practice of this Court and that the proceeds from said sale be applied as follows: 1.
