

Heppner people can boast of good health, if nothing more—and why not, when we have to eat so much dust? Why not take hold of this street sprinkling proposition in a practical way and dig a well along the bank of the creek that will be big enough, broad enough and deep enough to furnish all the water that could be used for this purpose. Another thought: There is enough water runs off of Main street alone during the wet season, that could be stored in one or two good reservoirs in convenient parts of town, to take care of this problem when the supply gives out as it always does about the middle of July. At the present time, as well as for years past Heppner is certainly getting it where the chicken got the axe, to use a little slang, so far as this water business goes. How much longer shall we suffer without complaint?

This paper is willing at all times to boost for the home merchant and manufacturer, but how about a little reciprocity? This is a question having two sides. While we boost for the local merchant we have a right to expect that he will help the paper along by giving us his printing. While Shears & Saw-buck and other Chicago and St. Louis houses are getting much money that the local merchant should receive, the Portland printing houses are also getting from them much printing that should be done at home. We believe in reciprocity.

The people of this city should buy "Made in Oregon" goods from the local merchants whenever the price and quality are equal to Eastern made goods.

The "Made in Oregon" movement inaugurated by the Manufacturers' Association, of Portland, will do much to stimulate the manufacture and sale of goods made within the state.

All property values depend upon the prosperity of the community. If our manufacturers are prospering, and the merchant likewise, the farmer will prosper, too. The persistent demand for goods "Made in Oregon" will help bring greater prosperity to the people of Oregon.

Support the manufacturers of your home city first, last and all the time, and you will help yourself to prosperity. But if your local factories cannot supply your wants, insist that the merchant carries "Made in Oregon" goods from other Oregon sources to supply your needs.

Home prosperity depends upon home industry, and state-wide prosperity will be greater if factories selling "Made in Oregon" goods are patronized by the local merchants.

The mail order houses of the East would not be so prosperous if the people of this community would insist on having "Made in Oregon" goods from the local merchants. The business of this community would be better conserved if the buying public and the merchants would help along the "Made in Oregon" idea.

We notice that some merchants in other cities are using considerable space advertising "Made in Oregon" goods. That is as it should be. The merchant must know that his individual prosperity is to a great extent dependent upon the prosperity of the state at large, and if Oregon manufacturers are patronized, that it will mean greater pay-rolls, and greater pay-rolls mean a larger degree of prosperity for every man, woman and child in Oregon.

Blue Tits Love the Bees.
Bees have enemies of various kinds like the rest of creation. Every one knows that many birds are insectivorous, but all insects do not form the food of any one species. The bird which has formed a taste for bees is the blue tit, and if a pair of these discover a suitable nesting place in the neighborhood of an apiary it is surprising how many bees will be carried off to satisfy them and their young. Generally their work is mostly felt where queen raising is extensively indulged in, for queens and drones being largest and slowest on the wing form a desirable and easy prey.—Agricultural Economist.

Up to His Standard.
A merchant in a small town was about to become bankrupt for the seventh time. He called in the accountants to go over his books. When they had finished they told him he would be able to pay 3 cents on the dollar. A troubled look came over the merchant's face. "Heretofore," he said, "I have always paid 10 cents on the dollar, and I'll do it now," he affirmed as a benevolent smile overspread his face. "I'll pay the rest out of my own pocket."—Everybody's.

A Reminder.
Mrs. Crimmonbeak—Did you think of me while I was away in the country, John? Mr. Crimmonbeak—I certainly did, dear. I wore that necktie you bought me for my birthday, and everybody asked where on earth I got it, and I had to tell them.—Yonkers Statesman.

A Well Done Job.
"Is she well married?"
"I should say so. She's been trying for years to get a divorce and can't."—Exchange.

Persistent people begin their success where others end in failure.—Edward Eggleston.

BACKACHE IS A WARNING

Heppner People Should not Neglect their Kidneys.

Backache is nature's most frequent signal of sick or weakened kidneys. To cure the pains and aches, to remove the lameness you must reach the cause—the kidneys. If you have pain through the small of your back, urinary disorders, headaches, dizzy spells, or are nervous and depressed, start treating the kidneys with a tested kidney remedy. The slightest symptom of kidney trouble may be nature's warning of approaching dropsy, or fatal Bright's disease. Doan's Kidney Pills are especially for sick kidneys—have been curing kidney trouble for over 75 years. Read Heppner testimony.

Julius Keithley, near Court House, Heppner, Oregon, says: "When suffering from backache and weakness of the kidneys, I used Doan's Kidney Pills and the contents of one box cured me. I willingly recommend this remedy."

For sale by all dealers. Price 50 cents. Foster-McBirn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's and take no other.

All the new issues of Columbia double disc records at Patterson & Son.
