

ROYAL ETIQUETTE.

In England It Assumes a Number of Curious Phases.

THINGS THE KING CANNOT DO

He is Barred From Accepting Gifts From Individuals, He Must Not Belong to a Club and May Not Marry Without Parliament's Consent.

It may sound a little curious, but there are quite a number of things which, despite his exalted position as sovereign of the realm, King George V. cannot do. These disabilities range over all sorts of matters and concern etiquette, politics, religion and law. To begin with etiquette, it is an established practice that his majesty must never call upon or grant an audience to a foreign monarch except in the presence of a responsible minister. Etiquette also precludes him from accepting a gift which a loyal subject may wish to make him. Should, however, the gift be a joint offering the prohibition does not apply. This enables King George to accept gifts which are subscribed for by a number of people together.

A king never writes a letter to anybody outside his family circle. All other correspondence has to be conducted through one of his secretaries. Nor does King George accept invitations to dine or stop with a subject. What he does when he wishes to pay such a visit is to invite himself. Another strictly observed point of etiquette is that on ascending the throne a king shall withdraw from any clubs to which he has hitherto belonged. Similarly he cannot become a Free Mason, and if he happens to be one at the date of his accession he must resign from the craft. King George, however, has not been initiated.

Even in affairs of the heart a sovereign must bow to the will of others. Although King Copetha might have loved and shared his throne with a beggar maid, the royal marriage act would render the occurrence of any such romantic union impossible in England. Members of the blood royal must have the sanction of parliament before they can marry, and this would certainly not be accorded unless the birth and position of the lady were beyond reproach.

An English king's position toward the law is somewhat peculiar. Theoretically he is above the law. In practice, however, he has to obey it, just as have his subjects. He must observe the established legal system of the country. Any royal proclamation which he issues is only binding in so far as it is founded upon an existing law. It cannot alter the common law or create a new offense, nor can a king set up private tribunals, such as the star chamber, or add to the jurisdiction of a court. By a special act of parliament it has also been decided that if his majesty were to lose an action brought against him by the revenue authorities he would be liable for the payment of costs.

By the law of the land the king cannot possibly commit an offense. Any injury or wrong suffered by a subject at his hands has to be attributed to the "mistake of his advisers," hence it happens that King George is the only person in Great Britain who cannot arrest a suspected felon, even if such a one were to be seen by him entering Buckingham palace or Windsor castle. The reason for this is because no action for wrongful arrest could be against him, and therefore if the person arrested by him were proved innocent there would then be a wrong without a remedy. Another legal disability of the king is that he is barred of all rights in matters relating to land after a lapse of sixty years. He is also prohibited from serving on a jury or from giving evidence.

Until so comparatively recent a period as 1870 if a subject were convicted of treason or felony the king could claim his property. Another lapsed prerogative of the crown is one known as "corody." During its existence a king who wanted to advance the interests of a royal chaplain could compel a bishop to support such a clergyman until a benefice had been found for him. Nowadays he has not even the right of founding a bishopric or creating ecclesiastical jurisdiction. Similarly he must always be a member of the Church of England and cannot change his religion.

The theory that the king "reigns, but does not govern" is amply borne out by the political system of the country. While the members of parliament are his majesty's "faithful commons," they have certain privileges which he himself does not possess. Thus King George can summon or prorogue parliament at will, but he cannot prolong it beyond a definite period. Similarly he is absolutely debarred from imposing any sort of taxation whatever without first securing the consent of parliament. So jealously guarded is this privilege that a king cannot create new officers with new fees or annex new fees to existing officers, as such a course would be considered as imposing a fresh tax. In bygone times, however, when an English monarch was in want of funds he would levy taxes right and left and without asking anybody.

The franchise does not extend to English monarchs. King George is one of the few men possessing a genuine stake in the country without the privilege of recording a vote. — London Belman.

BACKACHE IS A WARNING

Heppner People Should not Neglect their Kidneys.

Backache is nature's most frequent signal of sick or weakened kidneys. To cure the pains and aches, to remove the lameness you must reach the cause—the kidneys. If you have pain through the small of your back, urinary disorders, headaches, dizzy spells, or are nervous and depressed, start treating the kidneys with a tested kidney remedy. The slightest symptom of kidney trouble may be nature's warning of approaching dropsy, or fatal Bright's disease. Doan's Kidney Pills are especially for sick kidneys—have been curing kidney trouble for over 75 years. Read Heppner testimony.

Julius Keithley, near Court House, Heppner, Oregon, says: "When suffering from backache and weakness of the kidneys, I used Doan's Kidney Pills and the contents of one box cured me. I willingly recommend this remedy."

Why She Couldn't.
The elder Booth, the tragedian, had a broken nose. A woman friend once remarked to him, "I like your acting very much, Mr. Booth, but to be perfectly frank with you I can't get over your nose."
"No wonder, madam," replied Booth; "the bridge is gone."

A Comparison.
"A horse is man's truest friend," said the lover of animals.
"He's more like a relation than a friend," replied Farmer Cornsheel.
"He makes me think of my boy Josh; allus ready to eat an' liable to kick if you put him to work."—Washington Star.

True Love.
"She says she would let her husband go hungry before she would cook a meal for him."
"That is what I call true love."—Houston Post.

EARLY DAY CORONERS.

Their Inquests Covered a Wide Variety of Subjects.

It has been supposed and legal historians have told us that the office of coroner was originally instituted by King Alfred with that of the sheriff, both being designed to aid in keeping the peace when the earls gave up the wardships of the county. The legal historians are wrong, according to Dr. F. J. Waldo of the British Medical-Legal society, who has traced the history of the coroner and his ancient office as far back as the year 1194.

In early days the coroner had a wider and more general jurisdiction than he now enjoys. Coroners were wont to "hold their views" not only upon deaths where an investigation was considered necessary, but also upon various serious crimes which were treated as occasions for the raising of revenue for the crown. The mission of the coroner to the state was not alone to investigate crimes and bring felons to justice. He superintended the forfeiture of money and personal property by criminals to the crown, for the recording of which he was responsible. These forfeitures were not confined in cases of violence and death to the property of the person who could be held directly responsible, but included animals and instruments to which loss of human life under any circumstances might be traceable.—New York World.
