Movements in Sheep.

There has been some dickering in the sheep market recently, and prospects for more deals are beginning to look up. Minor Bros. and Lafe Penland delivered 4500 head of half-breed Lincoln lambs this week to J. L. Underwood of North Yakima. These sheep were driven to Wallula and put across the river there and onto the range of Coffin Bros. This was a choice bunch of stuff and went at \$2.25 per head. Other deals are pending and sales will likely be made any day at about the above figure, in fact Mr. Underwood desires to buy some 5000 or 6000 more if he can get the grade he wants. Some contracts in aged stuff have been made for delivery after lambing and shearing, and there has also been some transfers among local people but the Heppner sheep market, on the whole, is rather sluggish.

Gets Another Horse.

John Olden recently lost his fine imported Shire stallion, its death apparently being the result of lung fever. This animal was purchased early last spring from A. C. Ruby & Co., and on Tuesday of last week Mr. Olden received at Heppner another horse of the same breed from this Company. It is the opinion of many who have seen the animal that he is superior in many points to the one that died.

Masons Banquet.

Last Saturday evening being the time of regular stated communication of Heppner Lodge No. 69, there was a goodly turn out of the members, both resident and visiting. It had been previously arranged to give a small reception to P. O. Borg, a patriarch of Heppner Lodge, and a faithful stand-by of this order. Brother Borg expects soon to leave Heppner and take up his residence in the city of Portland, and because of his faithfulness and great interest in the work of the Masonic order here it was thought proper and right to give him a farewell reception. After the close of lodge the members passed into the banquet hall and sat down to a splendid repast prepared under the supervision of Messrs. H. A. Emerson and C. C. Patterson, and after partaking to the full of the viands, an address by Attorney C. E. Woodson, appropriate to the occasion was delivered in a pleasing and taking manner, and there was also many toasts to Mr. Borg and high tribute paid to him as a man and Mason, to all of which he feelingly responded with words of appreciation. Mr. and Mrs. Borg will leave shortly for Portland, and they will be greatly missed from the social and lodge circles of Heppner.

School Notes.

By E. Nelson, Co. School Supt.
The annual teachers' institute will be held at Heppner, Nov. 6, 7, and 8. Beginning on Monday may seem a little inconvenient for some of the teachers, but in order to secure the services of the instructors who are going from one institute to another, it was necessary to accept the dates named by the committee of superintendents. It is probable that the school board convention will be held the last half day in connection with the institute.

Last Friday, I visited the school in district No. 27. W. M. Sanders is the enthusiastic teacher of this school. I noted a number of recent improvements. A neat cloak-room has been built; the schoolhouse has been painted; new adjustable desks have been purchased; a closed water-tank has been provided; some new black-board has been added; and a fine flag floats from a new flagstaff on the building. A new stove, surrounded by a jacket, will be placed in the school-room within a few days. The pupils of this school do some excellent work in drawing and water colors. They also have a most interesting spelling match, on the plan of a game of base-ball, once a week.

A Good Position.

Can be had by ambitious young men and ladies in the field of "wireless" or railway telegraphy. Since the 8 hour law became effective, and since the wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay from \$70 to \$90 per month with good chance of advancement. The National Telegraph Institute of Portland, Oregon, operates under supervision of R. R. and wireless officials and places all graduates into positions. It will pay you to write for full details.

That Onyx ware in Gilliam & Bisbee's window is guaranteed. You may put it on the stove without water and heat it as hot as it is possible to get it without damaging it in the least. No better granite made.

ROYAL BAKING POWDER
Absolutely Pure
The only Baking Powder made from Royal Grape Cream of Tartar
NO ALUM, NO LIME PHOSPHATE

Sustains Heavy Loss.

In the destruction of his residence at his ranch out on Butter Creek on last Wednesday, Paul Hisler has suffered a severe loss. The fire was started by his young children in a closet off of the sitting room, and was not discovered until under headway. Not being able to find the children, all thought of the property was lost sight of until they were located. One child had hid under the porch and the other took refuge in the woodshed. The children had evidently become much frightened at the sight of what they had done and ran out of the house and hid without giving the alarm, and in going out of the house they passed right by their father who was engaged in setting up a stove in the front room and did not notice them pass. By the time the children were found the fire had gained such headway that it was impossible to save anything but the piano, and this had been pushed partly through the front door and could be handled from the porch. The house and all contents as well as the cellar and contents were all burned and \$3000 would not make good the loss sustained. There was no insurance.

Arm Broken.

As a sort of echo to the Pendleton Round Up, Earl Gordon attempted to ride a calf "straight up" on Tuesday evening in the barn lot at the Wash Thompson home. The stunt was witnessed by a number of the boys and they were highly entertained for a few moments. Earl failed to stay with his mount, however and on gathering himself together after being landed against the corner of the barn, he found that his left arm was broken. Dr. Boyden took the case in charge and reduced a compound fracture of the wrist, replacing a dislocation and putting together the broken bones. It now remains for some other fellow to "tame" this particular calf as Earl will not be on the job again for several days.

Hand Badly Injured.

Hank Vance met with a severe and painful accident at the Heppner Laundry Monday afternoon, and as a result he now carries his right hand in a sling. He was adjusting a key in a pulley of one of the washing machines, when his hand slipped and was caught in the wheels of the machine in such a manner as to cut and crush it between the 3rd and 4th fingers. No bones were broken, but the ligaments were all severed, and he may be caused to loose the use of these two fingers, should any infection take place. The accident will lay him off from work for some days, as it is quite painful.

A. L. Ayers and wife came down from Parkers Mill on Tuesday by auto. Heavy rains out that way on Monday night made the roads pretty bad for autoing.

Sand Hollow Items.

(By Sol)

R. B. Rice attended lodge at Heppner Saturday night.

Mr. and Mrs. Arthur Finley made a trip to Heppner last week.

B. S. Clark made a trip to Rock Creek after his mules this week.

Jim Farmer bought seed rye from Mr. Hodson and is going to try once more.

Joe Sibley and R. B. Rice lost another horse last week and Mr. Scott had three sick.

Henry Scott has decided to stay in Oregon another season. He will live with his father.

Farmers are all busy seeding, some are running two drills. All seem pleased with conditions and hope for a large crop next year. Grass is growing nicely.

R. E. Tyler has rented his place to Lee White and is going to Idaho soon. We hate to lose our good neighbors but wish them good luck in their new home.

Mr. Cross was unable to be with us Sunday Oct. 8, on account of sickness. There was a fair sized crowd out to hear him and were disappointed but we hope he is better.

Miss Winnie Smith is well pleased with her work at Corvallis but as she is a splendid student we expected her to be satisfied and know she will make the most of the splendid opportunity.

Cameras, kodaks, films, plates, papers and chemicals. Everything for the amateur photographer. Patterson & Son
Mrs. J. E. Cronan, of Ione, visited at the home of Mr. and Mrs. J. C. Ball this week, returning home this morning.

There will be work in the second rank by Doric Lodge, No. 20, next Tuesday evening. All Knights requested to be present.

We sell phonographs and records far less than you can buy them from any other source. Buy of us and save time and transportation. Patterson & Son.

There is some complaint from passengers on the branch line about boys at Ione boarding the train and creating a disturbance. Report comes from passengers on Monday's belated train to the effect that several young men paid the smoker a visit and annoyed the passengers with their loud talk and scuffling. As the smoker is a part of the one and only coach, on which there were several ladies, the profane language and other ungentlemanly conduct of the offenders made their presence very obnoxious. If the Ione authorities are not aware of this objectionable conduct of some of the high school boys, they should be informed.

Lincoln Bucks For Sale.

We have about 125 thoroughbred Lincoln bucks from the celebrated Hawley flock of the Willamette Valley for sale at a reasonable price; these bucks can be seen at Arlington, Oregon, and we will show them against anything in the state; they are extra good this year, in fact the best Lincolns we have ever had. For further information write or call upon A. K. Smythe, Arlington, Oregon, or Dan P. Smythe, Pendleton, Oregon.
SMYTHE BROTHERS,
4t. Arlington, Oregon.
