

When the Hair Falls

Then it's time to act! No time to study, to read, to experiment! You want to save your hair, and save it quickly, too! So make up your mind this very minute that if your hair ever comes out you will use Ayer's Hair Vigor. It makes the scalp healthy. The hair stays in. It cannot do anything else. It's nature's way.

OREGON STATE ITEMS OF INTEREST

HOP CROP INJURED.

Drouth and Poor Cultivation Will Put Yield Below 120,000 Bales.
The long continued drouth and the poor cultivation in many sections are beginning to tell on the Oregon hop crop. Last year the state produced about 112,000 bales. It is beginning to look now as if this figure would not be exceeded this year, notwithstanding an increase in acreage of about 10 per cent. Estimates made by reliable dealers of the coming crop range all the way from 100,000 to 120,000 bales. At one time in the spring it was thought about 140,000 bales would be produced, but two months with practically no rainfall anywhere in the hop belt has had a telling effect on the vines. Scanty cultivation in many of the yards has caused even more damage than the dry spell. Prices were so low last year that some of the growers lost heart and neglected to cultivate their properties. They will be rewarded this year with less than half the production of their neighbors who attended to this important matter. An immense quantity of hops was sold on contract in the spring at the bare cost of production, and these sellers, almost without exception, failed to cultivate their yards. It is estimated that up to the present time about 80,000 bales of the coming crop are tied up by contracts. Although the crop will fall short of early expectations, it will still furnish employment for all the pickers that can be secured. It will be what the growers call a "top crop," and will be easy to pick.

Much Hay in Tillamook.
Tillamook—Tillamook had another bumper hay crop this year, and with fine weather the past month it has been harvested in good shape. Most every barn in the county is filled to its full capacity, and there will be an abundance of feed next winter for the dairy herds, with the probability that it will not be all used before the next crop is harvested. The dairy business in Tillamook is increasing every year, and the dairymen are very prosperous, as they do not have to buy mill feed for their cows, but grow enough on their farms, and this with the green pasture keeps the cows in good condition.

To Meet at Hood River.
Pendleton—Judge S. A. Lowell, president of the Oregon Irrigation association, has set October 11 and 12 as the date for the holding of this year's convention of the association. Hood River is to be the place of meeting. By holding the convention on the above dates the meeting will take place during the biennial fruit fair, which is to be held at Hood River during October. Arrangements for the holding of the convention are now being made by the people of Hood River, and it is expected that a large delegation will be present from Eastern Oregon.

Dynamite Makes Hay Grow.
Pendleton—J. B. McDill, superintendent of the county poor farm, has harvested the second crop of alfalfa, and the yield will amount to about 180 tons. A portion of the land on this place was underlaid with a limestone crust about a foot beneath the surface, which detracted from the strength of the soil. Breaking up with dynamite was tried as an experiment upon some of the land, and has proved successful. The limestone crust beneath the surface prevents the crops from taking deep root, or the soil from retaining moisture.

State Aids Pendleton Fair.
Pendleton—President Leon Cohen, of the District Fair association, has received word from Salem that the formal application for \$1,500 appropriation had been favorably acted upon and the money was available. The fair is to be held here in September and \$1,500 was appropriated by the legislature for cash prizes for educational, agricultural, horticultural and stock exhibits. In addition \$250 worth of printed matter for advertising purposes will be turned out by the state printing office.

Large Deal in Sheep.
Pendleton—One of the largest and most important sheep deals that has been consummated in this locality for some time took place recently when A. Smythe & Sons, of Arlington, sold to C. Oxman, the well known Chicago buyer, 18,000 head of mutton sheep at \$3.50 a head, which is the maximum price. The amount involved in the transaction is \$63,000. Smythe & Sons will winter over about 25,000 head the coming winter.

Coke for Takilma Smelter.
Grants Pass—The first load of coke for the Takilma smelter has left here. Captain J. M. McIntire, who has the contract for hauling, states that he can use as the teamsters would rather haul coke and matte than lumber. From now on until the rains put a stop to hauling the big freight teams will be kept busy taking coke to the smelter and returning with matte. It takes five days to make a round trip.

Wants Cement Factory Site.
Oregon City—The Oregon City board of trade is in correspondence with a cement manufacturer of Kansas City, Mo., who is looking for a location on the Coast with a view to establishing a plant. He represents that the plant will employ more than 250 men, with a monthly payroll of about \$25,000. An effort will be made to secure the factory for this city.

PLAN TO IRRIGATE.

Extensive System Planned for Grand Ronde and Indian Valleys.
La Grande—Two big irrigation systems, which will cover the entire Grand Ronde and Indian valleys and a portion of land in Walla Walla county, are being projected by local companies. The organization to be known as the Grand Ronde Water company, is a corporation which will promote a \$2,000,000 irrigation project and besides furnishing water for irrigation on a large scale, the company expects to provide power for lighting where it is wanted. The water will be taken from the Big Miwam, which forms the boundary between Union and Walla Walla counties. The preliminary surveys for the big canal were made last year, and at the present time the engineers are engaged in making the final surveys and doing the cross sectioning. The canal will take the water through a deep canyon. Its head is in section 35, township 3 south, range 42 east. After cutting through the high divide in township 1 north, range 41 east, it will be an easy matter to cover the Indian valley country and swing into the Grand Ronde. The main canal to the divide will be 34 miles long. The lateral distributing canals as planned will be 60 miles in length. The promoters estimate that it will take four months' time for the large force of engineers now at work to complete the final survey. Construction work will be commenced as soon as the survey is finished.

Teachers Scarce in Lane.
Eugene—The regular quarterly examination for teachers' certificates was held in this city last week by County Superintendent W. B. Dillard, assisted by Professor M. H. Arnold, Professor D. C. Bangman and W. G. Martin. There were 61 applicants for county certificate and several for state papers. This is a smaller class than the average, and Superintendent Dillard thinks there will be a scarcity of teachers in the county this fall. Several outlying districts were unable to secure teachers for the spring term, and the outlook for the fall term seems even worse.

State Loses \$1,000,000.
Salem—That the state school fund would be \$1,000,000 better off if the purchasers of school sections in the Blue mountain forest reserve could be induced or compelled to relinquish their claims to the land, is the conclusion reached by State Land Agent Oswald West, after a careful examination. The land was bought from the state at \$1.25 per acre. If the state now had it, it could be used as base and would bring \$7.50 per acre.

Fortune in Five Years.
Baker City—The largest land deal made in Baker county in a quarter of a century was closed a few days ago when Earl F. Cranston sold 720 acres in Powder valley within ten miles of Baker City, to Brown, Phillips & Geddes, owners of the Baker Packing company, for \$35,000, reserving this year's crop estimated in value at \$5,000. Five years ago this land was bought from the government at \$2 an acre and was a sage brush desert.

PORTLAND MARKETS.

Wheat—Club, 68@69; bluestem, 70@71; valley, 71@72; red, 66@67c. Oats—No. 1 white feed, \$26; gray, \$25 per ton; new crop, \$22 per ton. Barley—Feed, \$23 per ton; brewing, \$23.50; rolled, \$24@24.50. Rye—\$1.50 per cwt.

Beef—Dressed bulls, 3c per pound; cows, 4 1/2@5 1/2c; country steers, 5@6c.
Mutton—Dressed fancy, 7@8c per pound; ordinary, 5@6c; lambs, fancy, 8@8 1/2c.
Pork—Dressed, 7@8 1/2c per pound.

Two Kinds of Pelicans.
We have in America two kinds of pelicans, the white and the brown. Of the former, I can only say that it does not encourage the advances of the avian psychologist. Invasions of its strongholds on remote lake islets in Manitoba and in Nevada have resulted in their complete desertion by every white pelican old enough to spread a wing; and success here is doubtless not to be looked for so long as this snowy-plumaged bird remains a shining mark for every roving rifleman.—Century.

Momentary Relapse.
"Mr. Spotsah," said the reformed sport, "we want to buy a thousand crullers for the waltz picnic. Can you give us something?"
"Yes," answered the merchant. "Here's \$5."
"Thanks, Mr. Spotsah. I told the boys, by George, it was dollars to doughnuts you'd cough up liberal!"

FITS St. Vitus' Dance and all Nervous Diseases permanently cured by Dr. Kline's Great Nerve Restorer, send for FREE BOTTLE and treatise. Dr. R. H. Kline, Ld., 281 Arch St., Phila., Pa.

Well Up in the Classes.
The principal of one of Washington's high schools relates an incident in connection with the last commencement day of the institution mentioned. A clever girl had taken one of the principal prizes. At the close of the exercises her friends crowded about her to offer congratulations.
"Weren't you awfully afraid you wouldn't get it, Hattie," asked one, "when there were so many contestants?"
"Oh, no!" cheerily exclaimed Hattie. "Because I knew that when it came to English composition I had 'em all skinned alive!"—Harper's Weekly.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.
Where He'd Be.
Mrs. McSosh—I wish all the saloons in creation were in the bottom of the sea.
Mr. McSosh—Gee, you gotta mean disposition! Wanner get me drow'n, eh?—Cleveland Leader.

Catarrh Cannot be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surface. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free. P. J. CHENEY & CO., Props., Toledo, O. Sold by druggists, price 75c.
Achievement.
Rich Uncle—Leonard, have you ever succeeded in carrying out one single purpose in all your life?
Spendthrift Nephew (deeply hurt)—Uncle, I have! Six years ago I formed a resolution that I would cut loose and have a good time, and to-day I owe \$13,000.

More Converts Every Year

Every day in every year that comes, more housewives are giving up their exorbitant priced Baking Powders and turning to K. C., the honest and reliable, which has stood so well the test of years. They are finding out that

K C BAKING POWDER

costs one-third the price of powder anywhere near K C quality, and makes better, purer, more healthful baking. 25 ounces for 25c.

JAQUES MFG. CO.
Chicago, Ill.

Defies the Court's Dutz.
A. G. Jewett, lawyer, politician and man of sarcastic wit, was once trying a case in the supreme court in Belfast, Me., his home city. The judge presiding before being called to the bench, had tried many cases against Jewett, who did not entertain a very high opinion of his ability.

In his closing argument, Jewett, in defiance of the rules of the court, started in to read some law to the jury. The court pounded on the bench and said: "Mr. Jewett, you must not read law to the jury in your closing argument." Jewett kept on reading, without so much as a glance at the court. The court in thunderous tones ordered him to stop.

Jewett, who had by this time read all he intended to read, turned calmly to the judge and said: "Did your honor address me?"
"I said," roared the judge, "you must not read law to the jury in your closing argument. I will give the law to the jury. What do you suppose the court is here for?"
"What is the court here for?" responded Jewett in high falsetto. "I suppose you know, sir, to keep order with the aid of the sheriff, sir, with all due respect to the sheriff, sir."—Boston Herald.

Anything but Friendly.
"You astonish me. Your engagement with Miss Welloch is broken, is it? Are the relations between you still friendly?"
"I should say not! The relations between us are her relations, and they're my bitter enemies."

No Longer in the Limelight.
Then old Vesuvius checked his rage, and straightway called a truce. "There's too much competition now," he muttered. "What's the use?"

HERITAGE OF CIVIL WAR.
Thousands of Soldiers Contracted Chronic Kidney Trouble While in the Service.

The experience of Capt. John L. Ely, of Co. E, 17th Ohio, now living at 500 East Second street, Newton, Kansas, will interest the thousands of veterans who came back from the Civil war suffering tortures with kidney complaint. Capt. Ely says: "I contracted kidney trouble during the Civil war, and the occasional attacks finally developed into a chronic case. At one time I had to use a crutch and cane to get about. My back was lame and weak, and besides the aching, there was a distressing retention of the kidney secretions. I was in a bad way when I began using Doan's Kidney Pills in 1901, but the remedy cured me, and I have been well ever since."
Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

His Good Reason.
"Why does Smith visit his wealthy aunt so often?"
"If he didn't he might have to visit his uncle."—Houston Post.

THE KING OF BLOOD PURIFIERS

No other remedy has given such perfect satisfaction as a blood purifier and tonic or is so reliable in the cure of blood diseases of every character as S. S. S. It is known as "The King of Blood Purifiers," and the secret of its success and its right to this title is because "IT CURES DISEASE." It is an honest medicine, made entirely of purifying, healing roots, herbs and barks, which are acknowledged to be specifics for diseases arising from an impure or poisoned condition of the blood and possessing tonic properties that act gently and admirably in the up-building of a run-down, weakened or disordered condition of the system.

One of the greatest points in favor of S. S. S. is that it is the only blood remedy on the market which does not contain a mineral ingredient of some kind to derange or damage the system. It is the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family, and persons who have allowed their systems to get in such condition that most medicines are repulsive to the stomach will find that S. S. S., while thorough, is gentle and pleasant in its action, and has none of the nauseating effects of the different mineral mixtures and concoctions offered as blood purifiers.

As every part of the body is dependent on the blood for nourishment and strength, it is unnecessary that this vital fluid be kept free from germs and poisons. So long as it remains uncontaminated we are fortified against disease, and health is assured; but any impurity, humor or poison acts injuriously on the system and affects the general health. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison etc., are all deep-seated blood disorders that continue to grow worse as long as the poison remains.

But all blood diseases are not acquired; some persons are born with an hereditary taint in the blood and we see this great affliction manifested in many ways. The skin has a waxy, pallid appearance, the eyes are often weak, glands of the neck enlarged, and as the taint has been in the blood since birth the entire health is usually affected.

In all blood troubles S. S. S. has proved itself a perfect remedy and has well earned the title of "KING OF BLOOD PURIFIERS." It goes down into the circulation and removes all poisons, humors, waste or foreign matter, and makes this stream of life pure and health-sustaining. Nothing reaches inherited blood troubles like S. S. S.; it removes every particle of the taint, purifies and strengthens the weak, deteriorated blood, and supplies it with the healthful properties it needs and establishes the foundation for good health. As a tonic this great medicine has no equal, and it will be found especially bracing to weak, anaemic persons. Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases, Scrofula, Contagious Blood Poison and all other blood troubles are cured permanently by S. S. S., and so thorough is the cleansing of the blood that no trace of the disease is left to break out in future years or to be transmitted to offspring. If you are in need of a blood purifier get "THE KING" of them all, S. S. S.—and good results are assured. Book on the blood and any medical advice desired furnished without charge to all who write.
