EDITORIAL

YEAR OF SUBSTANTIAL GROWTH FOR THIS PAPER.

With this issue our first year as editor and manager of this paper closes. In looking back over the past twelve months' record we find that this last month's business shows a gain over our first month of three times as many actual subscribers, four times as much paid advertising, six times as much paid job work, three times as many employees, the paper nearly doubled in size and a plant worth three times as much as it was this day one year ago.

SHOULD GET TOGETHER.

Montavilla can never reach the acme of success in so far as public spirit and improvement is concerned until her improvement organizations are united in their efforts and desires in behalf of the Villa. A greater spirit of sacrifice on the part of the leaders of both organizations will have to become manifest before this can be accomplished.

the Villa should have no difficulty in deciding, as far as self is concerned, to resign, unite, or accept a secondary position in order to further this end. We hope the members of the Board of Trade and the Improvement League will before long take this into careful consideration.

CHICAGO STOCKYARDS AGAIN.

We are in receipt of a letter from Mr. R. G. Beegle, of Clifton, Ore., requesting us to publish an affidavit signed by Upton Sinclair concerning conditions heretofore existing at the Chicago Stock Yards. The reason given for requesting its publication was the article written by the editor of this paper after his visit to the stockyards last June in which we stated that the stockyards were then clean, and that many of the articles by Sinclair and others had been published for a purpose. In as much as the article sent us by Mr. Beegle has been published many times through other sources and is common knowledge to all it is unnecessary to repeat it here.

Beegle if he could but investigate for himself, for conditions in the stockyards have changed but little during the past year.

The Appeal to Reason asks, "Is it a crime to be out of work?" We would answer, ordinarily speaking, "No." On the Pacific Coast at this time, "Yes," with railroads, cities, farmers, sawmills and others begging and pleading for more help it ought to be a crime for an able-bodied man to refuse to work, and this is virtually what he is doing when claiming to be out of a job.

Be thou diligent to know the state of thy flocks, and look well to thy herds.

By the Wayside.

Little drops of printer's ink, Little puffs of air, Make the politician And the millionaire. The lamp of knowledge at Chicago University consumes large quantities of kerosene.

(Bread or Bread.) She was "Bread in Old Kentucky" In Boston she was "beans;" A "tamale" down in 'Frisco, And "molasses" in 'Orleans.

The reputation of Midas has come down through the ages. His millions ceased with his death. N. B. John D. has just found it out.

Tom Taggart of the Democratic National committee probably placed Pluto on his poker chips to attract the plutocrats.

Life's Cards.

"Hearts are trump" the young man sighed Softly to his promised bride. "Hearts are trump to guileless youth Suit may fail and maidens truth." "Diamond's trump," the maiden cried, "Who shall purchase me as bride? Diamonds trump and golden sheen, Who is there shall crown me queen?"

"Clubs are trump," the strong man said, Fighting now for life and bread. "Clubs are trump the strife is rushed, The strong succeed, the weak are crushed."

Spades are trump—they win at last, Covering us when life is past. Spades are trump—they turn the ground Dankly o'er the mouldering mound. W. C. B.
