Scrofula

Few are entirely free from it. It may develop so slowly as to cause little if any disturbance during the whole the car heard the request and drew a period of childhood.

It may then produce dyspepsia, ca-tarrh, and marked tendency to con-sumption, before causing eruptions, sores or swellings.

To get entirely rid of it take the great blood-purifier,

Hood's Sarsaparilla In usual liquid form or in chocolated tablets known as Sarsatabs. 100 doses \$1.

Immaterial.

The elderly and somewhat flustrated lady stopped an obese man on a crowded street.

"Does it make any difference," she asked, "which of these cars I take to the cemetery?"

"Not to me, madam," answered the polite heavy-weight, as he lifted his hat and passed on.

Clocks.

The invention of clocks is by no means a modern one. Clocks which were run by weights were used by the Saracens at the time of the Crusades, and some authorities state that they were invented by Pacificus as early as the ninth century.

In the works of Dante are references to machines which struck the hours, and clocks must have been used in Italy about the end of the thirteenth century. The oldest clock of which there is any certain record was erected in a tower in the palace of Charles V. of France in 1364.

A church recently dedicated in St. Paul was erected at a cost of \$7,000, raised by 10,000 contributions of 70 cents each.

WHEN writing to advertisers plea

Parlor-Car Diversion.

"Porter," said the fussy lady in the parlor car, "I wish you would open this window."

The lady in the seat directly across cloak about her.

"Porter, if that window is opened," she snapped, testily, "I shall freeze to death."

"And if the window is kept closed," returned the other passenger, "I shall surely suffocate."

The porter stood timidly between the two fires. "Porter," remarked the commercial

traveler, "your duty is very plain. Open the window and freeze one lady. Then close it and suffocate the other."

Next Summer. A million or two of people who have spent this summer at the seashore are strongly disposed to spend next summer in the back country or the mountains. If they persevere in this determ'nation their places will be filled by persons who have spent this summer in the mountains and the back country and don't want to go back. It has been a very trying summer, muggy. foggy, 'skeetry, damp, molet, hot and miscellaneously plaintive, but it has been about as bad in one place as in another.-Harper's Weekly.

A TERRIBLE EXPERIENCE.

How a Veteran Was Saved the Amputation of a Limb.

B. Frank Doremus, veteran, of Roosevelt Ave., Indianapoils, Ind., says:
"I had been showing symptoms of kidney trouble from the

time I was mustered out of the army, but in all my life I never suffered as in 1897. Headaches, dizziness and sleeplessness first, and then dropey. I was weak and helpless, having run down from 180 to 125

pounds. I was hav-ing terrible pain in the kidneys and the secretions passed almost involuntarily. My left leg swelled until it was 34 inches around, and the doctor tapped it night and morning until I could no longer stand it, and then he advised amputation. I refused, and began using Doan's Kidney Pills. The swelling subsided gradually, the urine became natural and all my pains and sches disappeared. I have been well now for nine years since using Doan's Kidney Pills."

For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

We Trust Doctors

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Askhimaboutit.

You must look well after the condition of your liver and bowels. Unless there is daily action of the bowels, poisonous products are absorbed, causing hesdacle, billiousness, nauses, dyspepsia, and thus preventing the Sarasparlia from doing its best work. Ayer's Pills are liver pills. Act gently, all vegetable. The dose is only one pill at bedtime.

MORE CHANCE

Annexation Sure to Follow Next Fallure of Cuba.

SELF GOVERNMENT IMPOSSIBLE

Sugar and Tobacco Men Will Object to Free Competition, But It Must Come.

Washington, Oct. 16 .- Republican senators and congressmen who have been in Washington recently and offi-cials closely identified with the administration agree with the president that Cuba shall have another opportunity to try self government, but the opinion is almost universal that annexation is only a matter of time. Little is being said publicly about the probability of annexing Cuba to the United States, but the subject is receiving a great deal of attention in Washington and public men are seriously discussing the best method of bringing the island under the protecting arm of the United States.

President Roosevelt is absolutely sincere in his declaration against the present annexation of Cuba and he has hopes that the Cuban people, on thier second attempt, will be able to form and maintain a satisfactory govern-ment. He does not want the island made a part of the United States if, by any possibility, the Cubans can conduct their own affairs and protect the lives and property of all their citizens. He does not believe that the United States at this time would be justified in taking over the island, merely because vast amounts of American capital have been invested. But if the words of other administration officials can be held to be authoritative, it is to be inferred that the president will interpose no further objection to annexation in case the second Cuban government is a

failure. While annexation is generally ex pected, no one looks forward to it with enthusiasm. Rather, the Cuban problem is regarded in the light of one of the unpleasant outgrowths of the Spanish war, as perpleing in some respects as the Philippine question. Southern men would like to see Cuba made American territory, but they want the tariff wall kept up against Cuban sugar and tobacco, and some bar erected against the immigration of native Cubane into the Unite States. The South has more than its share of dusky citi-

It is probable that the men in congrees who are fighting a reduction of the duty on Philippine sugar and to-bacco would join the South in demanding the retention of the tariff on sugar and tobacco from Cuba in case of an-nexation. If Philippine sugar is a menace to the beet sugar industry of the West, it will be argued that the Dinguss-Shadbolt, I've borrowed a sugar from Cuba, closer and much more good many little sums from you, at one abundant, would be a still greater time and another. Do you know just how menace.

STORM SPOILS BANANAS.

Hurricane Sweeps Through Central America, Wasting \$1,000,000.

New Orleans, Oct. 16 .- Damages fully \$1,000,000, including the partial demolition of one town, was done by the burricane on the coast of Central America which was reported by a brief wireless message received here last night. Wireless and cable advices today to the United States Fruit company say that probably no loss of life oc curred.

The hurricane appeared to be central near Bluefields, on the east coast of Nicaragua. It swept in from the sea, its first fury striking Little and Great Corn islands, which were swept bare of vegetation and their topography even altered by the waves. On the mainland the storm's damage was confined mostly to a path about 30 miles wide, in which banana and rubber crops were destroyed and plantations blown down. Great damage is report ed from Rama, a town on the coast about 40 miles from Bluefields.

Mrs. Jefferson Davis Dying.

New York, Oct. 16 .- Mrs. Jefferson Davis, widow of the president of the Confederate states, is dying of pneu-monia at the Hotel Majestic here. It is believed she cannot survive more than a few hours. Mrs. Davis has been ill for several days, but it had been believed she would recover up to last night, when a sudden change for the worse was noticed. Mrs. Davis went to the Majestic a short time ago on her return from the Adirondacks, where she spent most of the summer for her health.

Trial of New York Central. New York, Oct. 16 .- The trial of the New York Central Railroad company for the alleged giving of rebates of some \$26,000 to the American Sugar Refining company on augar shipments to the West is the first trial for the infraction of the Elkine law ever undertaken in this city. With this action is inaugurated a sitting of the Federal Criminal court that may be expected

to last with its successive terms for at least a year and probably much longer. Army in Cuba Given Name. Washington, Oct. 16. - Brigadier General Barry, acting chief of staff, today issued a general order by direction of the president stating that the military forces now assembled in Cuba or to be assembled there are constituted an army to be known as the Army of Cuban Pacification.

Hall's Family Pills are the best.

At Wilkesbarre, Pa., in one day recent

An ounce of grease is sometimes the only difference between profit and loss on a day's teaming. You know you can't afford a dry axle - do you know as well that Mica Axle Grease is the only lubricant you can afford? Mica Axle Grease is the most economical lubricant, because it alone possesses high lubricating property, great adhesive power, and long-wearing quality. Hence, the longest profitable use of your outfit is to be had, only when the lubricant is Mica Axle Grease.

Mica Axle Grease contains powdered mica. This forms a smooth, hard surface on the axle, and reduces friction, while a specially prepared mineral grease forms an effective cushioning body between axle and box. Mica Axle Grease wears best and longest - one

greasing does for a week's teaming. Mica Axle Grease saves horse power - consequently saves feed. Mica Axle Grease is the best lubricant in the world - use it and draw a double load. If your dealer does not keep Mica Axle Grease we will tell you one who does.
