### Pollitness Pays.

Virtue is not to be measured by ostentatious giving. There is frequently more real love for humanity in the soul of the man who removes the banana skin from the pavement than in the heart of the donor of the memorial window in the church. Pollitness, like all other faults and virtues, may become habitual. It is surprising how many small acts of kindness, how many little deeds of helpfulness, one may do in the course of a day when there are inclination to be kind and a lookout kept for the opportunity. One may set out with this intention in the morning, and the footing up at night—not to others, but to one's own secret conscience—will be cheering and encouraging.

**Urgent Need of Information.**  
The learned traveler had delivered his great lecture on the manners and customs of old Japan.  
"And now," he said, in conclusion, "I shall be pleased to answer questions pertaining to any peculiarities of this interesting people upon which I may not have touched in my discourse."  
"Professor," eagerly asked a young married woman in the audience, "what do the Japanese do to plum juice to make it jelly?"

Miss Capricorn—Yes; I have been laughing in them at that gown of yours.

**To Make Harness Last Longer.**  
A little economy, which sometimes means a good many dollars to a man, is the proper care of harness, carriage tops, etc. Leather in daily use, exposed as it is to sun and wind, soon becomes dry, hard, inelastic, and unable to stand strain. Then, very likely at the most unfortunate moment, a break occurs, and precious time and money are lost. All this is easily prevented by a little forethought and care on the part of the owner. Every one owning harness should be supplied with a good leather preservative, and a good axle oil. These two things are necessary to the largest economical use of a working outfit, or a pleasure equipage.

Observation has shown that no oil penetrates leather so deeply, and resists the drying effect of sun and wind so well as Eureka Harness Oil.  
Neatsfoot and some other inferior oils sometimes used, easily become rancid, or because of containing acid, hurt the leather. Stables men and others posted on the subject, invariably use Eureka Harness Oil. When harness is given an occasional dressing of this oil, and wagon spindles greased with Boston Coach Oil, a very large reduction is made in the necessary repair bills. Boston Coach Oil, by the way, is very much superior to Castor Oil. It has splendid lasting qualities, will not gum or corrode, and is more economical in every way.

People who are after economy in stable management will do well to ask for these oils.

# "Oriented" Oriental.

Knowledge of direction seems to be instinctive with the Burmans, says the author of "A People at School." They always reckon by the needle, not by relative position. They do not say "Turn to the right," but "Turn to the west." If a table in a room has two tumbler on it, one of them will be the east tumbler, the other the west, and the table itself will be not the "table near the window," but the "table in the east of the room." So they speak of the north or south side of a street or of a tree, not the shady or sunny side. Even in rain or mist they know the direction at once. An English traveler, walking in the Burman forest on a foggy morning to find all trace of the road wiped out by rain and every apparent means of ascertaining direction gone, was at a loss what to do, but his Burman servants knew at once. "That is north," they said, pointing. "And that is east. Our course lies between," and straight to the northeast they marched unerringly.

## HAD TO USE A CANE.

**Weakened Kidneys Made an Elwood, Ind., Man's Back Give Out.**

R. A. Pugh, transfer business, 2020 North B Street, Elwood, Ind., says: "Kidney trouble kept me laid up for a long time and when I was able to be up I had to use a cane. I had terrible backaches and pain in the shoulders. The kidney secretions were dark colored. After doctoring in vain, I began using Doan's Kidney Pills. Three boxes cured me entirely, and I am glad to recommend them."

# BAY CITY ROTTEN

**Honey and Burns Have Evidence Against Mayor and Boss.**

## WILL INDICT THEM AND OTHERS

**Mayor Schmitz and Boss Ruef Implicated in \$700,000 Railway Franchise Steal.**

San Francisco, Oct. 25.—That the evidence they have gathered is sufficient to send Abe Ruef, Mayor Schmitz a dozen or more supervisors, a coterie of commissioners and a score or more of petty officials to the penitentiary is the news which has leaked out from the inner councils of Attorney Francis J. Heney and Detective W. J. Burns, who, working in conjunction with District Attorney Langdon, have uncovered graft in San Francisco on a scale that would make even "Boss" Tweed sit up and take notice.  
Trolley franchises sold for \$700,000; retail liquor dealers held up for thousands of dollars; theaters forced to give up a third of their profits; contractors made to pay tribute; paving contractors allowed to fatten off the city treasury; wholesale liquor dealers compelled to pay monthly royalties; French restaurants mulcted for gigantic "fees," and even women of the tenements coerced into dividing the earnings of their shame. This is some of the moral rotteness laid at the door of the present city administration.

It is said that among the first indictments to be asked will be one for Mayor Schmitz, who is now in Europe, with his wife, and one for Abe Ruef, the city "boss."  
"We shall get the crooks," they say, and then they add, "We are going to get the big ones as well as the small fry."  
First in importance of all the subjects that the two men have investigated comes the trolley deal. Shortly after the earthquake and fire last April the United Railroads was given a blanket franchise by the supervision to convert its cable roads into an overhead electric system. Before the fire the United Railroads was refused such a franchise. For the blanket franchise the corporation paid the city nothing. Traction experts value the concession at \$5,000,000.  
It is stated that Heney and Burns have secured confessions from members of the Board of Supervisors exposing a gigantic graft in this connection.

The amount the United Railroads paid for the privilege of converting all its cable roads into electric lines is said to have been \$700,000, and according to the written and signed confessions of supervisors, said to be now in Heney's possession only \$72,000 was turned over by Ruef for distribution among the 18 members of the board.

## MOODY FOR SUPREME BENCH.

**Roosevelt Will Appoint Him Despite Sectional Objection.**  
Washington, Oct. 25.—While no official statement is obtainable, unofficial advice confirm the report that the President will appoint Attorney General William H. Moody, of Massachusetts, to the vacancy in the Supreme Bench, made by the retirement of Associate Justice Henry B. Brown.  
The announced intention of the President to appoint Mr. Moody came as a surprise, as it was generally understood that he eliminated the Attorney-General from consideration in that connection because of the fact mainly that Massachusetts already had a representative on the bench in the person of Associate Justice Holmes.  
Mr. Moody's nomination will be sent to the senate when congress convenes, but the general expectation is that he will not take his seat on the bench until about January 1.

## Demand Eight-Hour Day.

Chicago, Oct. 25.—The Brotherhood of Railroad Trainmen, on behalf of its switchmen, today presented demands to all the railroads entering Chicago for an eight-hour day. The Brotherhood's action follows that of the Switchmen's union, which presented similar demands some time ago. The railroads will be obliged now to deal with practically the whole organized strength of the Switchmen's union. In this respect the movement is the most extensive attempted by the railroad organizations in many years.

**Missionary Association Finance.**  
Oberlin, O., Oct. 25.—The sixtieth annual meeting of the American Missionary association began here today. The treasurer reported the total receipts for the year at \$423,627; that the debt had been reduced during the year from \$89,254 to \$67,912; that the income of the Daniel Hand Educational fund for colored people was \$71,413; that the reserve legacy account for current work 1906-7 will be \$65,723 and for 1907-8 will be \$38,672.

**Forbids "The Clansman."**  
Philadelphia, Oct. 25.—Mayor Weaver today issued an order suppressing the further production here of the drama, "The Clansman." The mayor's action was prompted by the demonstration last night at the theater by several thousand colored citizens.

# THOUSANDS AWAIT SIGNAL.

Automobiles, Launches and Horses Carry Filers to Mineral Fields.  
Thorne, Nev., Oct. 25.—That the grossest kind of mismanagement has occurred in preparing for opening the Walker Lake Indian Reservation is the charge made by Frank J. Parks, special agent of the United States General Land Office at Carson, Nev., who arrived at Thorne Saturday night. Parks telegraphed to the General Land Office at Washington that hundreds of men have broken through the lines all through the territory and that the Indian police are unable to cope with the situation. He is in favor of having the opening postponed 30 days, that the reservation may be properly opened under the supervision of government troops.

Thorne, Nev., Oct. 25.—The eve of the opening of the Walker Lake Indian reservation finds all ready to rush. All day long intense excitement prevailed in the village, but last night nearly all the searchers for mining claims had taken their departure to set up camp along the boundary of the reservation.  
White flags mark the miles and miles of lines which the eager hunters are prohibited from crossing until noon today. Indian police and deputy sheriffs who have traversed the boundary, conservatively estimate there are at least 10,000 men ready to scramble for favored positions on the reservation. Hawthorne contributed about 3,000, while more than that number went out from Yerington. Hundreds of people left from various stations where they had been camped along the railroad.  
The race to points where the richest mineral land is supposed to lie proves to be popular in the extreme. Automobiles, horses and all manner of conveyances will be used in making the trip around the southwest end of the lake, while those coming from the east side of the body of water will use launches brought here from San Francisco. A ferry system will also be established.

At a mass meeting of miners held in the courthouse Friday night, it was reported that a number of launches were being placed in the water on the eastern side of the lake, contrary to the rules, and a number of deputies who were authorized to remove them carried out their instructions Saturday. Where they found the boats were too heavy to move they were temporarily dismantled of some parts of their machinery, which will not be turned over to the owners until today. A half-dozen deputies also reported at the meeting that in scouring the reservation they had found that 30 illegal locations had been made, and that they had destroyed monuments wherever they had been erected. The papers or location notices were removed, and when these were read it was found that the names of a number of prominent people were attached to them. No arrest will be made of the people who had illegally secured locations, unless the offense is repeated.

## Creek Beds Show Gold.

The principal points to which the rush will be made are Dutchman, Willow, Rose and Cat Creeks, either dry beds or flowing streams, running into the southwestern part of the lake. Specimens from claims adjoining these creeks show gold.  
A number of shooting affrays have been reported. The most trouble was caused on account of drunkenness, but in some cases pistols were drawn in disputes over horses. Several men tried to ride off with others' horses, but they were promptly brought to halt under cover of a revolver.

## New Engines for Northern Pacific.

Tacoma, Wash., Oct. 25.—Northern Pacific officials state that the railroad company is doing all in its power to relieve the car shortage, though they admit that the condition is much the same as it was several months ago. Superintendent Albee stated that 12 or 15 new engines will be added to the equipment of the Pacific division within the next 30 days.  
"As is known, the engines have been ordered for some time," said Mr. Albee, "but we cannot tell just how much longer we will have to wait for them. We expect 12 or 15 some time during the next 30 days. Furthermore, we are doing everything that can be done to handle the business."

## Election Law for Philippines.

Manila, Oct. 25.—Among the recommendations to the proposed election law by the assembly of Provincial Governors is one that the Governors of the provinces and delegates to the assembly be elected by direct vote of the people; that the suffrage be widely extended; that the amount of taxes be reduced; that a qualification of the voter shall be his ability to read and write the dialect of his province, as well as Spanish and English. The law provides for the choosing of an assembly the first of the year.

## Presidential Action Pleases Japanese.

Tokio, Oct. 25.—The course of action pursued by the United States has been somewhat effective in soothing the feelings of the Japanese people, injured by the San Francisco school incident and accentuating the confidence of the people in President Roosevelt, whose fairness is praised on all sides. It is altogether unlikely and there is as yet no sign, that the Japanese will imitate the Chinese in boycotting American goods.

## Without the Federal Scope.

Baltimore, Md., Oct. 25.—Senator Isador Raynor, seen Sunday in reference to the exclusion of Japanese from schools established for white children in San Francisco, expressed the opinion that the federal government had no right to interfere, the matter being entirely one for the state and city to deal with, and outside of the scope of National affairs.

# LINCOLN'S WEAPON.

**How He Employed Ridicule for His Client's Benefit.**

Wit and ridicule were Lincoln's weapons of offense and defense, and he probably laughed more jury cases out of court than any other man who ever practiced at the bar.  
"I once heard Mr. Lincoln defend a man in Bloomington against a charge of passing counterfeit money," Vice President Stevenson told the writer. "There was a pretty clear case against the accused, but when the chief witness for the people took the stand he stated that his name was J. Parker Green, and Lincoln reverted to this the moment he rose to cross-examine. 'Why J. Parker Green? What did that stand for? John? Well, why didn't the witness call himself John P. Green? That was his name, wasn't it? Well, what was the reason he didn't wish to be known by his right name? Did J. Parker Green have anything to conceal, and if not, why did J. Parker Green put his name in that way? And so on. Of course, the whole examination was farcical,' Mr. Stevenson continued, 'but there was something irresistibly funny in the varying tones and inflections of Mr. Lincoln's voice as he rang the changes upon the man's name; and at the same time the very boys in the street took up the slogan and shouted 'J. Parker Green!' all over the town. Moreover, there was something in Lincoln's way of intoning his questions which made me suspicious of the witness, and to this day I have never been able to rid my mind of the absurd impression that there was something not quite right about J. Parker Green. It was all nonsense, of course, but the jury must have been affected as I was, for Green was acquitted and the defendant went free."
