SHOULD BE IMPEACHED.

In the events leading up to the recent murder of Lincoln C. Whitney by Orlando S. Murray, at Portland, we are again reminded of the indifference of the average of our public officials concerning the enforcement of law.

Negligence of duty on the part of public officials is the great cause of the overriding of law all over this broad land. All thoughtful men know that respect for law is the basic principle of civilization.

But what about that weak-kneed disciple of the law? This prosecuting attorney who failed to do his part to enforce the law, and thereby avert the crime committed?

in primers, spelling books and almanacs; let it be preached from pulpits and proclaimed in legislative halls and enforced in courts of justice; in short, let it become the political religion of the nation.

We would add a word more. Parents, mothers especially, cannot be too careful of the whereabouts of their daughters, guard them day and night, teach them the things they ought to know, tell them of the snares, the pitfalls laid for them by designing men, make home pleasant for them and as much as possible keep them there.

MAJORITY RULE SHOULD STAND

The Dalles Optimist appears to forget that every male citizen of Oregon, of proper qualifications, had the same right as Jonathan Bourne to use printer's ink, and lots of it—a year or two in advance—stay with it—use more printer's ink, more persistency, and more printer's ink, and win—and if they didn't do it it is too late to yell "wolf" now.

RESPECT FOR OTHERS' RIGHTS

There are some men who imagine that they have a perfect right to smoke their pipe or cigar or chew tobacco and spit the filthy stuff in any place, and under any and all circumstances. You find them on streetcars, in waiting rooms, and even in lodge halls, caring not for the feelings of either women or men so long as their own appetites are satisfied.

prepared than ever before to give his patrons full value for their money. The Herald is one of the best local papers that comes to our desk, is well edited and newsy, and Brother Brownhill is deserving of all the success that is coming his way.

The proof of the pudding is in the eating and we would suggest that the proof of the climate is in the living. Flowers everywhere, gardens full of roots, cabbage, potatoes and other vegetables, apples still clinging to the trees as solid and as sweet and wholesome as in midsummer, grass green and growing rapidly and people working in their shirt sleeves.

So Senator Fulton is accused of voting with other senators in favor of corporate, railroad and other plutocrats, and against the interests of the people who elected him. Well, what can be expected of a man who secured his nomination at the hands of the bosses? Treason! Of course; it's treason, but then there are others—more than there will be, however, if indications point the right way.

The Gresham Herald is now printed on a fast cylinder press, the business of the office having outgrown the old hand press. Editor Brownhill is a rustler from the word go, and is giving his readers one of the brightest country weeklies in Oregon.

The next step Oregon voters should demand is that congress enact laws giving the voter the right to elect United States senators by the direct vote of the people. It is the only sure way of putting the political boss and the grafter out of business.

THE GLORY SONG.

When all my labors and trials are o'er, And I am safe on that beautiful shore, Just to be near the dear Lord I adore, Will thro' the ages be glory for me.
