

What People Say Concerning Our Bank.

"The bank is the place for change. You always get just what you want."
 "I had no idea a bank could be of such service to a community."
 "I can remit anywhere without it costing me a cent other than for postage and can do so right from my own home."
 "It is a mighty fine thing for a pay roll because the bank furnishes a complete register in which names are recorded and men can deposit their earnings in the bank and use that only which is needed."
 "We like to receive a check on your bank because we can mail to you for deposit and draw checks against it, as we need it."
 "You are selling Foreign Money Orders cheaper than the government can. Your Travelers Checks are all right. I have used them before."
 "I purchased a ticket from the First State Bank, Portland, Ore., to Copenhagen, Denmark, and had no trouble at all with it."
 "I can mail my out-of-town checks to the bank at Gresham and draw against them and they will collect for less than my car fare to the city."
 "I am going to make you trustee of our church funds."
 "The bank is the place to transfer property because they attend to the whole transaction and are equipped for the business."
 "Four per cent. on savings is all right."

Additional Montavilla Items

Improvement League Meeting.

(Continued from page 1.)
 to communicate with the Fairview Improvement Association asking its cooperation along the lines of securing an 80-foot roadway from the eastern city boundaries to the Twelve Mile road. The majority of farmers owning property along the route have heretofore signified their willingness to entertain such a proposition, and it is thought that by a little effort unanimous consent could be obtained.

Now that the widening of Villa avenue seems practically assured it is of the utmost importance that the extension eastward be widened thus securing one of the grandest thoroughfares in the county. If untiring work and a "never give up" spirit count for anything the League intends to win out on this line.
