#### Names of Flowers.

It is interesting to know how certain flowers got their names. Many were named after individuals. For instance, Fuchsias were so called because they were discovered by Leonard Fuchs. Dahlias were named for Andrew Dahl, who brought them from Peru. The Camelia was so called for a missionary named Kamel, who brought some magnificent specimens of the flower to France from Japan. He called it the Rose of Japan, but his friends changed it to Camelia. Magnolias were named

# PEOPLE LIKE TO KNOW

WHEN they go to a store to trade that they are going to get their money's worth. We aim to establish confidence of this kind.

When a firm has been in your vicinity as long as we have you know something of that firm. Don't you?

We want our reputation among you to be such that when you send here for goods you are confident of getting just what you want and at the right price.

We expect to make some profit, of course; that's what we are here for, but we won't sell you one thing below cost and make it ip on something else.

People put a worm on a hook and call it a "bait." Some dealers put merchandise on the hook and call it a "leader." A "leader" is a "bait," and a "bait" is a "leader."

We won't bait you on "leaders" and make you pay extra for other things in order to regain what we lost on the "leader."

Why go away from home to trade when you can buy all the goods you want right here and at reasonable prices?

When you buy goods away from home you pay your money and take what they choose to send you.

The other fellow gets the money and if you don't like what you get, what are you going to do? Keep it, that's all.

If you buy goods of us that are not as we represent them, bring them back and we'll replace them or refund your money.

No firm dealing in goods of inferior quality ever makes this offer. We make it because we know our goods are first-class, and we want you to feel that an article is good when we say so.

In the city rent is high, water tax, electric light, expensive clerk hire and other modern expenses all have to be paid, and you help pay them when you trade therer

Doesn't it stand to reason that we can make you better prices when we avoid those expenses? Ever think of it that way?

We buy goods as cheap and get as big a discount as our city competitors. Having lighter expenses enables us to make lighter prices.

If you are not already acquainted with the above facts, an investigation will confirm them and convince you that when we say so, it's so.

Why not patronize home enterprise and spend your money where you get your favors?

A splendid exercise for straightening the shoulders and enlarging the bust is to stand erect, raise slowly on the tip toes, take a long deep breath, hold the arms at full length and stretch them as far as possible. Begin by practising the exercise six times each morning on

arising and finally increase the number of times to twenty.

Don't save old trash, thinking that it may be used some day. The time and patience consumed in handling it can not be compensated for by it.—Woman's Magazine.

in honor of Prof. Magnol de Montpelier, who first brought the beautiful trees to France from America and Asia. Because they tremble with the wind is the meaning of Anemones. The Latin word to wash is lavare and Lavendar received its name because the Romans put the flowers into the water when they washed, to perfume their hands.—The Woman's Magazine.

#### Life's Journey.

To me, life is a highway, leading through a strange country, where no mile-post is passed the second time. It is bordered with green fields and countless flowers and leads from an unknown point of departure to an unknown point of arrival.

Our coming, we believe, was from Omnipotence, and therefore our going, we hope, is to immortality.

Now is the season of probation; each is chiseling a credit or a debt.

As the flowers by the wayside give out their perfume to us in abundance, so also should we let unreserved gentleness, kindness and goodness radiate from us to all humanity.

The important and timely moment of every life is "the now" and our deeds should make humanity conscious of our passing.—Willis George Emerson in National Magazine for February.
