

People's Market

GRESHAM ORE.

We take pleasure in quoting you the following prices on first class meats:

Soup Bones	2c. lb.
Neck Boil	6c. lb.
Brisket Boil	6c. lb.
Plate-Short Ribs	7c. lb.
Chuck Roast	8c. lb.
Shoulder Roast	8c. lb.
Shoulder Steak	10c. lb.
Round Steak	12 1-2c. lb.
Round Butts	10c. lb.
Sirloin and Porterhouse Steak	15c. lb.

These are our prices both in Gresham and on the wagon routes. It is not, nor never will be, our aim to charge more for meats than is consistent with quality. And we always have the best meats that were ever sold in this section of the country and all of our patrons well know that.

We will lower the price of meats just as soon as possible. Some time during June will see quite a drop in prices of boiling meat. Give us your trade and we will always endeavor to please you all.

Correspondence

EGYPT

Mrs. Isenman is improving. She has had the best of care of by Mrs. Vail and Mrs. Gebhardt.

The meeting in the tent last Sunday was well attended. W. F. Burkholder has gone to eastern Oregon.

Mrs. Vail and Christie Burkholder were in Troutdale last Monday.

Miss Christie Burkholder is visiting Mrs. Vail.

DAMASCUS

The Union school will hold the last day exercises in the church this evening.

Mark Heacock of Pendleton is spending a few weeks at the Wayside with his people.

Mr. and Mrs. Turney of Portland spent Sunday at the Wayside.

Albert Bohm's little son is suffering with spinal meningitis.

August Olson has been taken to the hospital, where he will be operated on for appendicitis.

Mr. and Mrs. Forbes, his sister, Nellie, and family of the Base Line road spent Sunday at Hillcrest.

Leona Heacock has returned from a trip to his farm on the Sandy river.

Mr. Weddler was in Portland Saturday on business.

BORING

Miss Louise Ballard has been very sick with spinal meningitis the last week but is reported some better this Wednesday.

Morgan and Donahue are having an addition built to the livery stable.

J. W. Root, our progressive merchant, has returned from a trip through eastern Oregon.

John Berrisford of the Kelso Tie Co. received a painful injury last Friday from a blow from his ax.

Road Supervisor Knox has been doing good work lately. He has finished grading and clearing the old Oregon City road as far as Herz' corner. He now has a gang cleaning the road running through Boring, and another crew blasting stumps on the Orient road.

Two cars got away from Morgan's men and ran into the freight car, knocking the latter off the track.

LUSTEDS

Melvin Long of Portland visited his mother, Mrs. Ralph Neubauer, over Sunday.

Miss Jessie Francis of Gresham and B. J. Goff of The Dalles, with a few of their friends here, spent Sunday afternoon at Bullrun park.

John Burby spent Sunday with friends at Gresham.

Mrs. Arnold Ruegg gave a grange tea at her home last Wednesday afternoon. A large number were present, several friends and relatives coming up from Gresham, and all expressed themselves as having a delightful time.

Miss Olive Lusted visited in the vicinity of Gresham last week.

The singing club met with Miss Eva Snyder last Sunday afternoon.

Mrs. Ara Lusted made a flying trip to Portland Saturday.

Mr. and Mrs. S. E. Roberts of Bullrun spent Sunday at the home of Mr. and Mrs. A. Ruegg.

Children's day at the grange will be observed June 8. All children are invited to dinner and asked to prepare something to help with the program. The juvenile will have a special program, under the direction of Elora. All who wish are invited to attend in the afternoon.

Mr. and Mrs. Ed. Hamilton attended the Seventh Day Adventist camp meeting in Portland.

The singing club met at the home of Mrs. Schneider Sunday afternoon.

There was a half day meeting of the

grange at Orient Saturday. Among other it was decided to buy a lot of Mr. Cannon which is a fine location.

Lewis Shattuck and family visited at John Slet's Sunday.

Guy Robertson is sporting a fine new rubber tired buggy.

Jim Hillyard, road supervisor, is doing some repair work on the roads in this district.

John Slet returned from his trip to La Grange Saturday.

Ed. Sester has been sick this week.

Mrs. Annie Craswell went to Troutdale Sunday to take the train for Hood River to attend the State Grange.

Mr. Burton and son Harry were doing business and visiting old friends this week.

COTTRELL

Sam Johnson, who has been keeping books for Chas. Oleson, is going to take charge of a gang of men on the railroad from Vancouver to Washougal.

Miss Effie Jones and grandmother of Orient visited with T. Bowen and family Saturday and Sunday.

Clifford Schneider led the Christian Endeavor meeting last Sunday evening.

A good many young people were present. Mr. Cotte and daughter, Mrs. Dickenson, who were very ill, are improving rapidly.

Miss Minnie Smith is now staying with Mrs. C. A. Hudson.

Mr. and Mrs. U. Griffith visited her brother, Richard Radford, and family.

Fred Radford's new house is being rapidly improved.

Frank Kolsky while working in the woods at Robb's mill had the misfortune to cut his foot. Al. Holman, who was working at the same mill, cut his hand.

Asa Smith and Newton Hedin have been surveying recently.

George Osburn and S. Woods, who have been hauling ties from Oleson's mill, are going to Vancouver to haul wood.

SECTION LINE

The closing of our school last Friday will be remembered by the pupils and their parents and friends with more than passing pleasure. The day began with recitations at the schoolhouse by the pupil, after which the march was made to Jenne's crossing on Johnson creek where refreshments were served on the grass and all sorts of appetizing viands were laid out to be enjoyed by the hungry picnicers. Ice cream was furnished by the teacher and cake by some of the visiting ladies. The teacher was the recipient of several gifts from the pupils. The teacher in a few well chosen words presented to the school Mrs. Buckley's annual gift, a memorial tribute to her dear mother, the late Mr. Bertha Van Vliet, whose great love for the children was her most charming trait. The gift consisted of useful articles for the schoolroom.

J. Tomlinson, who will erect in the near future a handsome bungalow on the tract west of the Ruhl place, has just had a deep well dug on his place. It is his intention to pass a part of each year on this picturesque spot, his business being in Portland.

Strawberry picking has begun, the crops looking promising despite the worm pest.

Ansperger Lodge entertained as its guests on Sunday Mr. Kaber and daughter Ruth and Master Frederick. Mr. Ansperger is at present suffering from a very heavy cold.

POWELL VALLEY

The Powell Valley school closes tonight with appropriate exercises in the schoolhouse. After the program, ice cream will be served. W. H. Carr as principal and Miss Lydia Bramhall have taught a very successful nine months' school with an enrollment of about 60.

The girls' auction sale in the Lutheran church Saturday night was well attended and a great success, bringing in over \$50.

C. A. Larson of Warren was visiting his Kansas friends here last Sunday. A surprise was given to Mrs. C. A.

Lindgren in honor of her birthday. Those present were P. Salquist and family, A. C. Sward and family, C. P. Johnson and family, T. Anderson and family, Mr. and Mrs. K. W. Anderson and Mrs. Bottleson.

A number of Powell Valley people went to Portland last Sunday to attend the annual Missions meeting in the Swedish Missions church.

Chas. Hammarback of Brantford, Kans., visited over Sunday at the home of A. C. Sward. Hammarback intended to go to Mexico and came this way, but changed his mind, bought a place and settled down in Warren.

The Missions church is being given a new coat of paint which makes it look more attractive. C. A. Lindgren is doing the work.

KELSO

A musical program consisting of violin, mandolin and auto-harp music was rendered last Saturday evening at Jonsrud Brothers mill by the Messrs. Saunders and was thoroughly enjoyed by all present. J. Saunders also rendered some splendid vocal selections.

J. G. Erickson has sold his farm to his son-in-law.

The Lutheran Ladies Aid Society was entertained last Thursday by Miss Annie Nelson. Her mother, Mrs. Alberg of Seattle, was also present.

Chas. Sharake is painting R. Jonsrud's house this week.

Mr. Carlson's house is now ready for occupancy.

The grader is busy improving the roads around here.

Services will be held in the Lutheran church, June 2, at 3 p. m.

Read the editorial, "Citizens and Other Citizens," in last week's Herald if you have not already done so. It contains some truths that are wholesome to read.

SALMON

Mr. McIntyre is having a new dining room, kitchen, and bedrooms built on the hotel.

Frank Brown, deputy fish warden, was out for a short visit to wife and two children, who are staying with his father, Thomas Brown, superintendent of the state hatchery here.

Oliver Shidler has sold his home here to J. T. McIntyre and will soon leave with his wife and two children. He has not decided where he will go to make his future home.

The road crew for the toll road has been out some days under E. Coleman and are getting the road ready for travel. They are retting the snow nearly gone in the mountains.

The family of J. A. Odell are nearly all suffering with measles but none so far so far as seriously ill.

Glenn McIntyre has quite recovered from his illness, and has gone to work for the United States Geological survey outfit. They are at present stationed at Sandy.

HALEY

The Unique Brick and Tile Co. of this place, employing some twenty men, is running on full time with a ready sale for its out-put.

Curtis Judd, who holds a position with the Williamson Lumber Co. of Yamhill Co., is visiting here this week.

Mr. and Mrs. C. A. Stanton and son, Farris, were visiting at St. John's Sunday.

J. H. Alexander and daughter of Anacosta, Mont. and P. R. Alexander of Independence, were visitors at the home of P. W. Haley last week.

The logging camp of James Dixon has suspended operations and it is reported that he and his family will soon move elsewhere. We shall regret to lose them.

Mr. and Mrs. Ben Johnson of Barton were visiting friends in this neighborhood Sunday.

Mr. Clarke, the Mt. Tabor florist, was a business caller on R. C. French Monday.

The young people of this vicinity spent a most delightful time last Saturday evening at the home of Mr. and Mrs. Jerome Smith. After playing various games and listening to music on the phonograph, light refreshments were served, followed by a candy pull.

Mention The Herald to your merchant. See if his ad is in this issue.

STRAW STOCKS.

The Waste of Salt Material on Western Farms.

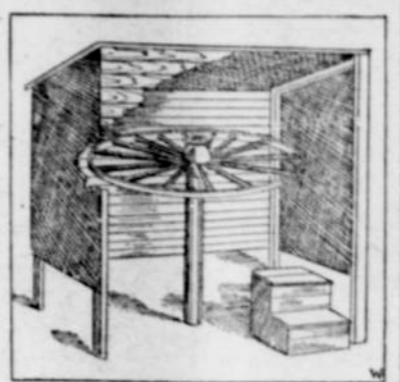

A good German farmer was talking about growing wheat at an Illinois institute. In his old, pointed way he said in regard to tillage on wheat land, "We are lazy too much in working land for wheat." Many are "lazy too much" in making the most out of the straw. In this corn section, where there is no end of cornstalks, it may not often be advisable to try and feed straw to stock. It can be fed, however, with proper grain to good advantage.

But there is no business sense in letting great piles of straw lie and rot down, almost a total loss, when the land is hungry for the humus this straw would make if it was worked into manure or otherwise got into the soil evenly. There is no sense in burning straw, and still that is not much worse than letting it rot down in great stacks. It may be best sometimes to burn stubbles when insects are taking crops as the lesser of two evils. But otherwise do not burn straw or vegetable matter in any form. Get it back into your soil. The land it grew on needs it. And don't soil straw for a mere song. Nearly all this land is short of humus now and getting more so. Better crops would be the result of rotting the straw evenly in the soil instead of in huge piles. Lay cement floors in all stables. Draw in the straw and use it freely for bedding. Take it out saturated with liquid manure, which now goes to waste, liquid manure, pound for pound, much more than the solid manure. Get twice as many loads of manure in a winter and worth about twice as much per load if you want to attain the highest success and are not "lazy too much."—Practical Farmer.

WHEEL ROOST.

Novel Plan for Securing Warmth and Comfort to Hens.

The coolest and most practical device imaginable for furnishing warmth and comfort to the hens during winter

A NEW STYLE OF ROOST.

nights has recently been suggested. After a thorough cleaning of the floor in the poultry house a stout hickory post about two and one-half inches in diameter is driven firmly down about three feet from the wall. If the house is small, so only one is needed, put it in a corner. Sharpen the top of this stake and set thereon a discarded wheel. This makes an ideal roost, one which will accommodate from twenty-five to thirty hens, according to size of wheel. It is remarkable how such a roost delights the hens. The spokes are all on a level. The rim and spokes make a natural foothold, there is no falling off, and the hickory sits in a fluffy bunch, as "comfy" as you please.

But the roost is only part of the plan. If the wheel is placed in a corner the two walls will furnish two sides of the proposed "bedroom." Set a post of 1 by 2 inch strip four feet from each of the side walls. Nail other strips from the top of this post (which should be two feet higher than the wheel) to the side walls. From these strips hang a curtain made of either canvas, muslin, coarse burlap or old carpet, according to convenience, which can be rolled or put up in the daytime out of the way. Over the top make either a board covering or one of the curtain material. In this way the hens are comfortable even in a cold house. In many respects burlap is the best curtain material, as it admits air, yet is draft proof.

The wheel should not be more than thirty inches from the floor. The "hop up" box will prove a convenience. The wheel is also very easily cleaned. Take it outside and after placing it on a bunch of straw fire it for a brief space, or it can be readily sprayed first on one side and then the other.

The advantages of this scheme, as described in Iowa Homestead, are evident. The old way of fastening the wheels to the side walls, from these strips hang a curtain made of either canvas, muslin, coarse burlap or old carpet, according to convenience, which can be rolled or put up in the daytime out of the way. Over the top make either a board covering or one of the curtain material. In this way the hens are comfortable even in a cold house. fact, most all garden products except melons—do well here. Tomatoes yield abundantly, but owing to cool nights are hard to ripen on the vines. Corn is grown for table use and could be grown for silage, but clover hay at present constitutes the roughage. Most all fruits, except peaches and apricots thrive here. All berries, plums, prunes, apples, pears and cherries do exceedingly well. Trees overbear and as they are not cared for have the appearance of being short lived. There are no potato bugs on the coast and no apple worms in Beaver valley. There are aphids, cabbage worms, cut worms, but no worse than other places. Dairying is in its infancy here, but owing to the abundance of clover and pure running water it is destined to become a leading industry. The same can be said of poultry raising. Swine are healthy and free from disease.—L. G. in Orange Judd Farmer.

Fraternities in Public Schools.

Opinions differ among educators and college authorities as to the influence of secret Greek letter societies in colleges, but the judgment is well nigh universal that these close organizations are detrimental to discipline in high schools. Among the objections to these fraternities the most important relate to the matter of discipline. It is said that they antagonize the democratic spirit which should mark an institution supported by public money, that they elevate the few favorites of cliques to honor and distinction, ignoring the rightful authorities and the entire student body, and foster sentiment against the principals and individual teachers. Other influences are cited as detrimental, but these might be exerted on the playground even were there no societies working in secret.

Chicago school authorities find the problem a difficult one. Many smaller communities have tackled the question and carried the contest into court with varying results. College students are more mature and have a deeper sense of honor to act as a restraint upon conduct. They may not, like public school pupils, claim rights as against teachers and faculty. Greek letter societies could not exist in higher institutions of learning without the toleration of the authorities. Unless power is given to public school boards to suppress movements of this character it will devolve upon parents to co-operate with the school authorities and use their moral influence with the boys and girls to regulate if not stamp out the evil wherever it appears.

Our Irish Immigration.

The fact that more than eight out of every 1,000 inhabitants of the old sod emigrated to this country last year shows that our charms are still superior to those of the Irish Antimigration league. Nearly as many people as now inhabit Ireland have left its shores for other lands during the past forty or fifty years. Doubtless the most of these emigrants were impelled by the desire to better their condition, but the future historian when he is called upon to deal with the subject will be apt to attribute the steady desertion of the island by those who can get away from it to oppression and misgovernment. In no other way will he be able to reconcile the fact that concurrently with the steady flow of Irish emigration Great Britain has enjoyed a degree of prosperity which should have had the effect of making all parts of the kingdom a desirable place of abode.

Compared with the flood tide of immigration to the United States, the showing in recent years has declined in bulk, but for the very good reason that there were fewer to emigrate. Fifty years ago, when this country received about 90,000 Irish immigrants annually, the population of Ireland was more than double what it is now, when the annual immigration averages about 37,000. And all who leave Ireland for the western world do not enter the United States.

Gold Galore Without "Prosperity."

It is rather a curious condition of things that the Transvaal, in Africa, of the region now producing a greater quantity of gold than any other part of the world, should be in the throes of a business depression. The phenomenon is probably due to the fact that the gold taken out of the Transvaal mines does not stay in that country.

There was a time when the United States, although a producer of gold on a vast scale, was periodically in a state of monetary panic and business depression, a condition which, in many if not all instances, could be traced to
