TROUTDALE

Fourth of July celebrating was carried on to such an extent on Thursday night that several business men are minus window panes. Enough dynamite to destroy the town was deposited and lighted, but happily did not explode. Sheriff Stevens has been out investigating, but at this writing the culprit has not been found.

Troutdale is doing a rushing business since the new electric road started up. Both hotels are crowded to the limit, causing their owners no end of work to care for their growing patronage. The merchants are very happy too over an increase of patronage by reason of the new road.

James Latham, Troutdale's popular blacksmith, has the most of the material on the ground for a 24-foot addition to the shop, after the erection of which he proposes to put in a rubber tire setter, paint shop and other first-class additions to his rapidly growing business.

Judge F. E. Harlow's smiling countenance has materially broadened in the last few days, and well it might, for his better half—who had never left him before—has returned from a much enjoyed visit to the home folks in California.

Jack Moore, foreman for J. Bramhall's lumber and tie business, had his hand very badly crushed last Friday morning. Bones were broken and the doctor found it necessary to take him to Portland for treatment.

Some intoxicated young fellow from Portland assaulted a Japanese here on July fourth, and before he could be rescued, was badly injured. The sheriff has been investigating the matter.

S. J. Mickley of Portland has been visiting his son, Daniel Mickley, of Portland.

C. Hoyt of Seattle and Charles Hoyt of Portland were guests of their brother, Bert Hoyt.

Mrs. Frank Jones has sold her property, situated in the east part of town, to William Butler of Latourell Falls. Mrs. Jarvis will take possession in two months.

"The Morning After"

A. Fox of Troutdale, together with other business men did not altogether relish the finding of four sticks of dynamite the morning after the Fourth in front of his powder house, tied together, with a cap and a half burned fuse attached. It was no fault of the interested parties that the blast did not take place, but it certainly was very fortunate for the town, for if the dynamite had exploded the powder in the rough board shack containing it, serious damage and perhaps loss of life would have followed. Frank's of this kind are a menace to life and limb and should certainly be stopped.

Young Man Drowned at Troutdale

Willard Friedley of Hood River was drowned in Sandy river near the Advent camp ground at about 3 o'clock last Saturday. Willard and Roy Cooper, also of Hood River, were swimming. Willard had swam across the river and while returning became exhausted. His companion went to his rescue, but became exhausted himself before he could reach the shore with Willard. The body was rescued about two hours later. Coroner J. T. Finley was summoned. Deceased was a son of A. J. Friedley, R. F. D. carrier on route No. 1 at Hood River. The father came down and took his son's remains home on Sunday morning. Willard and his sister were camping on the Advent camp ground.

The Doctor Away from Home When Most Needed

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus require prompt treatment and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by all dealers.
