There are several reasons why you should invest at once

in THOMPSON'S ADDITION

TO GRESHAM, OREGON

No man ever became rich by manual labor alone. Thousands of men have become rich because of invested moneys earned by manual labor. An opportunity to make money is here offered. The poorest man or woman in Oregon can make the first payment on a lot in THOMPSON'S ADDITION and will have no difficulty in making small regular payments thereafter. It is a safe investment. Better than to save nothing. Better than life insurance. This you can realize on while you live. It is better than money lying idle.

Gresham is gradually but surely coming to the front. Property is steadily increasing in value. Hence a lot bought at prices offered now will double in value in a few months. It is a safe, sane investment, one that is not going to burn up, fly away or become entangled because of bank failure or otherwise. The discovery of Oil and the formation of a company to bore for the same certainly will not detract from the value of the property. No change, however, has been made in original price because of this discovery. If you want a lot in THOMPSON'S ADDITION at bed rock prices you should buy now. The reasons are apparent.
