

WHY IS

# FAIRVIEW

## A GOOD PLACE TO LIVE?

Because it is only 30 minutes ride from Portland by railroad.

Because it is only 50 minutes ride from Portland by electric cars.

Because we are directly located on the 80-ft. Portland to Fairview and the Columbia river boulevard which will be built in the near future.

Because we will have the Mt. Hood electric line forming a junction with the O. R. & N. railway and O. W. P. electric railway.

Because we have a transcontinental railway, one electric line now running, one more to be built soon--and water transportation almost at our door.

Because you can buy lots and acres for less money than any other town near Portland.

# What Fairview Wants

PEOPLE who will invest in lots or acreage, build a comfortable, cozy house and take pride in keeping their places looking neat and clean.

PEOPLE to come and live with us who are interested in good schools and churches and will support our interests in every particular.

PEOPLE who believe that it is better to live in a town where there are no saloons and law and order are enforced.

This space will show next week some of our most substantial residences, school house, churches etc., etc.

Remember Fairview lots are 50 x 150 feet,

While most lots laid off in additions around Portland are 25 x 100, that purchasers are getting twice the amount of land for less money.
