Mineral Wealth of the South. About one-seventh of the mineral production of the entire country comes from the Southern States. Of bituminous coal, the most valuable mineral, the South produces one-fourth, and of iron about one-ninth. Its total coal resources amount to nearly 600,000,000,000 tons, or more than one-fourth of our estimated coal reserves.

THE INDIANS' NEMESIS. A Nonagenarian Who in His Day Has Killed Hundreds of Redskins. Upon a bank of the Missouri River in Cedar County, Nebraska, lives alone a man ninety years old, who has killed hundreds of Indians. No one knows how many "redskins" he killed. He does not himself know. But forty-three years of his life were devoted to the one effort of killing as many as he could in revenge for the massacre of his three children.
