HAD AN AWFUL TIME

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him

"It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not possibly have lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude, and I shall always speak a good word for this remedy."—Sam H. Gwin, Concord, Ga. For sale by all druggists.

RINGLING BROTHERS CIRCUS AT PORTLAND

World's Greatest Show Exhibits there Monday and Tuesday, Aug. 26 and 27.

The people of this vicinity will have an opportunity of attending Ringling Brothers' circus at Portland on Monday and Tuesday, August 26 and 27, and it is probable that many will go from here, as this splendid organization is far better than ever before, being made up almost entirely of European performers new to America.

The equipment of the circus is all brand new, and over a million dollars was spent in adding novel features. The greatest parade ever presented will take place in the forenoon. In it will be 1,264 men, women and children, 658 horses, nine herds of elephants and three miles of hand carved golden chariots, floats and dens, and gorgeous spectacular attractions.

Space will permit of only brief mention of the many European novelties, presented in a tent twice as big as that of any other circus. The Ricoibonno horses wear boots, coats and trousers. One sits in a chair and reads a newspaper. When the clock strikes ten he lights a candle, goes to his bed, removes his clothes, even to his ponderous boots, blows the candle out and retires. Last winter people went from all over Europe to Paris to see the act.

An agent of the show secured through the efforts of an American diplomat permission from the Shah of Persia to bring to this country the wonderful Mirza Golem troupe, favorites of the Persian monarch's court performers. It is the first time they have ever been permitted to leave Persia. No one ever saw the act except royal visitors at the Shah's palace. Other European performers are Daisy Hodgini of Italy, the only woman who can turn a somersault on a horse; the Marnello Marmites, who while turning somersaults and hand-springs from shoulder to shoulder play on Swiss bells; the Patty Brothers of Paris who hop up and down stairs and skip the rope on their heads; the De Kocks from France, with their wonderful dog which walks on its hind feet around the ring, balancing a man on its head; the Holloway family of London, the greatest high wire artists on earth; the Jordan family of aerialists, the greatest in the world; the Kauffmann family of unicycle riders; the great Belfords, the Clark Brothers of England, the Boricis of Naples, Marguerite and Hanley of Berlin, the Noetzel family of Dresden and 300 more of the picked talent of the world.

Fairview Grange To Help Big Fair

At the last meeting of the grange on Wednesday, Aug. 7, many plans for assisting in the County Fair and Carnival at Gresham were discussed and adopted. Mrs. C. Shepard was elected lecturer to take the place of Mrs. Alma Hall, who resigned on account of sickness in the family. Three new members

West Coast Mardi Gras

Special trips will be made to the summer resorts from Astoria during the regatta and county fair, which will be held in conjunction with the Norwegian saengerfest of the Northwest on September 2-4, and the annual outing of the Oregon State Editorial association. The saengerfest will be held from August 30 to September 2. Its biggest aggregation of celebrations will be in charge of the Astoria Chamber of Commerce, and the members of this organization are working hard to make the event the biggest success of anything ever held in a Coast city. The county fair will also have exhibits which will astonish the people interested in this feature of the big program.

The editorial association will be given an ovation and reception by the people of Astoria on their arrival in the city. Every visitor, and there will be the largest crowd present in the history of the Columbia's seaport—will be made to feel at home and glad that he or she decided to attend the Mardi Gras of the West Coast.

POWELL VALLEY

David Palmblad and John Unis spent Saturday and Sunday in Portland.

Mrs. Anderson and her little girl of Portland have been visiting with Mr. and Mrs. F. Gustafson the past week.

Additional Gresham Locals

(Continued from First page.)

Bargains in the "Herald Want Ads." Mr. and Mrs. Charles Stilson of Troutdale have moved to their wheat farm at Endicott, Wash., for the summer.

James Reed, Miss Ethel Clarke and Herbert Clarke of Portland, Chas. Cleveland, Wendell Cleveland and Miss Maud Cleveland spent a very pleasant vacation at Sefton's place near Mt. Hood, returned the latter part of last week.

H. B. Taylor, of Iola, Waupaca county Wisconsin, and his old schoolmates,

Ed Smith of Cleone and H. P. Hatch of Gresham, were pleasant callers at the Herald office last Friday. Mr. Taylor returned to Wisconsin last Saturday. While here Mr. Taylor called our attention to the fact that this country is far behind the east in dairy products; and this he thinks is altogether uncalculated for. We have a better climate and better conditions generally than has Wisconsin and should make a better showing. An average of \$10,000.00 a month is paid to the farmers of that district by the big co-operative creamery located at Iola. Gresham, said Mr. Taylor, should have a farmers co-operative creamery located at Gresham, all of which we heartily endorse.

Theo. Brugger and family have gone to Welch's for a short outing.

Mrs. A. C. Browning made the Herald a very pleasant call last Friday.

Mrs. Ethel McLain Miller of Roseburg and her sister, Mrs. Hester Lawrence, made this office a pleasant call last Saturday.

Dr. A. Thompson returned the latter part of last week from a business trip to Dayton Wash.

N. L. Smith has commenced the erection of a concrete potato cellar with a capacity of 2000 bushels.

Gus Richey and family returned on Monday from a trip by wagon to Tillamook. They report a pleasant time, also that Miss Culy and mother and Mrs. Anderson and daughter, all of whom they found well, will return to Gresham early this fall.

Marshall Gullicksen and B. F. Raney made a hunting expedition to the mountains recently by way of Estacada.

A number of fans from Oregon City were on hand to see the ball game Sunday.

Subscribers wishing to have their addresses changed should give the old address as well as the new. We are unable to remember the address of each of the more than 1200 copies sent out.

Fred Palmquist has accepted a position with the O. W. P. as conductor.

Minnie Palmquist has gone with A. L. Maybese and family to Mt. Hood.

Our staunch friend and subscriber, Frank Esquilar, increased the smile on the editorial countenance recently by contributing a big dollar to the success of the Herald.

Mrs. Elliott and daughter, Mrs. F. I. Wilson, of Powell's Valley were in Gresham recently.

The stock of the Multnomah and Clackamas county Mutual Telephone company has been advanced to \$30 per share.

HOG FEEDING.

Soy Beans Proved to Be a Valuable Adjunct to Corn.

An experiment in feeding a lot of hogs at the Purdue university station leads to these conclusions:

Soy beans proved to be a very valuable adjunct to corn, being the most efficient food tested.

Pigs fed a ration of one part soy beans to two parts corn produced two and one-fifth times as much gain in the same length of time as did those receiving corn only.

It required 310 pounds of feed per 100 pounds of gain where one-third of the ration was soy beans, while it took 557 pounds per 100 pounds of gain where corn alone was fed.

Comparing the soy bean ration with the middlings and tankage rations, the amount of feed required per 100 pounds gain stands—soy beans and corn, 310; middlings and corn, 343; tankage and corn, 320 pounds.

Cornmeal alone was shown to be very inefficient as a pork producer.

The pigs receiving a ration of one-third soy bean meal and two-thirds

Potatoes and other root crops are irrigated by furrows made midway between the rows. These furrows should not be over 600 feet long, and in light sandy soils with little fall this distance should be reduced. The length of the furrows may be readily shortened by putting in more head ditches. Short furrows insure a more even distribution of water and frequently prevent injury to the crop by the waterlogging of a part of the soil.—S. Portier.

FAIRVIEW

IS TO BE A

RAILROAD CENTER

Is no longer doubted, and to be thoroughly convinced just drop into the town on the 24th of this month at about 1:30 p. m. and take a bird's-eye view of the crowd coming from Portland to buy lots and acreage.

Don't Come Expecting to Get Something for Nothing YOU CAN'T DO IT

It has taken a long time to overcome the convincing arguments of the knockers, but we have won out and progress will be our motto until our town is filled with progressive people.

A. L. STONE, - FAIRVIEW, ORE.

SOY BEANS.

cornmeal produced 402 pounds gain. A ration of one-half middlings and one-half cornmeal produced 365 pounds gain. One-sixth tankage and five-sixths cornmeal produced 348 pounds gain, while a ration of cornmeal produced only 183 pounds gain. Stated in another way, cornmeal alone produced less than one-half the gain made by a ration of one-third soy beans and two-thirds corn, one-half as much as middlings and corn and but little more than one-half as much as tankage and corn.

Cornmeal alone impaired the digestive capacity of the pigs, as shown by the feed consumed, which was 320 pounds less than any other lot consumed.

The longer the pigs were fed on corn alone the more inefficient it became, requiring 1,214 pounds of feed per 100 pounds during the last week of the test against 260 pounds the first week and an average of 557 pounds.

Cornmeal alone produced poor appetites, light bone, deficient development in valuable portions of the carcass and a general state of unthrift, as shown by the hair, skin and hungry look of the animals.

The gains on pigs fed under the conditions of this test cost \$5.01 per 100 pounds where cornmeal alone was used, \$3.44 with one-half middlings, \$3.59 in the lot receiving two-thirds cornmeal and one-third soy bean meal and \$3.71 where five-sixths corn and one-sixth digester tankage were fed.
